

Wizard 221

Chapter 221: Red Lotus! Golden Blood! (3)

He was mighty. It was said that the blood flowing in his body was golden in color and emitted a golden light. He was invulnerable to swords and spears, indestructible to Vajra, and resistant to water and fire!

This was the famous Golden Blood!

Some said that Golden Knight Gregor was a descendant of a robust foreign race, while others said that he was a descendant of a wizard.

There are many opinions, but one truth was that Golden Knight Gregor had also mastered powerful sword skills. He was an actual sword expert. The current Seven Godly Swords were like brothers before the Golden Knight.

According to the treasure map, the Golden Knight Gregor had left his wealth on an isolated island in the outer seas.

It was said that in the last years of Golden Knight Gregor's life, because he was dissatisfied with the rule of the Church, he spent a lot of money to build a vast ship and set out to sea to search for something.

When he went to sea, the Golden Knight took his ship full of wealth, brought several grand knight servants under his command, and took everything that belonged to the Golden Knight to the sea!

After that, there was no more news.

Now, the treasure map had reappeared.

The mysterious treasure of the Golden Knight was on an isolated island in the outer seas!

Do you want to obtain the wealth of the Golden Knight Gregor?

Do you want the most potent power, authority, and breathing techniques worldwide?

Do you want to become a legendary knight?

Then let's go to the sea.

Golden Knight Gregor left everything there.

With this unknown news, the coastal areas of the Tuva Empire took the lead in launching a grand voyage adventure.

Even the Fist of the Empire was no exception. They went out to sea to search for Gregor's treasure.

This craze had now swept across the Emerald Kingdom.

Levi did not know whether to laugh or cry.

"These people are bored. "

"With the navigation and shipbuilding technology of this era, it's impossible to find the treasure of the Golden Knight. Moreover, this news might be fake."

In any case, Levi did not believe it at all.

He would not participate in such boring activities.

However, he would still occasionally pay attention to the gossip of the dare and the movements of the Fist of the Empire.

This three-meter-tall man left a deep impression on Levi.

Levi wanted a big fight with the Fist of the Empire to test his current strength.

However, it was clear that the chances of this were slim.

Levi would not go to the Fist of the Empire just to spar.

"However, could Golden Knight's powerful sword skill be my Golden Cross Slash?" Levi suddenly thought of a problem.

The Golden Cross Slash was taught to Levi by the Serpent Vulture Knight.

The Serpent Vulture Knight said that if cultivated to the highest level, it would be a perfect or even legendary sword skill.

Golden Knight Gregor was a legendary knight.

Levi believed only a legendary knight could create such a powerful sword skill.

Levi did not stop cultivating his Golden Cross Slash during this period.

If his guess were correct, he estimated he could cultivate the Golden Cross Slash to the perfected level 6 this year.

The Golden Cross Slash of level 7 corresponded to the power of Revolving Force.

Of course, it was because of the invention of the Golden Ripple Divine Palm.

Levi's Golden Cross Slash was only in name.

It would be more appropriate to call it the Golden Ripple Divine Palm.

While Levi was paying attention to the voyage situation, he was also quietly gaining experience in his territory.

The mysterious and powerful Blood Clan member did not bother him during this period. He seemed to have become an ordinary old man and settled in Flower City. Levi occasionally ran into him when he went to the Shining Tavern.

He would even smile kindly at Levi.

Levi's Spider Sensing also rarely alerted him.

This meant that the old man did not have any ill intentions and did not have any intentions of harming Levi.

Levi was a little tempted.

He was an influential member of the Blood Clan. He had lived long and even had friends with the official wizard. The other party had a lot of connections. He might not need the fire paper if he could introduce him. He would not need to wait for news from the four great families.

If willing to speak, he could enter the Realm of the Unbelievers.

However, the biggest problem was that he was a Blood Clan member.

This had always been Levi's concern.

In this dilemma, Levi continued to gain experience.

In the Month of Flowing Fire of the year 106 of the Holy Brilliance Calendar, the City of Flowers was extremely hot, and the heat wave swept across.

After a long period of practice, Levi's Golden Cross Slash was a powerful sword technique he had obtained from Sir Fred.

He had finally reached the limit of level 6.

[Golden Cross Slash: Level 6 (Maximum, breakthrough available), Special Effect: Advanced Vibration, Advanced Waves]

"The Golden Cross Slash has reached a bottleneck. I knew breaking through to the highest realm wouldn't be easy," Levi muttered.

He had been focusing on the Golden Cross Slash recently because it had been stuck at the sixth level for a long time. He wanted to break through to the seventh level as soon as possible and grasp the power of the Revolving Force.

However, reality proved that the Revolving Force was not easy to grasp.

Previously, he encountered no bottlenecks from level 1 to level 6. He broke through on his own when he reached.

However, from the sixth to the seventh level, he needed to think of a way to break through the bottleneck to break through the limit and grasp the Revolving Force.

"But how do we break the limit?"

Levi was worried. Now, he was only one step away.

"Tremble, Ripple, Circle."

"According to my previous understanding, using vibrations to create ripples and ripples to create swirls is not wrong."

"What should I do to break through?"

Levi left the castle and went to Shining Tavern, listening to the other knights discussing the news of the Golden Knight Gregor's treasure.

After half a year, the voyage had become less popular. A bunch of people were lost in the sea or returned empty-handed.

Based on his analysis, Levi guessed that the Golden Cross Slash might be the sword skill of the Golden Knight Gregor. Therefore, the Golden Knight might be the key to breaking through the Revolving Force..
