

Wizard 249

Chapter 249: Red Lotus Form and Nine Swords Form vs an Official Wizard! (1)

Levi—

Black Devil Blade: Level 3 (1/10000)

According to the creator of the Black Devil Blade, after level 3, the black gas could be condensed into a Black Gas Incarnation, also known as the evil spirit lingering!

The appearance of this evil spirit would be formed according to Levi's mind. It was random and not under Levi's control.

Levi stood in front of the mirror and looked at his 2.2-meter-tall body. Behind him, there was an abstract and tall shadow.

He was even stronger than Levi. His muscles were almost as exaggerated as Platinum Star's, and he was three meters tall. This black figure was covered in armor that looked like scales. He had six bulky arms, and each of them held a black gas sword.

The most ridiculous thing was that this evil spirit actually had three heads. Among the three heads, the right one was angry, the left one was smiling, and the middle one was expressionless.

Each of the three heads had a long sword in their mouths.

Therefore, this evil spirit held a total of nine swords, which looked very exaggerated.

At present, with Levi's control over the black gas, he was unable to display the detailed appearance and features of the evil spirit in more detail. He could only vaguely make out some outlines.

However, just the malevolence of this silhouette alone was more terrifying than any evil spirit Levi had ever seen.

He looked at the appearance of the evil spirit and then muttered to himself.

"Three-heads, six-arms, and wielding nine swords. Looks like a green-faced Asura with fangs. Good heavens, he's like a great demon king who crawled out of the abyss."

"I'll call you Nine Swords Asura."

Levi called the evil spirit created and born from his mind: Nine Swords Asura.

All in all, this evil spirit was a little out of place in this world.

Perhaps it was because he came from a different world, and his heart had been influenced by the culture of his previous life.

What surprised Levi was that the Black Devil Blade was not at the maximum level even though it reached level 3. It could be cultivated further.

This made him look forward to the power of the Black Devil Blade after it reaches the limit.

He came to a room specially designed for apprentice wizards to test the power of spells. The room was very sturdy. Under normal circumstances, the apprentice wizards' cantrips would not affect this room at all.

Levi clenched his fists and stretched his body. The evil spirit behind him, Nine Swords Asura, did the same thing.

He didn't use Ripple Force. He just clenched his fist and punched at the wall.

Nine Swords Asura behind him did the same. The three-meter-tall phantom clenched its fist, and the black gas fist did the same thing as Levi. Levi and the evil spirit substitute's attacks overlapped!

Boom!

The air exploded, the walls trembled, and gravel flew everywhere!

A fist print appeared on the wall.

The wall, which could withstand the impact of any apprentice cantrip, had a fist mark on it after Levi's normal punch.

It was hard to imagine that if he used the Golden Ripple Divine Palm, the power of this evil spirit substitute's punch would probably be able to shatter this wall.

"It's terrifying. I wonder if it can break the defense of an official wizard." Levi sighed.

After a few minutes, Levi's evil spirit substitute, the Nine Swords Asura, suddenly dissipated.

With Levi's current level 3 Black Devil Blade, the substitute could only last for a few minutes.

"Not bad, another trump card."

"With my current Nine Swords Form and the explosive power of the Red Lotus Form, even a legendary knight shouldn't be able to take a punch from me, right?"

Levi called the state of Burning Red Lotus Blood, Red Lotus Form. This was his strongest form without using wizard abilities. He could fight Andrew, who was comparable to a legendary knight, without losing.

Now, Levi had a new form, which he called the Nine Swords Form.

His intuition told him that the legendary knight was no longer his match when the two forms overlapped.

After he finished studying the Nine Swords Form, Levi opened his proficiency panel.

Levi—

Deep Sea Meditation Art: Level 2 (3/5000)

Insect Controlling Technique: Level 3 (690/10000)

Flower Fairy's Dew: Level 3 (5678/10000)

Now, Levi's spiritual force had advanced to the level of a mid-level apprentice wizard, and his spell power limit was 43 points.

Mid-level apprentice wizards could master five zero-circle cantrips.

Out of the five spell slots, Levi had only used two.

He still had three spell slots left, so he had to learn an offensive and defensive cantrip first.

Although his knight ability was powerful, this was the world of wizards after all. The methods of knights were much more monotonous than that of wizards.

Moreover, he couldn't keep failing the annual combat assessment. If he failed for many years in a row, he would be removed from the Gray Tower's apprentice wizard rankings.

Now, he had already become a high-level pharmacy apprentice.

He had fulfilled Witch Marlene's request.

Next, he was going to look for Ms. Marlene.

On the third floor of the White Tower, Ms. Marlene watched as Levi refined the Smurf's Leap and the Blood Elf's Wail potions.

Levi had refined ten sets of materials, and seven of them were successful.

This was already the standard of a high-level pharmacy apprentice.

"Clap, clap, clap."

Ms. Marlene smiled happily and clapped for Levi. She walked up to him.

"Little Levi, you've really surprised me. You were born to be a pharmacist." Marlene sighed.

"Teacher, you flatter me. I'm just using other people's sleeping time to make potions," Levi said humbly..
