

Wizard 228

Chapter 228: Entering the Wizard World! The Ashen Tower! (1)

The Blood Slave Curse was completed.

Levi had a complicated expression.

He did not know if it was because of the proficiency panel, the uniqueness of the Blood Beast Breathing Technique, or a combination of these two factors.

In short, on this full-moon night, he had learned the curse technique only the Blood Clan could master.

He felt that he might have activated some of the hidden attributes of the Blood Beast Seed by chanting the Blood Slave Curse on the night of the full moon.

As a result, he felt the Blood River Will that only the Blood Clan could sense.

Then, by chance, he obtained one of the Blood Clan's innate abilities, the Blood Slave Curse.

However, the Blood Slave Curse was the second Special Effect of the Blood Beast Breathing Technique:

Blood Contract.

Levi opened the Special Effect of the Blood Contract:

[Blood Contract: An unfair contract established by Blood River Will. Those you contract must obey your orders unconditionally and be loyal to you unconditionally. They must not betray or resist you. They will not even have the slightest thought of disobeying you. Your will is the will of the contracted. This contract cannot be upgraded. As long as the level of the agreement is not higher than yours, this contract can be effective on any existence lower than the Blood Beast. This contract can only be effective on one accord.]

"What an overbearing contract! This is even more powerful than the Blood Slave Curse that Knight Anderson told me about!"

When Anderson gave Levi the Blood Slave Curse, he mentioned that the Blood Slave Curse could only be used on races other than the Blood Breeds. It was usually used primarily on humans or some other weak races.

However, Levi's Blood Contract seemed to be a higher-quality Blood Slave Curse.

No matter what race it was, as long as it was not much more vital than him, and as long as its level was lower than Blood Beasts, he could contract them.

This meant that Levi could even contract Blood Clan members.

"Perhaps I can even form a contract with Knight Anderson," Levi smiled.

Of course, he would not do that.

After all, he was not a villain.

Levi looked at this prisoner.

"Master!" The prisoner said. He looked at Levi with fanaticism in his eyes. It was as if a fanatic believer had met the God he believed in.

Levi knew that this was accurate control.

Moreover, it was controlled by the subjective initiative of the person being controlled.

The person controlled by the Blood Contract could manage the territory for him under absolute loyalty.

"Now, kill yourself," Levi said to the prisoner.

When the prisoner heard this, he did not hesitate. He smiled and said, "Master, can I borrow your sword?"

Levi handed the Frostmourne to the prisoner.

After the prisoner received the sword, he stabbed it through his heart without hesitation, just like a robot executing an order.

The prisoner was dead.

The Blood Beast Mark on his chest began to dissipate.

The Blood Contract could only be used on one person.

If the contracted person died, the contract would lose its effectiveness.

Naturally, Levi would not waste this precious opportunity on a prisoner.

He was in a good mood. Now, he could find a grand knight and contact him.

Then, he would transfer his territory to him and let him manage it.

As a hands-off shopkeeper, he only needed to occasionally come to the human world to withdraw money.

It was perfect.

"But who should I look for next?"

Levi thought to himself. Grand knights did not tend to be silly. He had the Blood Contract now but lacked a suitable target.

"Forget it. We'll talk about it tomorrow morning."

Levi decided to have a good night's rest.

He took out the Blood Beast Breathing Technique he had obtained from the Earl of Blood and stared at the mist-shaped [Blood Beast] in the middle of the inheritance diagram.

"Looks like the Blood Beast Breathing Technique isn't simple."

"Blood Beasts might also be a type of Blood Clan member. Moreover, they might be a higher-level Blood Clan creature."

The Blood Beast Breathing Technique was a breathing technique similar to the Black Snake Breathing Technique. It was a first-grade breathing technique of excellent quality.

Therefore, Levi felt that if the legendary [Blood Beast] and [Black Snake with a Candle] existed, they should be on the same level.

And the giant beast [Red Lotus] behind the perfect-grade breathing technique seemed to be of a higher level than the previous two.

"All along, I thought the legendary creatures behind these legends were all the big families' ancestors. Now it seems that I might be wrong."

"Since the Blood Beasts might exist, then the Black Snake, Red Lotus, Frost Giant... They might all be real."

"Furthermore, they are very likely powerful existences from other dimensions."

"This also shows that the potential of the knight's breathing technique is extremely great. It is not what it seems on the surface."

Levi's confidence in breaking through to the legendary knight grew.

"Perhaps the Black Snake Breathing Technique or the Giant Breathing Technique can give birth to a second or even a third Special Effect. They need an opportunity to be activated."

Levi lay on the bed, considering the suitable candidate for the Blood Contract.

"Why don't I directly contract with the King?" Levi suddenly had a crazy thought.

He might as well turn the King into his contractor without anyone noticing.

In that case, the entire kingdom would be his, not to mention these two territories.

"Forget it, forget it. The risk is too great. Let's prevent the Church from finding out."

The King needed to interact with the Pope frequently. With the Church's background, it would be easy to discover the King's peculiarity..
