Chapter 177: Ashen Shadow? (1)

Before the Earl of Blood could run far, he realized that the God of Death had caught up with him. His speed was not slower than his!

The Earl of Blood exclaimed, “How is this possible? The Black Snake Knight only had a strong defense, but when did he become so fast? Are you the Black Snake Knight?”

Levi did not reply. Instead, he exploded and closed in on the Earl of Blood. The Earl of Blood could only stop and continue to attack Levi with his spear.

However, Levi grabbed his large hand and pulled his blood-red spear back.

At the same time, a palm landed on the Earl of Blood’s chest.

With just one palm, the Earl of Blood was sent flying like a kite with a broken string and landed on the ground in pain. “How is the difference so big?”

The Earl of Blood doubted his life.

Even the Duke of Montenegro could not suppress him so quickly.

Could the Black Snake Knight be resurrected and become a legendary knight?

Wasn't this a plot that only appeared in the stories of bards?

The Earl of Blood's mind was in a mess.

The person's strength in front of him had already exceeded his inherent understanding.

He looked at the figure that was like a demon god walking over step by step.

He knew that he was probably doomed.

Levi gave the Earl of Blood another sound beating.

The Earl of Blood was on the verge of death, like a weak lamb in front of Levi.

He pried open the Earl of Blood's mouth and placed the Man-Faced Spider's Kiss into his mouth. He let the Earl of Blood consume it and let it completely fuse with his body, preventing him from using the black gas to force out the poison.

Then, Levi left the castle with the Earl of Blood.

They arrived at a quiet place.

The Earl of Blood asked, "What did you feed me just now?"

His intuition told him that it was some poison.

"It's nothing. It's just a little poison that will make you wish you were dead."

"When this poison takes effect, you will feel as if ten thousand spiders are biting you in your head, heart, limbs, bones, and internal organs. It will make you feel pain and itch and wish you were dead," Levi smiled and said.

The Earl of Blood almost fainted, "You are so vicious and despicable."

"Compared to you and the Duke of Montenegro, I'm still far from being able to compare," Levi sighed.

"Who exactly are you? The Black Snake Knight was dead, and no one was left in the Black Snake Family. No one in this world could possess such a powerful black-scaled black aura. Wait a minute... You're Levi?" The Earl of Blood's expression changed as if he had recalled something even more terrifying.

"Next, I will ask, and you will answer. If you perform well, I will give you the antidote and spare your life. I need you to cooperate with me to do some things.

"Otherwise, I will let you die in the pain of the ten thousand spiders devouring your heart. Everything you have, title, territory, and descendants will become a dream," Levi said with a smile.

He did not answer the Earl of Blood's question directly, which made him even more afraid.

With Levi's current strength, it would not be challenging to assassinate all the Earl of Blood family members.

The Earl of Blood might not be afraid of death, but Levi knew that what they feared most for the nobles in this world was not death but the end of their family's legacy.

As expected, when he heard that Levi would attack his family, the Earl of Blood was no longer calm.

"What do you want me to do?" he asked.

The man in front of him had such strength.

The other party was an expert who was even more terrifying than a top-notch grand Imight.

Even the Duke of Montenegro was no match for Levi.

Next, Levi interrogated the Earl of Blood. The Earl of Blood told Levi everything he knew.

"Now, you can go back. Remember our agreement."

After the interrogation, Levi patted the Earl of Blood's shoulder and spoke kindly like an old friend.

The Earl of Blood nodded mechanically and left without looking back.

He had just witnessed the terror of the person in front of him.

This was already beyond the scope of his understanding of grand knights.

Powerful, mysterious, invincible, like a demon king!

Regardless of whether he was a Black Snake Knight or Baron Levi, he was not an enemy he should provoke.

Levi narrowed his eyes and was unafraid that the Earl of Blood would complain to the Duke of Montenegro.

Since he dared to take revenge on the Duke of Montenegro, he had absolute confidence in his strength.

He had many assassination techniques and supernatural abilities. He was more terrifying than an army to a grand knight like the Duke of Montenegro.

Moreover, there was the Man-Faced Spider's Kiss, the Sword of Damocles hanging above the Earl of Blood's head.

As long as the Earl of Blood had any disloyalty, the grand knight would die without the antidote.

The Earl of Blood also feared death, so the poison should still be effective.

Meanwhile, Levi had also learned about the Duke of Montenegro's situation from the Earl of Blood.

Meanwhile, Levi had also learned about the Duke of Montenegro's situation from the Earl of Blood.

First, the Duke of Montenegro was undoubtedly a top-tier grand knight.

However, the Earl of Blood could not tell how strong he was. In short, the Earl of Blood could not last more than ten rounds against the Duke of Montenegro.

This was the power of the Duke of Montenegro, who had also mastered some evil spirit techniques.

The Earl of Blood had seen it with his own eyes, but he did not know how it was controlled.

This was the Duke of Montenegro's secret..
