

Wizard 255

Chapter 255: Red Lotus Form and Nine Swords Form vs an Official Wizard! (7)

Oliver also began to attack with his cantrip, Water Arrow.

There were a few apprentice wizards from other organizations on the Azure Ship.

He also started to counterattack without hesitation.

The Undead Ship's reputation in this area wasn't very good.

"Hehe, Ms. Marlene, long time no see."

A green-robed wizard with green skull paint on his face was cackling. He held a two-meter-long staff in his hand.

The attack of the Sailfish Arrow was completely blocked by his green ghost fire.

Beside him was a young green-robed wizard with a wand in his hand. He looked at Marlene on the Azure Ship with a smug expression.

In addition to this, on the Azure Ship, there were also a few apprentice wizards rubbing their palms and looking at the people on the ship.

No one noticed that Levi was holding his breath and staring at the bottom of the ship with a cold gaze. Because the water medium had a longer range of transmission, Levi could sense the people on the ship through his Advanced Vibrosensing even in the deep waters.

He had already found his target, the young official wizard.

"Green Ghost Carter, tsk tsk, I didn't expect an old fart like you to personally come out to rob us," Ms. Marlene said.

"Ms. Marlene, hand over the Eye Devil's Gaze, and I'll give you a quick death," Green Ghost Carter said.

"As expected, someone leaked the secret. These guys are here for the potion," Levi muttered to himself.

"Stop talking nonsense, Old Green Ghost. Let's see the truth with our hands."

When enemies like the Undead Ship and the Gray Tower met, their eyes turned red.

After Ms. Marlene finished speaking, she cast another First-Ring Spell, Flying Fish's Dance.

As a veteran First-Circle Wizard, her strength was not to be underestimated.

Hundreds of flying fishes that were condensed by the power of the water element blotted out the sky as they charged toward the wooden boats belonging to the Undead Ship.

"This is a small trick. Come out, Hell Strongman!"

Green Ghost Carter's huge staff suddenly hit the ground.

A dark green diamond-shaped array appeared on the deck.

Then, the green door that looked like a space- time tunnel opened.

"Isn't this the prototype spell of the Seal of Hell, Hell Summoning?"

Levi looked at the dark green door on the surface of the sea, ready to attack at any time.

After this First-Ring Spell was cast, a green stone claw appeared from the green door. Green flames burned on the stone.

In the next moment, a three-meter-tall hell rock giant appeared in front of Green Ghost Carter.

This stone giant was emitting green flames, and green runes flickered on its body, blocking all of the flying fish's attacks.

The other First-Circle Wizard used a green energy cloak to block the attack.

"Go, Hell Strongman, begin your slaughter."

Green Ghoul Carter let out a strange laugh. The stone giant suddenly exerted

Force and crushed the deck.

Then, the seemingly cumbersome rock giant directly crossed the distance of dozens of meters and jumped onto the Azure Ship. "This monster's physical fitness isn't any weaker than a legendary knight."

"As expected of a veteran First-Circle Wizard."

Levi patiently waited for the right moment to strike. He only had one chance. Once the official wizard was prepared, it would be very difficult for him to kill an official wizard.

Ms. Marlene's figure fluttered and dodged the rock giant's attack.

Her expression was solemn as she sighed. Then, she activated the first circle defensive spell in her wand and began to chant.

Accompanied by her chanting, a whirlpool began to appear on the sea near the Undead ship.

Terrifying water elemental power gathered in this sea area.

In the next moment, a water pillar shot out.

A wizard from the Undead Ship was directly blown away by the water pillar and died.

"This is bad. This crazy woman used a second-ring spell. She's going all out from the start."

Green Ghoul Carter quickly got the rock giant to jump up and attack Ms.

Marlene who was in the air, but it couldn't break the defensive spell for a while.

Water pillars began to emerge from the vortex, and in a flash, several apprentice wizards died immediately.

The other green-robed wizard from the Undead Ship saw this and began to chant. At the end of his wand, a green ghost fire with a diameter of one meter took shape, emitting a terrifying power.

He had to interrupt Marlene's spellcasting.

While the young wizard was chanting a powerful First-Ring Spell, Levi quickly floated up and exploded out of the water.

He snapped his fingers, and the shadow of the frost giant appeared behind him.

There was a three-headed, six-sword-wielding Asura substitute in front of the frost giant's phantom!

Levi held a sledgehammer in his hand, and golden Ripple Force rippled out.

The Bright Silver Protection on his body shone brightly in the night.

Frost Giant's Sigh froze everything.

The Red Lotus Blood was burning, and the heat waves surged into the sky.

Red Lotus Form and Nine Swords Form, coupled with the power of the golden Ripple Force!

All of them were cast on the legendary weapon, Lion King's Pride! This was the strongest attack that Levi had been planning for a long time!

"Die!"

The sledgehammer came crashing down.

The cantrip-level green protective shield on the young First-Circle Wizard's body was instantly shattered!

The next moment, the sledgehammer fell on his body.

Earthen yellow runes appeared on his body, and his muscles turned into a rock-like texture.

This was his passive first-ring spell, Rock Body, which strengthened his body.

He had actually dual cultivated the Earth School of Thought.

However, the young wizard was still afraid.

With the support of the Red Lotus Blood, Levi's strength was comparable to a

Strength-type legendary knight, and his explosive power was unparalleled.

In addition, the power of the golden Ripple Force and the Nine Swords Form were superimposed.

The power of this hammer was unstoppable!

The rock body cracked open and blood flowed everywhere.

This was not the end.

The evil spirit double behind Levi had three heads and six arms, wielding nine swords!

Nine Blade Stream Profound Meaning, Killing Indiscriminately!

The Nine Swords Asura's substitute held nine black gas swords, and the black swords danced wildly.

Like cutting vegetables, it cut the already cracked rock body.

He was slashed into countless pieces!

Levi's attack had succeeded, and he immediately fled while he was still in his state.

Green Ghost Carter's green flames blasted towards Levi, shattering his Bright Silver Protection and landing on his back.

The liquid black scales exploded, and the remaining force poured onto Levi's Frost Giant Armor.

The painful, burning sensation of pain pervaded.

However, with Levi's current Transcendent Endurance and powerful physique, these burns were not fatal.

"Damn, that old man is really dangerous. His reaction is too fast."

Levi jumped into the water.

The Blood Wings shook the seawater, and just like the swordfish, they quickly pulled away from the Undead Ship.

In the distance, Ms. Marlene looked like a god who had descended to the mortal world.

The second-ring spell exploded into countless water pillars, shattering the wooden boat.

Green Ghost Carter was also hit. He looked at the minced corpse of the young wizard beside him and felt a chill in his heart.

The person just now was only an apprentice wizard.

However, his path as a knight was clearly comparable to that of a legendary knight.

The Gray Tower actually recruited a legendary knight as an apprentice wizard.

Looking at his appearance, he looked very young.

"Damn it!"

"Retreat. "

"This old woman really doesn't care about her life. She hasn't even advanced to the second circle and she's already forcefully using a second-ring spell."

Moreover, the threat of a legendary knight was no weaker than a First-Circle Wizard.

"What bad luck, an official wizard died, I don't even know how to explain to the captain."

Green Ghost Carter did not linger in the battle. He cast a flying spell and led the surviving apprentice wizards into the distance.

On the surface of the sea, the remains of ships were floating everywhere.

Blood dyed part of the sea.

It was unknown when the stone giant had returned to hell.

Levi waited until he was completely safe before he fumbled around in the sea for a while.

In the end, he got a few small bags, which should be storage items.

He quietly put it away and returned to the Azure Ship.

In the chaos, Oliver had been torn apart by the rock giant and died a tragic death.

Ms. Marlene's face was pale and she kept coughing. She returned to the deck.

"Teacher, are you alright?" Levi asked.

"It's okay, I'll bring you off the ship and change the route back to the tower.

'I'ms route IS not sate anymore.."
