

Wizard 173

Chapter 173: Transcendent Speed, Bullet Time! (3)

He looked at the new Transcendent Speed.

Levi heaved a sigh of relief.

Finally, before dealing with the evil spirit, his strength had soared again.

The current Levi already possessed four Transcendent attributes.

They were Black Scale, Transcendent Power, Transcendent Endurance, and Transcendent Speed.

Anyone with one of these four Transcendent attributes could be called a grand Imight.

But Levi had four!

He could only be described as a monster.

Levi's whole body exploded and shot out.

He turned into an afterimage and brought up a trail of dust.

The high-speed wind pressure could not shake the protective black gas around Levi.

"So fast. It feels like I'm flying."

Levi stopped moving. He had already covered a hundred meters in one second.

"With my Transcendent Endurance, this extreme burst of speed should last five minutes."

In other words, the current Levi could run dozens of miles in five minutes at full speed.

To him, no means of transportation in this era was as fast as his feet.

"Now, I'm even more confident dealing with the evil spirit."

Levi returned to Icewind City and quietly waited for the arrival of tomorrow.

The next day, his competitors had already started to search for the evil spirit early.

Levi sat quietly at home.

Levi muttered, "That evil spirit might come looking for me. If it's still in this city..."

Levi had already prepared the casting materials for Seal of Protection, Seal of Flame, and Seal of Dragon Might.

The Black Snake species in his body was even more ready to attack and drown the evil spirit with surging black gas at any time.

Magic Shark and Demon Mountain were loyal guards protecting him on both sides.

Levi waited from day to night.

The evil spirit did not appear.

"Did it look for the other grand knight?"

Levi's heart skipped a beat.

His figure leaped and left the room. Magic Shark and Demon Mountain followed behind him.

Soon, Levi found the grand knight.

He was waiting at the church.

Seeing that the other party was refined, Levi knew there was a high chance that the Soulstealing Nun had not appeared yet.

At the same time, Levi's Spider Sensing perceived danger.

The source of the feeling was in the church.

"Looks like it's going to possess a nun?"

Levi thought of the hint given by the Earl of Silver Mountain.

After the evening class, the nuns returned to their dormitories.

Only one nun did not return. Instead, she sneaked out of the church door.

Her face was expressionless as she mumbled meaninglessly.

Under the moonlight, the nun began to run. She ran faster.

She was so fast that she exceeded the limits of mortals. The nun's body had already begun to crack. A mortal's body could not run so fast at all.

The nun rushed towards the grand knight.

The heavily armored grand knight sneered, "You're here indeed. I've been waiting for you for a long time."

Wisps of black gas emerged from his armor and danced wildly in the night.

The nun was like a ghost, appearing behind the grand knight.

The grand knight turned around and slashed his greatsword forward.

The nun wailed silently.

A soul-stirring power swept through the entire arena.

The grand knight paused.

She seemed to be struggling, but after killing so many people, the nun's strength was much more potent than before. The grand knight worked for a while and fell into a temporary state of absent-mindedness.

From afar, Levi could see the nun's long tongue sticking out of her mouth like a

Tentacle, reaching into the grand knight's mouth. In the next moment, an illusory shadow appeared.

That was the soul of a grand knight!

"What a powerful mental attack!"

At this moment, Levi had already rushed up.

This was the best time to deal with the Soulstealing Nun.

The Soulstealing Nun seemed to have noticed Levi's arrival.

Her head suddenly turned 180 degrees.

She wanted to wail at Levi.

Levi's Remnant Sound of Gold was already unsheathed. The greatsword stabbed into the Soulstealing Nun's mouth.

"I'll make you scream!"

The surging black gas was injected at the same time!

Boom!

Accompanied by this surge of black gas, the nun's head exploded.

Blood splashed everywhere.

The Soulstealing Nun, hiding in the cave, appeared before Levi.

At the same time, the soul of the grand knight who was pulled out was about to disappear.

Levi's body was surrounded by black gas as he took form.

"Black Scale!"

Gaseous scales began to cover Levi's body.

Layers upon layers, metal clashing!

The nun's long tongue struck Levi's chest.

It was as if she had hit an iron plate.

Levi's right palm turned into a claw and grabbed the Soulstealing Nun's tongue.

At the same time, Levi released the lamp spirit.

"Tuten, take the soul of that grand knight," Levi said coldly.

Seeing this, Teuton immediately ran over excitedly.

Before the grand knight's soul dissipated, it was devoured.

Tuten's artifact spirit body also became more solid.

The soul of this grand knight was a pleasant surprise.

Levi let Magic Shark and Demon Mountain carry the grand knight's corpse while he grabbed the Soulstealing Nun's tongue, ignoring her ghost claw attacks.

He brought this evil spirit and quickly ran into the wilderness.

It was not good for Levi to use his true strength and trump cards near the church.

In the wilderness, Levi descended from the sky.

The ghost claws had already shattered his black scales.

But when the ghost claw touched his Golden Robe, it lost strength.

Levi stretched his muscles and bones as he looked at the Soulstealing Nun with a sinister smile.

"Now, let me see your strength."

Levi's black gas black hand ripped off the Soulstealing Nun's tongue and grabbed her arm.

He swung it around in the air.

Her mouth moved slightly. Levi knew that she was going to launch another attack.

He directly used the Seal of Dragon Might!

The descend of Dragon's Might!

Under the trembling of Dragon's Might, the Soulstealing Nun's attack was interrupted.

Not only that, but her figure had also faded a little.

"Just this?"

Levi continued to attack fiercely.

His Seals of Dragon Might seals poured down.

The Soulstealing Nun's figure kept fading.

Her most powerful attack could not be used before Levi.

The other attacks were just so-so, and there was a limit to her strength. It could not break through Levi's Level 9 Black Snake's gaseous Black Scale and the Golden Robe underneath.

This was the strength of the Black Snake!

In the end, Levi, who had lost interest in the evil spirit, cast more than ten Seals of Dragon Might in a row.

It shattered the evil spirit's body.

Black gas grabbed it.

Levi asked Magic Shark and Demon Mountain to wait for him in the wilderness with the grand knight's corpse.

He grabbed the Soulstealing Nun and walked towards Silver Mountain Castle.

Only now did Levi realize that, unknowingly, as he continued to cultivate, he could already beat up the evil spirit that everyone was terrified of....
