

## **Wizard 219**

Chapter 219: Red Lotus! Golden Blood! (1)

It was the Month of Winter of the year 105 of the Holy Brilliance Calendar.

Flower City was still as warm as spring.

Levi came out from his cultivation state.

According to the information from the front line, Montenegro Mountain City had fallen.

Snow Demon invaded the Northern Territory.

A few of the Church's Seven Holy Knights of the World led the members of the knight group and began to hunt Snow Demons.

The good news was that ever since the blue frost broke out in Montenegro

Mountain City, the other cities in the north had not.

The Pope claimed he had received an oracle from the Heavenly Father; God had already noticed everything in the human world and would punish evil. God wanted the world to unite and fight against blue frost!

Levi expressed his grave doubts.

"If God cares, then what about those who died before?" Levi sighed.

Rather than relying on God, it was better to rely on oneself.

Be it a knight or a wizard.

This was the best way for mortals to protect themselves.

If he were an ordinary lord like before, his fate might not be much better than ordinary people's.

After this period of cultivation, Levi continued to practice casting spells.

Levi's Insect Controlling Technique had finally reached level 2.

[Insect Controlling Technique: Level 2 (1/5000)]

The level 2 Insect Controlling Technique was closely related to the Saint Scorpions.

Levi could control the Saint Scorpion now.

Of course, the number of Saint Scorpions he could control could not exceed ten.

If there were more than ten of them, the excess Saint Scorpions would bite him.

At level 1, Levi could control a Saint Scorpion.

Therefore, he guessed that if his level was ten times higher, he should be able to control 100 of them.

At level 4, he could control 1,000 of them.

Level 5: 10,000...

Of course, the prerequisite was that the Insect Controlling Technique could be cultivated to level 5.

10 Saint Scorpions did not have much combat power. He would need at least a hundred to threaten a grand knight.

Levi could only take his time.

He had already spent too much time trying to learn the Insect Controlling Technique.

Next, he had to pick up his breathing techniques again.

After all, from the looks of it, the breathing techniques were still ones that could increase his strength the most.

Levi came out of seclusion today because, recently, there was always someone looking for him. He had already looked for him several times.

Initially, Levi did not want to pay attention to him, but the soldier told him the person might be a grand knight, so Levi had better go.

Levi thought for a moment and decided to meet him.

He had an old face, a slightly hunched body, pitch-black armour, and a head full of silver hair. However, the apparent aura of a grand knight made it so that no one dared to ignore this old man.

It was Knight Anderson, who had visited the thatched cottage three times. "Esteemed Lord Levi, I am Knight Anderson. I have something to discuss with you."

The old man was neither servile nor overbearing as he went straight to the point.

Levi's Spider Sensing perceived a faint sense of danger, which made his expression solemn.

The newcomer was an expert.

Even though he had only displayed the strength of a grand knight, with his superhuman senses and spiritual energy, Levi could sense that Knight Anderson was a powerful being.

He was the strongest knight he had ever seen, at least not weaker than the Duke of Montenegro and the Fist of the Empire.

As the other party stood there, he felt like he had returned to his original state and was one with the world.

"Sir Anderson, why are you looking for me?" Levi asked after sending the servants away.

Knight Anderson sighed and said softly, "Did you kill a Blood Clan member some time ago?"

Hearing this, Levi's heart changed.

He did not expect to be exposed after being so cautious.

Was this old man also a member of the Blood Clan?

As expected, there should be some connection between the members of the Blood Clan.

Levi thought to himself that it was troublesome.

However, he was not very flustered.

With his strength, as long as the other party was not a Primary Blood Clan member, he was not without the ability to fight.

At most, he would activate the Red Lotus Blood and risk his life.

Moreover, from his attitude, it did not seem he was here to cause trouble.

"What do you mean?" Levi did not admit it, nor did he deny it. He pretended to be confused.

Knight Anderson smiled. "I have no ill intentions. I am simply confirming this matter with you. Venina is the name of the Blood Clan member you killed. She is my junior, and she has an eccentric personality and is overly indulgent. I am not here to avenge Venina."

Levi naturally did not believe him and replied, "I don't know what you're talking about."

In any case, he would not admit that he killed her.

Knight Anderson said calmly, "Forget it; it's not a big deal. I'll say it directly. I'm also a member of the Blood Clan and Venina's senior. According to the rules of the Blood Clan, under normal circumstances, we'll carry out the craziest revenge on those who kill our fellow Blood Clan members. However, I'm a bit special; I won't take revenge on you. I want to take Venina's corpse away. I can sense that Venina's aura is in your castle. If not for my moral code, I could have snuck into the castle without your knowledge and taken her corpse or snatched it back from your hands.

"But my heart doesn't allow me to do that.

"I hope that you can hand over Venina's corpse to me. As a form of thanks, I can grant you a request within my capabilities. I'll provide you anything, whether wealth or some secret techniques.."
