

Wizard 236

Chapter 236: Demigod and Legendary! (1)

The sea's surface was calm, and white waves sparkled under the sunlight.

The ancient ship advanced at a constant speed.

Winnie sat on the bed in the classically decorated cabin and leaned lazily against the wall. Her wavy hair shone in the sun and turned pale gold.

She casually crossed her right leg over her left leg. The loose gray wizard robe could not hide her slender legs.

Levi was sitting on a high stool with a severe expression, waiting for his senior to speak.

"Junior, how old are you?" Winnie asked.

Because Levi had not mastered the common language, Winnie also communicated with Levi in the Emerald language.

Unlike Levi, she was born in the Realm of the Unbelievers. However, because her mother was from the Emerald Kingdom, she was fluent in the Emerald language.

"Twenty-seven," Levi said.

"Junior, you should shave your beard. I thought you were forty," Winnie chuckled.

"Although I'm younger than you by two years, I entered the tower earlier, so I hope you don't mind me calling you junior," Winnie said.

Levi smiled and nodded. He did not care about these titles.

"Are you a noble of the Emerald Kingdom?" Winnie said.

Levi nodded.

"Geralt is also a fake name, right?" Winnie said with a smile.

"Yes, Senior, you may call me Levi," Levi responded.

Anyway, this was the wizarding world; there was nothing to hide.

"I knew it, but it doesn't matter. In this world, no one cares what your name is anyway. It's just a boring code name, so I'll call you Junior Levi from now on," Winnie said.

"For wizards, no matter what your identity was before you came in, even if you were the King of the Seven Kingdoms, we wouldn't care."

"In the eyes of wizards, the power and status in the secular world are just a bunch of short-lived mayflies playing a boring game. What the wizards value more is knowledge, power, and your status in the Pan-Plane Wizard Council," Winnie took a sip of water and continued.

"Let me tell you about the situation of our Gray Tower so that you can have a

Basic understanding."

"Thank you, Senior." Levi nodded and thanked her sincerely.

"Yes, this is my duty. There's no need to thank me."

"The Grey Tower was founded 400 years ago by Salman, the first generation White Robe Wizard. The current Tower Master Herman was Salman's apprentice, a Second-Circle Wizard. As for Wizard Salman, he had already advanced to a Third-Circle Wizard a hundred years ago. After becoming an Intermediate Wizard, he left the Grey Tower and went to the Star Tower." Levi nodded. A Third-Circle Wizard could live for 400 years.

He had never heard of the Star Tower, and Tuten was not from the Ocean School of Thought, so he did not know much about it.

Winnie seemed to have noticed Levi's confusion and said, "The Realm of Azure Cloud is also known as the Endless Sea. Our Gray Tower is located at the edge of the Endless Sea, and the Star Sea is in the center of the Endless Sea. That is where the Star Tower is located. The Star Tower is the most significant force in the Realm of Azure Cloud, gathering wizards from all over the Endless Sea. The Star Tower also maintains the order of the Realm of Azure Cloud. However, it is too far away from you and me. You will know in the future.

"Back to the main topic, our Gray Tower now has a Second-Circle Wizard, Tower Master Herman.

"Also, three First-Circle Wizards teach meditation, magic, and general knowledge. You'll see them when you reach the Gray Tower, and I'll introduce them to you in detail.

"As for wizards, the Grey Tower has a fixed quota of 30 people, and I am one of them. Our Grey Tower pursues quality over quantity so that we may have fewer people than other organizations, but our strength is not weak. We are enough to rank in the top five among the Wizard organizations in the nearby sea. Our Grey Tower is more united, and everyone gets along well.

"Besides the Gray Tower, the nearby sea areas with more prominent wizard organizations include the Sighing Sea Breeze, the Whale Song Island, the Dark Sea Cave, and the Undead Ship. There are more than ten of them.

"Whale Song Island was the most powerful among them because their current Island Master is a Third-Circle Wizard. Other than that, the other forces were similar. They usually had a Second-Circle Wizard overseeing them.

"Of course, there are some other small forces. Because the Realm of Azure Cloud area is too small, it is mainly distributed as an archipelago. Therefore, some official wizards have not joined the significant

forces on other small islands in our sea area. In the future, you should not randomly land on the island in this sea area. Every wizard hates it when others enter their territory without the owner's permission.

"Although the Pan-Plane Wizard Council forbids wizards from killing each other in private and advocates that the Wizard Tribunal should handle disputes, trespassing on the territory of other wizards is not handled by the Pan-Plane Wizard Council. The Island Master could kill you on the spot," Winnie introduced Levi patiently.

She often mentioned an organization.

That was the Pan-Plane Wizard Council.

This was a cross-sect, even cross-plane wizard organization.

Wizard leaders of the old and new schools of thought jointly launched it. To protect the interests of all the wizards in the world, maintain order among the wizards, and fight against other forces. It was an all-encompassing and powerful organization..
