

Wizard 240

Chapter 240: Demigod and Legendary! (5)

It was said that according to the unwritten rules of the Gray Tower, only high-level wizards were qualified to live on the 20th floor. Every year, the White Tower would conduct an end-of-year assessment for the apprentices of the Gray Tower. The assessment content included courses and actual combat. The final ranking was based on the evaluation. The better the order, the higher the living floor. This was a symbol of honor and status. Moreover, the various facilities and functions on the upper floors were more complete.

Levi smiled and waved his hand in response.

Watching Winnie's back disappear from his sight, Levi chanted the spell to open the door to the ninth floor.

When he entered, the gate closed automatically.

What greeted his eyes was an empty, huge living room and various small rooms.

There was a bathroom, kitchen, bedroom, meditation room, spell practice room, storage room, and everything else!

Levi estimated that the area of the ninth floor should be several hundred square meters.

Even though he was a wizard apprentice, this place was much better than the one in his previous life.

It was simply a mansion, not inferior to his castle in the human world.

There were also some landscape oil paintings hanging on the walls. The scenery in these oil paintings was dynamic. Swaying wheat, soaring eagles, open waves...

Levi casually tidied up the house to see if there were any dangerous sites.

After checking, he placed some of his luggage on the ground.

"Phew, it went much smoother than I thought. Both Senior and the Tower Master seem to be good people. It doesn't matter if I can enter a powerful wizard organization. I need a safe wizard organization to cultivate in. Now it seems that the Grey Tower is indeed not bad. Of course, it's also possible that they're all pretending. After all, I'm new here and don't know anything," Levi muttered.

It was his first time coming to such a faraway place, and he did not know what to do for a while. It was the same feeling he had in his previous life when he went from a small county to the Imperial University of Political Science and Law on the first day of school. He was a little confused and at a loss.

He was not tired now, so he might as well continue cultivating breathing techniques.

No matter where he went, the fine tradition of cultivating breathing techniques could not be abandoned.

While cultivating breathing techniques, Levi was also thinking about his next step.

First of all, he still had to continue cultivating as a knight.

He was now at the peak of Black Snake level 10. He needed 8 points to break through, but currently, Levi has no extra defensive breathing technique.

Before he left the human world, he had asked Andrew to continue collecting breathing techniques from the human world. Now, it seemed that even if Andrew had ordered them, he would not be able to give them to him quickly, so he had to rely on himself to manage them in the wizard world.

Next, he had to find a new source of ambergris in the Realm of the Unbelievers.

Apart from that, Levi also had the Giant Breathing Technique at the peak of level 9, as well as the level 8 Red Lotus, Ostrich Mountain, Giant Rhinoceros, Blood Whale, Siren, Blood Beast, the level 7 Thunder Wolf, Vortex Beast, as well as a few shallow breathing techniques that had been cultivated to the limit.

As for the Red Lotus, Ostrich Mountain, and Blood Beast Breathing Techniques, they had no limits and had to continue cultivating.

As for the seals, Levi felt it should be easy to prepare all the required materials in the Realm of the Unbelievers.

He planned to search for a way to find a way out.

He would try to push all four seals to the maximum in the next few years.

This way, even if he did not advance to an official wizard, he would have the ability to cast spells comparable to a First-Ring Spell with the help of the seals.

Moreover, the seal did not take up his spell slots. After cultivating it, it was equivalent to having four more spell slots than another wizard.

Golden Cross Slash's sword skill required time to comprehend Revolving Force, so he put it aside for now.

As for his lifestyle skills, he did not need to worry about his level 2 Medicine skills. However, he might be able to upgrade his level 4 Pharmacy skills.

Finally, there was the Deep Sea Meditation Art and the Insect Controlling Technique.

This Meditation Art was almost at level 2 under Levi's efforts in the past few years. At that time, his spiritual power would reach the level of an Intermediate Wizard.

He still had to work on the Insect Controlling Technique. In the future, he had to think of a way to cultivate Saint Scorpions.

In short, after Levi concluded, he realized that even if he did not consider the wizard courses that he would have to learn in the future, he would spend a lot of time cultivating his current skills.

"Take it slow," Levi smiled bitterly and sighed.

He did not dare to sleep on the first day.

He spent the entire night cultivating breathing techniques on the ninth floor.

In the middle of the night, Levi sensed through his Advanced Vibrosensing that the apprentice downstairs seemed to have brought a woman in. Then, they had sex.

The soundproofing of every floor of the Gray Tower was excellent, but Levi's Advanced Vibrosensing was too perverse, so he could almost sense the movements in half of the Gray Tower.

The White Tower was no match for him. The official wizard there had established isolation magic circles for their residences, and Levi's Advanced Vibrosensing was useless.

Levi had always lived in a giant castle when he was in the human world, so no one else was around him.

Here, they could only stay in buildings.

Levi did not know whether to laugh or cry at this rare experience, similar to staying in a cheap hotel chain in his previous life. He could only block his senses and cultivate quietly.

The next day, the bell in the bell tower at the top of Grey Tower rang automatically.

Levi also came out from his cultivation..
