Chapter 174: Level 3 Flame Stream, Black Snake Returns!

(1)

In Icewind City, within the Silver Mountain Castle, the Earl of Silver Mountain was handling government affairs when a figure suddenly appeared behind him silently.

He turned around and saw the knight with White Wolf Mask.

A robust black gas permeated the air in that person's hand. An illusory evil spirit was struggling in the black gas. It was fragile and seemed like it would dissipate with the wind at any moment.

The Earl of Silver Mountain's expression froze.

"Sir...Did you succeed?"

Levi nodded.

"It's time for the Earl to fulfill his promise," Levi said.

The Earl of Silver Mountain looked at the White Wolf in disbelief.

Was this still the evil spirit that almost made him die without a burial place?

However, seeing the appearance of the evil spirit, the Earl of Silver Mountain knew it could not be wrong. This was the dangerous evil spirit, the Soulstealing

Nun.

"Alright, what do you want?" Earl of Silver Mountain asked.

"I want your breathing technique inheritance diagram," Levi said.

Earl of Silver Mountain looked at Levi and suddenly felt a sense of déjà vu.

There was someone who had made the same request to him.

Golden Warhammer Tyra.

The Earl of Silver Mountain seemed to have thought of something.

However, he was an intelligent person. He would not say anything since the other party could quickly kill a Dangerous-level evil spirit.

Hence, he was not his match.

Therefore, he wisely did not ask his question.

Sometimes, one shouldn't have curiosity.

It was fine as long as the two parties had no conflict of interest.

"Sure. "

The breathing technique inheritance diagram was nothing as long as he could eliminate this evil spirit.

It was just a hobby.

The Earl of Silver Mountain thought momentarily and added, "However, I am sorry that I cannot give you the breathing technique of our Silver Mountain Clan. I hope that you can understand. As compensation, I am willing to pay you an additional 2,000 gold coins."

"No problem," Levi said.

Every noble placed great importance on their ancestral breathing technique.

Even if others could not cultivate the Bloodline Breathing Technique, they wouldn't easily show it to others.

This was a symbol, a legacy, and a bottom line.

Thus, Levi did not insist.

Anyway, he was already handsomely rewarded with the other five breathing techniques.

Not to mention that he could take two thousand gold coins for free.

Very soon, Levi took away all the copies of the breathing technique inheritance diagrams from the Earl of Silver Mountain's collection.

The Earl of Silver Mountain's collection of so many years was all gone.

This pained the Earl of Silver Mountain.

However, compared to the safety of himself and his territory, these breathing technique inheritance diagrams were not worth mentioning.

The Earl of Silver Mountain knew what was more important.

The Earl of Silver Mountain asked, "Sir, how do you plan to deal with that evil spirit?"

"Of course, I would kill it," Levi said.

He rubbed it hard and wiped out the evil spirit bit by bit with the black gas. He used the tools he had prepared beforehand to store the Evil Spirit Dust.

"Earl, if fate allows, we will meet again."

The White Wolf chuckled and waved his hand before leaving the mansion.

The Earl of Silver Mountain stood rooted to the ground.

"Times have changed...

This was the most direct feeling that the Earl of Silver Mountain had.

Although he did not know about the Dark Wave, he could feel that the world was heading in the wrong direction daily.

Evil spirits, Snow Demons, or other monsters were about to appear.

Along with the appearance of these supernatural forces, some powerful and mysterious existences that had been hidden among the people began to appear.

His Excellency White Wolf seemed to be such a person.

Perhaps one day, even if a legendary wizard appeared before the Earl of Silver Mountain, he would feel normal.

The Earl of Silver Mountain returned to his mansion and sighed helplessly.

Levi had already returned to the wilderness.

The exorcism in Icewind City was just a small interlude.

He found Magic Shark and Demon Mountain. They were guarding the body of the nameless grand knight.

"You're not even a match for an evil spirit's combined might, yet you still dare to come and get rid of the spirit. Humans seem to like to overestimate themselves, unlike me, who will always underestimate myself."

Levi took out the anti-corrosion materials he had prepared and began to process the nameless grand knight's corpse. After he was done, he used the casting materials for Seal of Hell to resurrect him.

This was the third time he had made a living dead, so he was familiar with it.

Soon, the grand knight's corpse stood up shakily. From the beginning, it was not agile, but later, it was no different from usual.

"You shall be called Demon Hai."

Levi hastily gave the living dead a name.

"From now on, I would have 3 living dead companions."

Levi laughed in his heart.

With the help of three grand knights, his path to revenge was much more stable.

He then took out the breathing technique inheritance diagrams he obtained from the Earl of Silver Mountain.

There were five books, and Levi looked forward to the Red Lotus Breathing Technique most.

It was a perfect-grade breathing technique.

In the center of the inheritance diagram, the flames of the red lotus scorched the sky and earth, and the boiling lava swallowed everything. In the center of the fire, an indomitable two-legged beast raised its proud head, and its red breath spewed like the breath of a legendary dragon, tearing the sky and destroying the earth!

This was a powerful existence in myths and legends: Red Lotus.

It was said this was a terrifying existence that could tear a dragon apart with its bare hands, comparable to the gods.

Of course, this was only the saying of the breathing technique inheritance diagram. After all, in his family's legend, the Black Snake was also very excellent.

It was customary for every family to boast about their symbol..
