

## Wizard 226

Chapter 226: Level 10 Black Snake! (5)

All he needed to do was to act as his will and supervise the territory.

"I should ask Knight Anderson. He might have some good suggestions.

Moreover, I'm about to leave this world, so I have to bid farewell to this good friend of mine."

Levi packed everything he needed to prepare for his trip to the wizarding world and placed them in the Bug House and the Bag of Gluttony.

Gold, breathing technique inheritance diagrams, secret medicine, Lion King's Pride...

The ingredients for the secret medicine should be found in the Realm of the Unbelievers. The resources there were much more prosperous than in the human world, so Levi was not worried about the secret medicine.

After everything was prepared, it was up to the three brothers and Hen-Ha rlvvo Generals Ha. These pets Levi had tamed in the human world could not be taken away. Although Bug House could store living things, it was obvious that it could not keep these big guys.

Moreover, Levi felt that staying in the human world was the best place for them.

If Knight Anderson did not have a solution to the problem of Levi's successor, Levi would temporarily entrust the territory to the few people he trusted the most. They were all from Black Water Valley. Under long-term influence and brainwashing, they were obedient and loyal to Levi. They did not have to worry about betrayal.

Then, he would make the three brothers and Hen-Ha Two Generals listen to these people in the future.

With five "divine beasts" guarding the territory, he should not have to worry in the short term.

This was especially true for Hapes and Hendry, who had long lifespans and could live for at least a hundred years. Levi felt that this method was feasible.

Finally, it was Harris, the snow eagle.

Snow eagles did not have long lifespans. When Levi took over Harris, he was not young. After all these years, Harris was already old.

Levi patted Harris' head and smiled, "You are free now, Harris. You can pursue what you want in the future or retire in this castle."

Harris tilted his head and looked at Levi. Levi could feel Harris's sadness. Ultimately, Harris chose to spend his remaining years in the castle. His hunting ability had deteriorated too much. If he went outside, he might starve to death.

After dealing with the follow-up matters of the territory, Levi went to 13 Tanton Street and found Knight Anderson drinking chicken blood.

Seeing Levi's arrival, Anderson elegantly wiped the blood off the corner of his mouth and said, "Looking at your expression, it seems like you're leaving?"

Levi nodded. "Yes, I received a message from the four great families. I should be able to go to the Realm of the Unbelievers, so I came to bid farewell to you."

Knight Anderson smiled, "Congratulations then. You don't come to me for no reason. You must have something to ask of me this time."

"Yeah," Levi smiled bitterly.

Then, Levi told Anderson about what he had been worrying about.

Anderson laughed, "You're just like me. You only care about cultivation and don't find a partner. Otherwise, you could have left behind a few children."

"The current situation is indeed very awkward. To you, pursuing the path of a wizard is more critical."

"For the territory, you want to find someone to transfer it to on the surface and let him become a lord legally, but this person must be completely loyal to you and not betray you. On the surface, he must be a lord, but he must be your spokesperson in the human world?"

"That's right. Sir Anderson, are you willing to be the lord for fun? Haha," Levi asked half-jokingly.

Anderson shook his head. "Stop fooling around. I don't want to be a lord. I'd rather be alone.

"The Blood Clan does have a secret technique called the Blood Slave Curse. Those the Blood Slave Curse hits will become your Blood Servant and be loyal to you.

"However, the Blood Slave Curse can only be cast by us, Blood Clan. Why don't you become a Blood Clan member? I can help you hold a transformation ceremony and let you become a Blood Clan member with a long lifespan. The price is to hide in the darkness and dislike the sun. From now on, you can only be accompanied by blood," Anderson joked.

Levi quickly shook his head. He did not want to rely on blood to survive in the future, nor did he want to lose sunlight, nor did he want to be treated as an alien by the wizard.

Other than that, he had no objections to the Blood Clan.

"Other than the Blood Slave Curse, does Sir Anderson have other methods?" Levi asked.

Anderson shook his head.

"Why don't you let me see this Blood Slave Curse, Sir Anderson? What if I have the blood of the Blood Clan too?" Levi said jokingly.

Anderson thought momentarily and said, "I still owe you a favor. Are you sure you want to use this favor to exchange for a spell useless to you?"

Levi nodded.

He had no other choice now.

As for the rest, he did not feel at ease.

From Knight Anderson's description, the Blood Slave Curse was what he needed.

If he could learn this, he should be able to solve his problem.

"Alright, this is your choice. Don't go back on your word."

Anderson passed a chant to Levi.

Levi memorized the chant.

"Then I'll take my leave. If Sir Anderson needs help, please come to my castle and look for my butler. If Sir Anderson leaves the world and goes to the Realm of the Unbelievers, we might meet again and continue to discuss the knight's path," Levi said..
