Chapter 220: Red Lotus! Golden Blood! (2)

"I think you are a wild wizard. If you want to enter the Realm of the Unbelievers, I can introduce you to a mentor. I know some wizards with good character," Knight Anderson said softly. His expression was sincere, and he did not seem to be faking it.

This made Levi confused, and he was sceptical.

He did not believe this world had such a Blood Clan member.

Not to mention the Blood Clan, not many humans followed the rules and the moral code.

However, this person was influential.

His old eyes seemed to be able to see through everything.

This made Levi trust the authenticity of his words.

From the looks of it, he was likely to be a legendary knight or an official wizard. It was indeed not difficult for such a strong person to kill him.

There was no need to lie to himself.

Yet, Levi was still stubborn, "I don't know what you're talking about, sir."

Knight Anderson did not know whether to laugh or cry. This lord was quite interesting.

He had already said that, but he still did not believe him.

It was only because Anderson had a good personality. They would have already chopped Levi into pieces if it were any other Blood Clan member.

"Alright, you can come and find me anytime. I live at 13 Tanton Street," Knight Anderson said, waved his hand and left.

"You're a Blood Clan member," Levi said.

"Aren't you afraid of the Church's punishment for openly appearing in the human world?"

Knight Anderson turned around and smiled, "I'm not afraid. I believe that you won't tell on us. After all, we all have secrets."

Knight Anderson finished speaking, and he disappeared from Levi's sight.

Levi pondered.

"This old fellow should be a senior of the Blood Clan. He's likely a first-generation Blood Clan, but it's unlikely that he's a Primary Blood Clan member, known to be a bunch of complete lunatics. They completely look down on humans and treat humans as blood food. They won't be so polite to

Me.

"His performance must have been due to his strong willpower, causing the will of the Blood Clan not to erode his will as a human. He was not simple."

Moreover, with a glance, this old fellow could tell he was a wild wizard. He should be able to sense that his mental strength differed from ordinary people.

This also sounded the alarm for Levi.

Perhaps some of the powerhouses in the Church had also seen through his background.

The consequences would be unimaginable if the Church discovered that he was secretly becoming a wizard.

As for the “wild wizard” that the old man mentioned, it was a name that the wizards in the Realm of the Unbelievers gave to the group of wizards who wandered outside the Realm of the Unbelievers and hid in the human world without any organization or mentor.

Therefore, there were some wizard groups in the world but very few.

Firstly, the Church would watch him in the human world. He would have to hide all day long and be in fear. It would be downright uncomfortable. For example, Levi was now using a spell but did not dare to show it to others. He feared it would accidentally leak to the Church and cause trouble.

Secondly, in the secular world, the power of ether elements was fragile.

Whether it was constructing spell models or casting spells here, the effects were far inferior to those in the Realm of the Unbelievers. The same person casting the same period would have different power.

Moreover, wizards had to communicate with their peers to improve. It was not easy to achieve anything behind closed doors. Individual wisdom was not as good as collective wisdom. It was impossible to find wizards in the world to communicate with each other. No one was willing to be here.

Levi had no choice but to stay here temporarily.

Although Knight Anderson was sincere, Levi could not trust him.

In the future, Levi could take out the corpse and exchange it for something he needed if he did as he said.

He had shown enough sincerity but was still a Blood Clan member, so Levi must be careful.

If he had some method to resurrect Venina, and she came back to life for revenge, wouldn't Levi be asking for trouble?

He did not think about Anderson. The days of cultivation passed, but there was still no news of the fire paper.

On New Year's Day of the year 1016 of the Holy Brilliance Calendar, Levi's Red Lotus Breathing Technique was at level 8.

[Red Lotus Breathing Technique: Level 8 (1/100000), Special Effect: Transcendent Power, Red Lotus Blood.

This was the Special Effect of Levi's Transcendent Power.

Levi was already calm and collected in the face of a breakthrough in his breathing techniques.

Right now, Levi has a bunch of breathing techniques of level 8 and above. His strength was increasing daily. He was lying low and cultivating quietly. He did not cause any trouble and kept a low profile.

It was also New Year's Day when explosive news spread from the Tuva Empire to the Emerald Kingdom.

The Fist of the Empire reappeared.

This top-notch expert, the unparalleled God of War born in the storm, killed the new king, who had yet to warm up on the throne with lightning-fast methods as soon as he appeared.

Later, he was chased by the Knight Storm of the Church of Storm. He relied on his terrifying strength to kill three grand knights. Then, even after the head priest of the Church of Storm used the "foundation" of the Church, he still escaped to the outer seas.

The reason why he went to the outer seas was because of another significant event.

Someone found a treasure map left behind by the Golden Knight Gregor.

Golden Knight Gregor was one of the legendary knights. He was powerful and left behind countless legends..
