Chapter 230: Entering the Wizard World! The Ashen Tower! (3)

Now, he had ultimately let go of himself. The black gas around him danced wildly, spreading and tearing his clothes apart.

The black gas of the Giant Seed coiled around his arms, and then frost appeared, condensing into a vambrace.

This was the Special Effect of the Giant Breathing Technique, Frost Arm. His strength began to increase exponentially.

In his body, the seeds of the Ostrich Mountain and the Giant Rhinoceros began to explode, and their strength rose again.

Levi, over two meters tall, stretched his muscles and bones. If he could not defeat this Blood Clan member, even if he went all out, he would use the Red Lotus Blood!

Undoubtedly, Andrew was the most potent enemy Levi had ever met. He had already surpassed the Fist of the Empire!

Perhaps only a legendary knight could fight against this person.

Tonight, on the eve of his journey to the Realm of the Unbelievers, Levi finally welcomed the battle he had dreamed of!

He wanted to use this battle to test his strength!

"Come on, bug," Levi mocked.

Bang!

Andrew exerted his strength again.

He turned into a black wind and seemed to be everywhere, like a shadow following him.

Around Levi, countless shadows of Andrew appeared.

Suddenly, long nails appeared on Andrew's hand, like the claws of a wolf.

"Bloody Sharp Claw!" Andrew charged over.

This was the physical technique of the Blood Clan!

Levi picked up a thick tree trunk on the ground and started spinning on the spot.

Crack, crack.

A moment later, the tree trunk was cut off section by section.

Another hit struck Levi's face.

At the same time, Levi's palms were filled with black gas, transforming into black ghost claws that grabbed his opponent's sharp claws.

"I caught you!" Levi shouted.

Boom!

Golden Ripple Divine Palm!

He picked Andrew up and slammed him to the ground.

Andrew was smashed to the ground.

His gorgeous robe was torn to shreds, revealing a slender figure that seemed to be made of steel.

The ground cracked, and dust flew everywhere.

Andrew escaped Levi's ghost claws and quickly pulled away from Levi.

His face was ashen. He did not expect himself to be defeated.

Levi's attack shattered the bones in his arms.

However, his Blood Clan's recovery ability was potent. It was said that the Primary Blood Clan could not stop the Blood River, and the Blood Clan could not die!

In other words, even if the original Primary Blood Clan members were killed in different terms, their faithful souls would return to the Blood River and be reborn.

Although he belonged to the Secondary Blood Clan and could not do this, it was still easy for him to instantly heal some injuries that seemed impossible for humans to recover from.

"Blood Moon Cross Slash!" Andrew suddenly pulled out a long sword and slashed at Levi.

It could be seen that he was also a sword expert.

He knew that he could not fight Levi head-on. Otherwise, his body would be shattered by Levi's strange power. Even if he did not die, it would cause trouble for him.

The rapid self-healing of the Secondary Blood Clan also required energy consumption. In a short period, it was impossible to heal quickly many times.

Levi pulled out Frostmourne as well.

Golden Cross Slash vs. Blood Moon Cross Slash!

Bang! Bang! Bang! Bang!

The light of swords and sabers floated in the forest.

The most potent battle in the world occurred in the wilderness at night.

Wherever Levi and Andrew passed, the trees collapsed.

A casual slash from them could cause massive damage.

In the end, Levi's Golden Cross Slash was still a notch higher.

Andrew's longsword was cut in half by Levi.

He threw away his sword and charged at Levi.

If it wasn't for the fact that he wanted to test the strength of his breathing technique...

Levi only needed the Frost Giant's Sigh and his seals to kill the enemy.

Andrew's attack was powerful, and he could always break through Levi's liquid Black Scales. Unfortunately, Levi still had the Frost Giant Armor, so he had a high chance of making mistakes.

However, Andrew could not do that. He had to constantly dodge Levi's attacks because he would end up miserable once Levi seized the opportunity.

But Andrew did not want to give up just like that. He was a noble Blood Clan member.

Moreover, it was a whole moon night today. It was his home ground!

He did not plan to play with his prey anymore. His body began to expand like a giant beast was about to crawl out of his slender body.

Andrew's clothes were completely ripped apart. The naked Andrew had already turned into a monster with blood-colored muscles exposed. He had no skin and was covered in blood-colored mucus. He was four meters tall and looked like a thin ghost. His right arm had turned into a pale bone blade! This was his BloodClan form, utterly different from Venina's. Every Blood Clan member has their characteristics.

"Blood Storm!"

Andrew's entire body spun rapidly, almost turning into a high-speed spinning top. The bone blade cut through the void, cutting through the air, forming a blood-red storm that devoured everything around it.

This was Andrew's killer move!

After releasing his Blood Clan form, he had the combat strength of a legendary knight!

Boom!

Andrew, who was like a blood-red tornado, arrived.

It was swift.

Levi took a deep breath and looked at the blood-colored tornado that had entered the Frost Giant's Sight range.

The Seal of Protection lit up on his body with a bright silver light. At the same time, the liquid Black Scales poured out and piled up around Levi!

Boom!

An ear-piercing cutting sound was heard.

The Bright Silver Protection was quickly shattered.

At the same time, the liquid Black Scales were also blown away, turning into black gas and dissipating.

Levi hugged the spinning storm..
