

Wizard 168

Chapter 168: Level 9 Black Snake! (1)

[Giant Breathing Technique: Level 4 (1/20000), Special Effect: Beginner Strength.]

"The Giant Breathing Technique is at its maximum at level 9, while the Giant Rhinoceros Breathing Technique is at its maximum at level 8. There's no need to break the limit of the Giant Rhinoceros Breathing Technique anymore. After the Giant Breathing Technique reaches level 9, the limit of level 8 of the Giant Rhinoceros Breathing Technique can be converted into five breakthrough points for the Giant Breathing Technique."

"In any case, the current Transcendent Power is completely sufficient."

According to Levi's estimation, he would need 7 breakthrough points to break through the limit of level 9.

He had obtained the Sandigo Breathing Technique some time ago, also the strength-type breathing technique. Moreover, it was a level 6 technique that could be converted into three points to break through.

The Sandige Breathing Technique and the Giant Rhinoceros Breathing

Technique should be enough for the Giant Breathing Technique to break through. After the Giant Breathing Technique reached level 10, Levi would fuse the Ostrich Mountain Breathing Technique and see if the breathing technique could break the limit again after level 10.

In short, Levi did not lack any strength-based breathing techniques.

During this cultivation period, Levi's Siren Breathing Technique also greatly improved.

However, to prevent the Black Snake Breathing Technique from being unable to suppress so many level 8 breathing techniques, Levi temporarily slowed down the cultivation speed of the Siren Breathing Technique.

He wanted to reach level 9 of the Black Snake breathing technique before reaching the maximum of the Siren Breathing Technique.

This was more reliable.

"Now that my Giant Breathing Technique is on the right track, I'm only missing the Vortex Beast Breathing Technique."

"In terms of seal cultivation, the proficiency of the Seal of Flame is slowly increasing. It is estimated to reach level 3 next year. The Seal of Dragon Might has stagnated, and so has the Seal of Protection."

"The Golden Cross Slash is slowly improving."

"Now is the golden time for me to develop. I won't go anywhere next. I'll cultivate in peace and first raise the Black Snake to level 9."

Levi made his next plan in his mind.

After the two generals arrived in the territory, they lived in luxury. Levi was happy to do so. After all, they were the guarantee for his future breathing technique cultivation.

Everything in the territory was normal now. Levi filled the whale sac again and fed the Bag of Gluttony to its fill.

He felt that this storage tool was too useless. It was not the kind of divine artifact he had imagined, like the storage ring.

After all, he had to feed them occasionally, or there was a risk of losing the items.

However, Tutensaid that the Bag of Gluttony was probably the earliest version, and the later versions might be improved. However, he had left the wizarding world too long, so he was unsure.

Levi did not dwell on it. After all, having a storage item was already a vast improvement.

The path had to be taken step by step, just like his experience.

Levi continued his seclusion.

He even placed the breathing technique that he had mastered entirely in the Shining Tavern in exchange for some potential collectors of breathing techniques.

He was looking forward to learning breathing techniques he had never known before.

At the same time, inside the Icewind City, the Earl of Silver Mountain, who had gone out with the army, had also returned to Silver Mountain Castle.

He was exhausted. Even with his strength as a grand knight, he seemed to be exhausted from this battle.

He looked at the soldiers who were training and the mithril armor and weapons he had prepared. He suddenly felt that all his preparations were meaningless.

No one cared about Snow Demons.

Until now, it was still the same.

This made the Earl of Silver Mountain feel very discouraged.

He went to look for his old friend Adolf, the head priest of the Icewind Church and expressed his worries.

Adolf shook his head and said with a bitter smile, "I can't persuade them either unless the Pope personally persuades them. In this chaotic world, it's good enough to be alive. Don't worry too much. I heard that there's also good news from the Evernight Kingdom. It seems that a city with many Snow Demons has been successfully wiped out. It seems that the Evernight Kingdom still has some strength. Let's wait and see."

Adolf was just a retired head priest who was in the second tier. Although he was still a big shot in Icewind City, no one in the kingdom would care about an old man's words.

The Earl of Silver Mountain could only return helplessly.

Just like that, the days passed.

Some people were happy, while others were sad. This was all there was to the world.

To live peacefully in a corner was the ideal of many people.

For example, Levi was in a frenzy in God's Sanctuary.

It was the year 1012 of the Holy Brilliance Calendar, the Month of Germinal.

The Giant Breathing Technique was now at level 5.

For Levi, cultivating breathing techniques before level 7 was as easy as flipping his hand. Breaking through was as easy as drinking water.

As for Levi's Black Snake Breathing Technique, the progress bar was also halfway done.

However, it was still far from enough. If he wanted the strength to fight against the Duke of Montenegro, he would have to be at least at the maximum of Black Snake's level 9.

Coupled with the fact that the other party might have mastered the power of evil spirits, it might be more stable for him to reach level 10!

Just as Li Wei was secluded, a strange change occurred in Icewind City.

A few days ago, the Earl of Silver Mountain had been attacked by a powerful evil spirit after returning from the battlefield.

Although he was lucky enough to keep his life, he had to pay a great price to recover barely.

His strength was no longer at its peak, and he did not know when he would recover.

The invasion of the evil spirit angered the head priest Adolf of the Icewind Church. The evil spirit frequently doing bad things under his eyes made it intolerable, and he swore to fight the evil spirit to the end.

However, not long later...

Adolf was also attached....
