

Wizard 205

Chapter 205: Black Snake Breaks Its Limit! (2)

He was two meters tall, with solid muscles, a well-defined face, and a rough beard.

Levi's current style was getting further from the original intention of a handsome young master and a pale-faced young man.

Instead, he felt like he was Xu Ke's version of Yan Chixia.

Levi also went to the Black Water Valley and brought Hen-Ha Two Generals to Tulip Hill. Levi hid them in the dense forest behind Flower City and listed this area as restricted.

He was doing this for the safety of his subjects.

There were two grand knight beasts. If anyone went in, there was a high chance that they would not return.

With these two giant beasts guarding Flower City, ordinary enemies would not even know how they died.

The time passed, and another half a year had passed in the blink of an eye.

It had been over half a year since Levi moved into Flower City.

Big cities also had their advantages.

At least Levi did not need to enter the city frequently when he went to the Shining Tavern.

However, Levi did not lack anything.

Therefore, the number of times he went to the Shining Tavern decreased.

Most of the time, he was cultivating.

Occasionally, he would go to the Shining Tavern to eavesdrop on other people's conversations.

Or rather, he wanted to see if there was any trace of the Pyroxene.

Meditation Art was still gaining one point of proficiency per day.

However, this was a good thing for the cultivation of breathing techniques.

After all, there was still much time left after cultivating the Meditation Art daily.

During this time, Levi used it to cultivate his breathing techniques.

On average, he now slept less than three hours daily and saw Flower City at three in the morning every day.

He did not need so much sleep with his current physique and fitness.

Three hours was enough for him to rest efficiently.

Under such intense training, his breathing technique progressed at a rapid pace.

However, his breathing technique had its emphasis.

This was because Black Snake had been stuck at the peak of level 9 for a long time.

Therefore, Levi has been cultivating the Elephant Turtle Breathing Technique, an excellent defensive breathing technique.

After more than half a year of hard work, Levi had already reached the limit of this breathing technique.

[Elephant Turtle Breathing Technique: Level 9 (Maximum, can be broken), Special Effect: Elephant Armor (Gas)]

After reaching the peak of level 9, the Elephant Armor effect of the Elephant Turtle Breathing Technique was essentially similar to the Black Scale Special Effect of the Black Snake Breathing Technique.

Moreover, Levi tested it out and found that the defense of the Elephant Armor was almost the same.

However, the Elephant Armor made him look like a turtle.

It was not as beautiful as Black Scale.

Levi's body was now covered in layers of gaseous shell that looked like a turtle shell.

Suddenly, Levi noticed a problem.

The Elephant Turtle and Black Snake Breathing Techniques could be used simultaneously.

However, the special effects of the Elephant Armor and the Black Scale could only appear once.

"Looks like the special effects can't be easily stacked," Levi sighed.

He thought if the Elephant Armor and Black Scale effects could be stacked, he would not merge the Elephant Turtle Breathing Technique with the Black Snake Breathing Technique.

But now, it seemed that Levi was overthinking.

It was just like how two extraordinary defenses could not be stacked simultaneously.

The Elephant Armor and Black Scale could not be stacked simultaneously.

Since that was the case, Levi had nothing to be nostalgic about.

He had merged the Elephant Turtle Breathing Technique with the Black Snake Breathing Technique, and in addition, he had obtained a basic defensive breathing technique.

Levi's Black Snake Breathing Technique broke through the limit once again.

[Black Snake Breathing Technique: Level 9 (1/150000), Special Effect: Black Scale (Gas)]

"I can continue cultivating the Black Snake Breathing Technique. When I reach the peak of level 10 of the Black Snake, my cultivation level should be on par with the former Fist of the Empire and the Duke of Montenegro."

After Black Snake broke the limit, it surpassed the excellent quality breathing techniques category.

It should be a genuine perfect breathing technique.

Levi left the castle and went into seclusion for half a year.

The fire paper remained silent.

Levi always carried the fire paper, afraid he would miss the gathering.

"The efficiency of the wizard is low," Levi could not help but complain.

His stomach was growling, and the whale sac was empty.

And the Bag of Gluttony seemed to be hungry.

He asked the servants to prepare a large table of food for him.

He also prepared an entire cow for the Bag of Gluttony.

Next, it was time for the two gluttonous kings to have their “gluttonous time.”

While eating, Levi listened to the report of the newly recruited officials of Flower City.

The territory’s financial and military aspects were taken care of by the people Levi brought out from Black Water Valley.

One was in charge of the money, and the other was in the army’s order. Both were extremely important, especially the one doing finances.

Flower City was not Black Water Valley. The annual revenue was still considerable, even for the wealthy Levi. He could not give it up.

In addition, the income of Storm City could not be underestimated.

This was also why the Duke of Montenegro wanted to take down these two territories no matter what.

So far, everything in the territory was normal.

The situation was much better than Levi had imagined.

Perhaps it was because he still had the prestige he had left behind some time ago, so everyone behaved obediently.

Moreover, his neighbors also expressed their goodwill to him in various ways.

After all, he was still young and at the peak of his strength.

A top-notch grand knight alone was enough to intimidate most enemies.

Moreover, the three Giant Bears of the Northern Territory who had torn countless enemies apart, and the well-equipped Red Blood Cavalry had left a deep impression on the others..
