

Wizard 165

Chapter 165: Extraordinary Power! (1)

Old men are wise, and old things are evil.

Levi could confirm this.

Previously, the actions of the Great Ice Ape King to drive away the Armored Mammoth beast should have been planned.

In this way, the Great Ice Ape King could continuously obtain food from the humans without sowing through faith and then give it to the Armored Mammoth.

Two days ago, after being frightened by him, this beast smelled danger and immediately ran away to find his brother Armored Mammoth.

"It's a bit troublesome now. It's not a problem to defeat two grand knight-level beasts simultaneously, but it's a bit troublesome to capture them alive at the same time."

"Armored Mammoth is most likely the main raw material of a secret medicine for a breathing technique. It's not worth much to kill, so we might as well capture it alive."

Levi analyzed the pros and cons in his heart.

Although his current breathing technique did not require the Armored Mammoth, it might be needed.

To be prepared, he decided to capture these two fellow alive!

To be safe, Levi had Magic Shark guard this dungeon quietly.

He rushed back to Jackdaw City overnight and worked hard all day and night to produce another three hundred portions of Sleeping Potion.

To refine these anesthetics, the proficiency of his Pharmacy skills increased by more than 1,000.

As long as he could capture these two big fellows alive, he would be able to return.

All the trouble was worth it.

In the past, Levi had not developed the Wild Heart enough.

However, as he continued to grow stronger, Levi realized that the unique effect of Wild Heart was auspicious.

He had the Seal of Hell and could summon seven grand knights-level living dead.

He could use the Summoning Style; to use Wild Heart to tame powerful creatures gradually.

On the one hand, that could let Levi prepare the secret medicine for the breathing technique in advance.

On the other hand, it could also strengthen the territory and its strength.

At that time, he would directly create a team of armored giant beasts, three brothers, Armored Mammoth, and the Great Ice Ape King... It would be exciting to be in a battle with such strength.

Levi returned to the canyon.

The Great Ice Ape King was still here.

It seemed that it did not intend to care about its believers during this period.

"Let's deal with the Great Ice Ape King first. This guy runs fast; we can't give it a chance to escape."

Levi took out his specially made arrowhead.

The arrowhead was made of bright gold and was hollow in the middle. It was filled with the Sleeping Potion.

To capture these two alive, Levi had gone all out.

Then, with his maximum archery skills, he could hit every shot.

The arrows filled with Sleeping Potion shot out one after another under Levi's peak strength.

He had successfully broken through the defenses of the two giant beasts.

Levi had done his homework and knew where their defense was the weakest. Soon, the two giant beasts woke up from their slumber and looked around.

"Let's go, Magic Shark. After this, we can go home."

After Levi finished speaking, he had Magic Shark charge out.

Magic Shark was like a human tank, charging towards Armored Mammoth.

It would take some time for the anesthetic to take effect, and Levi was unsure if it would take effect, but he could only use it first.

At the same time, Levi arrived before the two giant beasts.

He used the Seal of Dragon Might that he had prepared beforehand.

As the flames rose, golden eyes appeared in the void. Then, with a dragon roar, an invisible spiritual impact swept toward the two giant beasts.

In the next moment, Levi noticed that both Armored Mammoth and Great Ice Ape King seemed to have been hammered by an invisible hammer, and their bodies trembled.

However, that was all. The Seal of Dragon Might was mainly targeted at evil spirits. It did not cause much damage to the minds of these living beings.

However, it was fine as long as it was effective.

Levi then released 10 Seals of Dragon Might in a row.

It made the two big guys lose their balance and sway.

In addition, the Sleeping Potion that Levi had used was a hundred times more effective than the average person's.

The two giant beasts could not hold on any longer and fell to the ground with a bang.

Everything went much smoother than Levi had imagined.

"Although they have the strengths of a grand knight, they are still much easier to deal with."

Nothing was more dangerous and terrifying than the strength of the geniuses.

Taking advantage of the two big guys' sleep, Levi quickly put on the custom-made shackles mixed with mithril.

Only half a day passed.

The two giant beasts woke up from their slumber.

One could see how powerful their physiques were.

This was the first time Levi had seen Armored Mammoth.

This guy was as big as the Giant Rhinoceros or even more significant.

Its entire body was naturally covered with a layer of scales similar to that of the Earthly Dragon Beast, which made it invulnerable to swords and spears. Moreover, this fellow was also mighty.

Levi stood quietly in front of the two giant beasts.

The Great Ice Ape King glared at the man in the White Wolf Mask.

It did not expect to be found by this fellow even though it had taken the initiative to dodge.

D*mn, humans!

The two giant beasts struggled, but the mithril shackles secured their limbs. They could only keep working on the spot.

Moreover, the damage caused by the Seal of Dragon Might and the anesthetic potion had made them a little tired, as if they had not slept for a month.

"I know you two are brilliant so I will get straight to the point. I will not hurt you if you obey me and become my pet. Instead, I will treat you well so you will not have to live in this barren wasteland and rely on deceiving mortals to exchange for some insignificant food.."
