Chapter 232: Entering the Wizard World! The Ashen Tower! (5)

No wonder some people wanted to be part of the Blood Clan, not humans.

Humans were still too weak!

Levi asked Andrew and learned that his identity before he became a Blood Clan member was Earl Lille. He was the patriarch of a count's family two hundred years ago, but this family had already disappeared.

"Can you change your appearance?" Levi asked.

According to the Franken Wizard's Monster Manual, the Blood Clan was very good at hiding. They could change their appearance and imitate the people they had seen.

That was why the Blood Clan members could hide so long and profoundly in the human world.

Andrew nodded, "This is the basic ability of the Blood Clan."

"Alright, from now on, you will take my appearance. I want you to replace me and be the lord of Tulip Hill and Stormy Hill. Remember, from tomorrow onwards, you are Levi," Levi emphasized.

Andrew nodded. This was the advantage of being a Blood Servant. They could follow the rules set by Levi unconditionally.

It was equivalent to having the loyalty of the living dead and still having the consciousness of when they were alive, not a robot.

Absolute loyalty! This was what Levi needed.

"Yes, Master," Andrew said.

Levi told Andrew about the things he needed to take note of in the future and some of his habits.

He wanted him to pretend to be him in the future.

For example, he made him not go out and say he was in "seclusion" if someone came looking for him. He disallowed him from having any dealings with the Church, from exposing his identity as a Blood Clan member, and only drinking the blood of livestock in the future.

Andrew naturally understood his master's meaning.

"Don't worry, Master."

Just like that, Levi finally solved the problem of his territory after he left.

To him, this was the best outcome.

With Andrew assuming his identity and overseeing the territory, he was loyal and decisive. Significantly few people in this world were more potent than Andrew. Andrew was almost unbeatable as long as the Church did not discover him.

Even he needed to use all his trump cards to defeat Andrew. This was the true strength of a legendary knight.

Moreover, Andrew had a very long lifespan. After a few decades, Andrew could completely change his appearance and remain the lord as Levi's son. In the future, he could even be Levi's grandson...

Until Andrew died.

However, there were some risks in Andrew's impersonation, but overall, this was the best choice for Levi.

After settling the problem of the territory, the following evening, when Levi was about to leave for the capital, Knight Anderson returned. He looked at Levi with a strange expression.

"Why do I feel Andrew's aura on you?"

Levi shrugged and said casually, "Andrew came to find trouble with me, and I turned him into a Blood Servant."

Each other, even if Andrew changed into his appearance and disguised himself, Anderson would still be able to perceive him.

Therefore, Levi decided not to pretend anymore. He wanted to clarify things with Knight Anderson and lay his cards on the table.

Anderson had a look of disbelief, "That's impossible. I didn't sense any Blood Clan aura on you before. Were there any Blood Clan members in your ancestors?"

"I'm not sure," Levi thought momentarily and said seriously.

"Anyway, I've mastered the Blood Slave Curse."

Anderson sniffed carefully in front of Levi like a hound.

After a while, he looked puzzled and said, "That's strange. I didn't sense the aura of the Blood Clan before. Now that I'm smelling it again, there seems to be a fragile aura. Although it's very faint, it's indeed the aura of the Blood Clan. Was my nose malfunctioning?"

Anderson doubted his life.

Logically speaking, with his identity as a First-generation Blood Clan member, he should not have made a mistake.

Levi guessed that it might be because he had used the Blood Slave Curse on the night of the full moon and activated the Blood Clan attribute of the Blood Beast Breathing Technique. That was why Andrew, a First-generation Blood Clan powerhouse, could sense this weak Blood Clan aura.

"It can't be. Could there be a Blood Clan member in my ancestors?" Levi said with a changed expression.

"That should be the case. Otherwise, you wouldn't have mastered the Blood Slave Curse. Moreover, the Blood Slave Curse can't be used on Blood Clan members under normal circumstances. In your case, it means that the Blood Clan member from your ancestor should be a true high-ranking Blood Clan member and not an ordinary one. Only high-ranking Blood Clan members can enslave low-ranking Blood Clan members," Anderson said as if he had seen a ghost.

In his impression, there did not seem to be any high-ranking Blood Clan members who had come to this world. Of course, he could not rule out the possibility that some high-ranking Blood Clan members had hidden in the human world during the early realm intersection and left behind bloodlines with the humans of this world.

"Perhaps. Anyway, I'm leaving today. I'll let Andrew continue to be the lord in my place. Sir Anderson, if another Blood Clan member comes looking for trouble with Andrew, I'll have to trouble you to take care of him," Levi said.

Levi was mainly worried about Knight Anderson's attitude. Although Anderson had a good personality, he had taken in a Blood Clan member as a Blood Servant. If Anderson were dissatisfied, he would be in trouble.

Now, it seemed that he was overthinking. Knight Anderson did not care too much about it.

Anderson sighed and said, "I didn't expect you to go to the wizard world so soon. I thought we could have a good chat after you advanced to the legendary realm in the human world. Forget it; we'll talk about it in the future. Maybe I'll get bored in the human world and go to the wizard world to look for you.."
