

Wizard 2601

Chapter 2601: Eight Ring Limit!

Levi suddenly asked:

"Senior, isn't the Master of the Star Vortex a demonic creature? Why don't I feel any demonic aura?"

"A Legendary Wizard has already purified it. That Legendary Wizard also asked me to remind you that the bloodline of the Star-Spinning Turtle itself contains extremely strong Elementary Magnetic Field power, which is very destructive to both the body and the spirit. You must be careful when using it!"

"Okay, thank you for the reminder. May I ask who this Legendary Wizard is?"

"Edmund."

Upon hearing it was Edmund. .

Levi wasn't very surprised.

From the day's battle, it was certain that the Grand Council Chairman made a move.

Only he.

Could easily kill the Master of the Star Vortex, this "old turtle who puts all points into defense because he's afraid of pain."

What surprised him was that Edmund had thoughtfully purified it for him.

But thinking about it, it made sense, considering the density of the demonic aura contained in Mythical demonic creatures.

An eighth-circle like Levi probably shouldn't touch it at all.

Saying goodbye to the Rock King, amidst everyone's envious gazes.

Levi returned to the Ancient Dragon Continent.

During the execution of the Blood Battle mission, his Blood Battle Armor smoothly rose to Level 8.

But unlocking Level 9 requires his promotion to ninth-circle to make it possible.

Currently, wanting to hunt ten Level 9 demons alone is too difficult.

...

As time goes by.

A month before the Blood Battle Auction.

Outside the Tower of Summer Flowers.

Levi, meditating with closed eyes, looked towards the apex of the tower.

Torrents of water elemental power gathered and came.

The silhouette of a towering giant tree pierced the clouds, Torch Dragons circled, and Phoenixes danced.

After more than a thousand years, Elena finally entered the Eight Environments realm.

Feeling Levi's gaze, Elena opened her eyes.

"How do you feel?"

"Pretty good, feels like I can take on ten of the old me..."

"Are all three of your duplications eighth-circle?"

"Yes, you were the last to breakthrough."

"..."

"I've prepared a gift for you."

"Is it a breakthrough gift or a birthday gift?"

"You'll know when you see it."

Levi took Elena to the Ancient Banyan Fairyland.

He held the [Dark Night Dance] in his hand.

Like a night sky, the long dress fell.

Bits of starlight were all drawn in, dreamy and mysterious.

"Wow... what a beautiful dress." Elena exclaimed with her small mouth.

"Try it on," Levi told her the refining method.

Elena excitedly put it on, holding her skirt as she spun around.

Golden curls like waterfalls, snow-white neck, a waist one could hold in one hand, slender figure and long legs faintly visible beneath the thin gauze, the cloak covering the dress outside added a dashing queen's aura, like a dark version of Disney's Ice and Snow Queen... Noble, elegant, and sexy all in one.

"It's so beautiful, and it's so powerful. This gift is too precious."

"As long as you like it."

"Did you get this from the ancient tower?"

"Yes, and it might be a rare treasure left by Sauron."

"Really? Why would the ancestor of wizards create such treasures?"

"Maybe Sauron had a Madam."

"True, after all, he was a man who has slept with the Succubus Queen."

"With this treasure, I feel more at ease when you go demon-hunting in the future."

"Super strong invisibility, super strong magic defense, plus attributes amplification from the seven dimensions... I feel like I could take on Level 9 demons."

"Don't... you're far off, just focus on hunting Level 8 demons honestly, with your current cultivation, you can hardly harness all the power of this rare treasure, at most it can save your life when facing Level 9."

"By the way, what does the inscription say? I can't understand it?"

"No idea, don't know which civilization's language Sauron used... but I guess it's a symbolic blessing of love."

"I see."

Once Elena put on this dress, she was unwilling to take it off.

She came to the Mahjong four-person group under the ancient banyan tree.

The four of them seemed as though they had never seen Elena before, shocked.

"Where did this goddess descend from?" Martha teased with a smile.

"So beautiful, such a slender waist." Black Phoenix circled Elena and examined her closely.

Martha gazed at Levi in the distance, feeling envious in her heart.

Wishing she was not a tree, so she could wear beautiful clothes.

Idrasala's eyes were dazed:

"So beautiful, so sexy, I want this type of clothes too."

Martha: "Didn't I make you a set with leaves?"

"That's children's wear, sister..."

"But you're just an immature Dragon, sister."

"Dammit, I just wish I could morph into a mature form when in human shape."

"Don't rush, you'll be able to wear them once you're grown up."

Returning to the Emperor's Palace.

After Elena returned from flaunting to Triss.

He let Elena celebrate wearing the dress.

And indeed, it added a unique flair.

...

A month later.

They attended the Blood Battle Auction.

Elena, clad in a Star Gauze Long Dress, undoubtedly became the focus of the auction.

Everyone praised the beauty and grace of the Lady of Dusk.

Even Ms. Lucy, whom they happened upon, highly commended.

In the blood-stained age of gray tones, a bright color was added.

As the first auction after the epoch of total war.

A lot of good things came up this time.

Levi spent 1.8 million Aether Stones to purchase a kind of Water Element Holy Medicine.

Its name is [Fish-Dragon Grass].

Although what he needs is Wind Element Holy Medicine.

But holy medicines are always good to have plenty.

If refining fails, it can serve as backup material.

And, later when Elena or the Gondor Three Heroes advance to Grand Wizard, they can use it.

He spent 20 billion Aether Stones to acquire [Red Dragon Claw] for the Holy Infant.

Chapter 2602: Eight Ring Limit!

This is the Morning Star Artifact, the final component of the Red Dragon Series.

With the four already refined by the Holy Infant, the Red Dragon Series is now complete.

After refining the Bright Moon Artifact [Red Dragon's Head] a few years ago.

The Holy Infant gave birth to the fifth associated spirit: the Fire Dragon King.

This is a purely combat-type spirit, with considerable strength, second only to the Snow King and Zhu Rong Mountain.

The remaining two spirits are Roman and Lion King.

The former comes from the Earth oddity transformed by Wizard Roman.

The latter comes from the early refined Morning Star Artifact [Flame Medal].

Both primarily exist as mascots, with optional combat roles.

Up to now.

The Holy Infant has already gathered the four major sequences of [Cold King], [Flame King], [Winter Emperor], and [Red Dragon].

Additionally, the Morning Star Artifact [Fire God's Tooth] and the Bright Moon Artifact [Frost God's Book] have also been refined.

Four out of seven parts of the Fire God Series have been collected.

The Frost Series, however, is two-sevenths complete.

The Holy Infant also gave birth to a new quasi-elemental Holy Body [Frost Void Body].

Next, collect both divine-level sequences of Ice and Fire.

Then the Holy Infant's [Ice and Fire Holy Body] will be concluded.

To advance further in the future, more Radiant Suns and even Legendary Artifacts will be needed.

Levi spent a huge sum to acquire an entire piece of raw ore [Heiger's Gold], valued at 9 billion Aether Stones.

To recast the [Golden Dragon Heavenly Shield], or to modify and upgrade the wizard tower, this item is indispensable.

The rest are conventional resources, costing around 10 billion.

The last billion acquired three pieces of the Dark Treasure Map.

In one day, he actually spent 40 billion.

Even as a Grand Wizard, it's difficult to spend so lavishly.

Levi usually gets his cultivation resources from organizations and the Dark Ancient Tower.

So, besides the auction, there is no place to spend money.

In recent years, the performance of the industries managed by the Three Avatars has risen steadily.

Also, with the establishment of the White Dragon Commerce, the profitability of the Ancient Dragon Continent has also risen with the tide.

As the actual controller behind so many organizations, Levi.

Just by relying on dividends, he can earn an enormous fortune unimaginable to ordinary wizards.

He especially favors the White Dragon Commerce, which is the [Alibaba] of the Wizard World.

One day, when the commerce opens up throughout the Multidimensional Plane.

That's when Levi becomes the richest person in the universe.

At that time, everyone will have to call him "Papa Levi".

At this auction, Elena only bought some materials to upgrade the wizard tower, which cost 4 billion.

Her personal small treasury is already depleted, and she's muttering about starting to make money through alchemy.

There is no marriage law in the Wizard World, nor is there common property.

So partners manage their own assets independently.

Although Elena is Mrs. Levi.

In reality, she's not very wealthy, just enough for her usual cultivation.

Of course, those resources from the Ancient Banyan Fairyland, she can also take freely.

If Levi sees an artifact or treasure suitable for her.

He would also buy it and present it as a gift to her.

But rarely gives money directly.

It's different with Triss.

She holds many original intellectual properties.

As the Deputy Tower Master of the Witch's Family, she also earns a high salary.

In addition, she is one of the shareholders of Gandalf Pharmacy.

She is truly a rich lady, with personal assets second only to Levi on the Ancient Dragon Continent.

Seeing Levi and Elena both have wizard towers, she also feels a little envious.

With determination, she borrowed 10 billion from Levi.

In total, she spent 33 billion to purchase the remains of a wizard tower.

This was the relic of a Grand Wizard from the Ocean School of Thought, named [Star Sea Tower].

A hundred years ago, he fell in a blood battle.

The wizard tower was also smashed by demons, crumbling and dissipating into the void.

Fortunately, the most important foundation of the wizard tower was found by the congress.

So, they entrusted the Blood Battle Temple to auction it.

The complete [Star Sea Tower] was a nine-story Holy Tower, also a Divine Soul Artifact, valued over a hundred billion. .

With the successful experience of Levi and Elena.

Triss plans to rebuild a wizard tower of her own based on the Star Sea Tower.

Then fuse and refine it with the existing Soul Artifact, as her own Soul Artifact.

The times have changed.

This is an era of supernovas gathering, a resource boom era.

Wizards with ambitions must have their own wizard towers.

...

Back to the Ancient Dragon Continent.

Elena immediately refined the [Water God's Ring] and [Water God Bracelet].

Since they are both Morning Star Artifacts, the enhancement is better than nothing.

The only value is in the complete collection of the [Water God Series], the Water God Body is perfect.

To her,

the only goal before becoming a Grand Wizard is to complete the [Sea Emperor Series].

Currently, the series has only refined a Bright Moon-level [Sea Emperor's Eye].

It increased spiritual force by 190 points, enhancing the Water God Body a bit.

No associated awakenings or special functions were born.

Now the [Thousand-Year Potion Project] is in full swing.

Elena, feeling the wealth of Triss,

has blended into the project, striving to improve her pharmacy skills.

...

Four years later.

Nora Calendar Year 1136, Blood Battle 924.

[Blood Battle Daily: Purgatory Demon SwordSodros today killed a level 8 Fish Demon in the West Sea with a level 7 strength, rescuing a large mortal gathering place, and was specially awarded the Star Medal, ranking on the Star List.]

Levi looked at the newspaper, revealing a gratifying smile.

The past twenty years have been the era of the second brother.

He rose swiftly like a comet, advancing against the odds on the Level 8 Demon Slaughter List.

Now he even surpasses his level to kill, proving his supernova potential.

The second brother is a wizard who accumulates strength and waits for opportunities, having trained alone in Hell for years, only lacking opportunity.

Now, riding the wave of total war, he is sure to advance triumphantly.

Not long ago, Link also advanced to the Seven-Ring Realm.

Leaving the seventh-level list he had dominated for many years.

Chapter 2603: Eight Ring Limit!

Together with the Shadow Queen, she begins her rush to the Level 8 Demon Slaughter List.

The Gondor Three Heroes, Elena, have all entered the Level 9 list.

However, at this stage, they are all digesting and absorbing, not having started demon hunting yet.

Therefore, their rankings on the demon-slaying list are quite low.

On this day, Louise arrived at the Emperor's Palace.

"Hall Master, I've already contacted the three uncles, and they're all heading towards the Nora World."

"Good, keep me updated if there's any situation. I've already informed the upper management."

The uncles Louise mentioned, naturally refer to those three giant dragons.

The Frost Sky Dragon, Ancient Mountain Dragon, Molten Golden Dragon, all are pure-blooded Dragon Clan Complete Bodies.

Since the Ancient Tomb World was destroyed, they've been wandering outside, without a fixed abode.

Now having heard that Louise has settled in the Wizard World and is doing quite well, they have proactively come to ally themselves.

As such, the Dragon Palace now has five Level 9 experts.

"By the way, Hall Master, yesterday the Golden Walker sent people to return the Heart-Cleansing Tea Tree to me..."

A lush tree appeared, and the tea leaves on it emitted a refreshing fragrance.

It was the Heart-Cleansing Tea that Levi had longed for.

"I understand, you can head back now... By the way, what's the situation with Abel these days?"

Upon mentioning Abel, Louise's face was full of pride.

"Not long ago, the knight also advanced to the level four realm, and a Bloodline Dharma Idol was born."

"Not bad, a two-hundred-year-old Witch Knight dual cultivation at level four, talented and promising, not losing to the Fire Dragon Knight."

Levi put away the Heart-Cleansing Tea, transplanting it to the Ancient Banyan Fairyland.

He was completely surprised that the Golden Walker, being a Grand Wizard, actually chose to back down.

Returning what he had already acquired.

This caused Levi to have a slightly changed opinion of him.

Apparently, he hasn't been completely blinded by greed.

"Ah~"

Tasting the long-lost Heart-Cleansing Tea.

The cool sensation went straight to his Heavenly Spirit Cover.

Levi contemplated the next steps of his plan.

Currently, the materials for the Holy Soul Potion are only missing the Wind Element Holy Medicine.

His spiritual force is reaching its limit, the Witch Mark is about to achieve Perfection.

It's estimated that he could advance to the ninth-circle within a hundred years.

The Nightmare World's millennial locust plague still has 115 years left, and this crossing shouldn't pose much of a problem.

Additionally, the Advancement Medicines for the Crimson Emperor Dragon Breathing Technique are prepared too.

Once he reaches his limit, he can directly advance to level 9.

After level 9, it's no longer possible to exchange treasures using the Demon Slaying List and the Battle Merit System.

Essentially, the Demon Slaughter List is a welfare given by the congress to the low-level, middle-level, high-level wizards.

Being at the top of the pyramid, a Grand Wizard, Legendary Wizard.

He definitely can't bully the weak and compete with ordinary people.

Of course, above the Grand Wizard, this group of people has a separate reward system.

As long as the officially assigned level 9 tasks are completed.

You can still exchange for generous rewards at the Council Treasury.

A month later.

Levi took a retreat leave at the Blood Battle Command Center.

He has to prepare for a new round of long-distance expedition, with three goals:

The first goal is to search for sacred medicines, crystals, etc., that are materials and opportunities for advancement.

The second goal is to open up the Dark Treasure Map.

The third goal is to help the Spider King resolve the troubles in the Flora Realm.

The Spider King has been left frazzled by the damn God Race, losing many duplications.

This matter must be resolved.

The Blood Fire Dominator is extremely belligerent and aggressive. .

The Church under his command is the same.

Levi absolutely does not allow his interests to be encroached by enemies of the Wizard World.

Nora Calendar 1137, Blood Battle 925 years.

Levi bid farewell to Elena, Triss, and others, quietly leaving Nora.

...

Gondor City.

A thousand points of spiritual force surged into Gandaph's mind like a mighty river.

Faint echoes of the ancient sounds of the Dragon God reverberated.

A jet-black giant dragon exuding a violent aura seemed to coil within the world of spiritual force.

"Such a powerful Dragon God's Blood, I'm filled with strength!"

Gandaph placed his hand on the Klein Crystal Ball.

[Spiritual Force: 15555/24300]

...

[Dragon God's Blood] instantly raised a thousand spiritual force.

While a jet-black giant dragon in his mind is a newly birthed Glorious Sun-Grade special spiritual creature.

Gandaph named it [Nightmare Black Dragon].

The Nightmare Black Dragon possesses the power to control the variant [Water of the Black Sea].

The authority it exudes with a mere gesture surpasses all the special spiritual creatures that Gandaph previously possessed put together.

At present, Gandaph has four major special spiritual creatures.

The strongest is the Nightmare Black Dragon, followed by the White Elephant.

The Yellow Dragon and Blue Dragon are both Morning Star-level combat special spiritual creatures.

Although they have been strengthened according to their master's increasing strength.

In terms of the enemies Gandaph will face in the future.

They can only become mascots to enhance his aura.

With the increase in wizarding power, the low-level special spiritual creatures that can forever keep up with the times.

Remain those auxiliary types, such as Long, Jin.

Each generation has a legendary figure, while each era sees auxiliary roles continue.

Moreover, Gandaph has also comprehended a special physique.

He named it [Sea Dragon Divine Body].

This is the special physique that body-refining wizards dream of.

[Sea Dragon Divine Body] further fused with [Dragon Elephant Holy Body].

Thus formed his current physique: [Dragon Elephant Divine Body].

Entering a dream state, logging into the Nightmare World.

Gandaph fought a battle with the Red King and Lopez again.

Starting at one hundred and twenty Dragon Elephant power!

The two Legendary giant apes were powerless to resist.

Through testing.

In its maximum state, Gandaph can now exert one hundred fifty Dragon Elephants!

From this, it is estimated:

The strength of the Dragon Elephant Divine Body is 1.5 times that of the Dragon Elephant Holy Body.

Gandaph was overjoyed.

Previously, despite his diligent study and practice, he could only slowly enhance one dragon and one elephant.

One Sun Refining Artifact instantly raised dozens.

The feeling of spending money, it's just so damn exhilarating!

"The Wild God's Body left by Sauron is supposedly stronger than Dragon God's Blood... but for now, it can't be refined; it needs a period of digestion first. With the current growth trend, after attaining the Ninth-Circle Realm, a single punch could yield a thousand dragons, a thousand elephants, such a scene can only be described as handsome."

Chapter 2604: Eight Ring Limit!

Gandalf's figure vanished, and when he reappeared, he was already high in the sky.

He stood atop the Star Castle, the wind gusting fiercely.

This is the [Star Medicine Castle], the base of Gandalf Pharmacy.

He swept his gaze around, and there were three more castles hovering in the air, two small and one large.

They are the Fire Dragon Sky Work, Dawn Tower, and the Star Castle of Gondor City.

Ace, Lord Victor, Lucian, and Soraya all looked toward the Eastern Sea.

"Everyone ready? Let's move out." Lucian spoke spiritedly.

"Saying goodbye to Midland, surely going to miss it." Lord Victor, dressed in white, remained carefree.

"A millennium feels like yesterday." The Holy Infant couldn't help but sigh.

"Say goodbye to the past." Soraya said, sneaking a glance at Gandalf.

The old fellow's aura has become much stronger, his cultivation has surpassed mine.

Gandalf stroked his beard and said, "Sauron Continent is in the Eastern Sea, Ancient Dragon Continent, White Dragon Commerce are all in the Eastern Sea, the Eastern Sea is the next era's political, economic, and cultural center. A thousand years from now, we will all be grateful for today's decision."

A short while ago.

The Supreme Council issued the [Guidance on the Establishment of Pan-Plane Commercial Organizations in the New Era].

The guidance suggested establishing two centers that radiate commerce to Nora and even the Multidimensional Plane.

One is in the heartland of the Nora Continent, jointly set up by numerous Nether Capitals and markets distributed across the continent.

The other is in the Eastern Sea, with White Dragon Mountain as a pilot, gradually radiating to the four seas.

Considering Gondor City's deep cooperative history with Ancient Dragon Continent.

At the suggestion of Gondor Three Heroes, Lucian finally decided to relocate to the Eastern Sea.

A new continent had just appeared near White Dragon Mountain recently.

He rented it immediately, as the new base for Gondor City.

Today is the moving day.

The Star Castle emitted blue flames, shattering the void, and flew toward the Eastern Sea.

A certain period of time later, just as they entered the Eastern Sea region.

Gandalf closed his eyes in meditation, suddenly receiving a message in the Blood Battle channel.

[Ocean Abyss Alliance is under demon invasion, nearby organizations and wizards are swiftly heading for support.]

"Ocean Abyss Alliance?"

Gandalf has many friends who are part of the Ocean Abyss Alliance.

This organization has greatly contributed to the body refinement path.

He couldn't stand idly by.

He immediately rolled up his sleeves and hurried off.

...

Ocean Abyss Alliance.

The massive protective barriers flickered continuously.

Inside the barrier, magic witches relied on long-range spells to bombard demons.

Outside the barrier, a group of body-refining wizards were in fierce melee combat with demons.

The sea surface was like blood, corpses were everywhere, a terribly gruesome sight.

A short time ago.

The leader of the Ocean Abyss Alliance organization failed in breaking through the ninth-circle and perished.

Everyone hadn't yet recovered from the sadness.

Today, it was invaded by a legion of 12 Level 8 demons.

The supreme fist wizard, Sea Wolf, Killing Whale Dominating Fist, and other senior seventh-ring, Perfection-level body-refining wizards bathed in demon blood, fought furiously, each surrounded by heaps of demon corpses.

Luckily, the Ocean Abyss Alliance's overall strength exceeds that of the Witch's Family.

Although they lost a member, the eighth-circle wizards stationed regularly in the organization, there are still three.

Relying on the array, they have held on until now.

"Guard the barrier, guard the continent bridge teleportation portal."

"Fight! Reinforcements have arrived."

A seven-colored ripple spread within the base.

One after another, Star Castles appeared, emitting blue flames as they descended.

Hundreds of thousands of figures flew out from the openings.

The most dazzling among them was undoubtedly the five eighth-circle figures at the forefront.

Lucian stood in the center, loudly proclaiming, "Gondor City is here to support!"

On either side of him were Gondor Three Heroes and Soraya.

Witnessing this scene, the wizards of the Ocean Abyss Alliance were invigorated.

The renown of Gondor City is known to all.

This is the Wizard World's gathering place with the highest density of supernovas.

Gondor Three Heroes and the City Lord are supernovas.

Although Soraya may not be a supernova, she is certainly a top-level genius.

In nearly a thousand years of Blood Battle, Gondor City has undergone over a hundred wars, achieving victory in each.

Deep within the battlefield.

An eighth-level wind demon stirred a violent wind, charging at the supreme fist wizard.

He flickered away, only to encounter another eighth-level Flame Demon blocking his path.

The Flame Demon Sword slashed down, unstoppable.

In a moment of despair, a dark golden fist shattered the void, smashing into the Flame Sword.

The Magic Tools crumbled inch by inch, and the fist wind sent the Flame Demon flying hundreds of miles.

The Flame Demon was horrified to find itself in an icebound realm.

Snowflake-patterned lights erupted, freezing it.

Then, a fire dragon roared, explosively erupting!

Boom! A Level 8 Early Stage Demon was smashed into pieces.

The supreme fist wizard gazed at the newcomer.

"Gandalf Leader... why are you here?"

"Passing by during the move. You go rest, heal your injuries, leave this place to me."

"Alright, thank you, Leader."

Gandalf rubbed his fists, fixing his gaze on the Level 8 Mid Stage wind demon.

He saw the gaze of fear in its eyes.

"Gandalf? You reached eighth-circle?" the demon exclaimed.

"Of course, prepare to die!" Gandalf's thoughts moved, and his wizard form emerged.

Ancient God riding a serpent to command a dragon, surging through waves.

Radiant King Martial Way's Opening Slash, Dragons overturning the sea, stirring the universe!

The world was filled with stampeding dragon-elephant phantoms, crushing demons.

The most splendidly fighting undoubtedly was the Holy Infant.

The [Ice and Fire Dragon Formation] beneath his feet spun ceaselessly.

A giant ice-fire grinding disk appeared on the battlefield, constantly moving with a diameter of hundreds of miles.

The grinding disk roared and crushed everything, demons fled in terror along its path.

Lord Victor waved his hand, a silver armor-like special spirit creature emerged from his body.

Chapter 2605: Eight Ring Limit!

This is the [Silver King Sword Armor], a companion spiritual creature refined from the Silver King Sequence.

Oh, by the way, "Little Victor" Link also has one.

During years of seclusion, Victor has collected two more Silver King Sequence Artifacts.

Current progress is four-fifths.

The [Silver King Sword Armor]'s defense is decent, barely able to withstand an eighth-circle attack.

After all, it's just a king-level sequence, the expectation shouldn't be too high.

Victor also refined the Sun Refining Artifact [Golden God Star] and the Bright Moon Artifact [Golden God's Chain].

The Golden God Sequence progress is six-sevenths.

The former increased spiritual force by 900 points, the latter increased the spiritual force upper limit by 200 points.

After that, he birthed the quasi-elemental Holy Body [Vajra Undying Body].

And the divine perception [Golden Magnetic Heavenly Eye].

Combining with the Secret Sword Flow, wherever his perception reaches, it becomes the striking range of the secret sword.

In an instant, within a range of thousands of miles, Sword Qi crisscrossed, dense like a net.

Sword lights woven like needles and threads, taking away rows of demons' lives.

It's completely like mowing the grass.

"Elegy Wizard Group comes to aid!"

"Heavenly Strike Wizard Group arrived!"

...

More and more reinforcements descended through the Continent Bridge.

The tide of the war instantly reversed.

Of the 12 demons present, only one eight-level peak escaped, the rest were annihilated.

The Gondor Three Heroes killed 8.

The remaining demons were trapped in the ocean awaiting the arrival of death.

They had nowhere to escape, nor anywhere to hide!

The space on the battlefield has been locked by a ninth-level rare treasure and two wizard towers.

Nine Mountains Linked Town, Ice and Fire Tower, Black Soul Demon Tower.

Of course, to avoid exposing the connection of the duplications.

Gandaph claimed externally to have bought eliminated wizard towers from the Dusk Hall Master.

After half a day, the demon army was completely wiped out.

This battle was a great victory.

The points of the Three Avatars skyrocketed significantly, and their ranking improved a lot.

The main body will soon be promoted to ninth-circle.

The upcoming era will be theirs to suppress.

After the battle, Gondor City declined the Ocean Abyss Alliance's gratitude banquet.

Everyone hides their merits and fame, continuing to move house.

...

Years have passed.

In the blink of an eye, twenty-five years have gone by.

Nora Calendar 1162, Blood Battle year 950.

Gondor City successfully became neighbors with Ancient Dragon Continent.

This is just the beginning.

More and more shops, markets, nomadic Nether Capital, New World... all began setting up branches near White Dragon Mountain, and to ensure smooth interactions, the congress built two Continent Bridge teleportation portals between White Dragon Mountain and Ancient Dragon Continent, forming a preliminary commercial center radiating the Eastern Sea.

The White Dragon Auction is becoming grander each year.

More wizards and organizations are willing to entrust their treasures to the auction house for sale.

During this period, demons have launched several invasions against White Dragon Mountain.

But under the dual protection of Ancient Dragon Continent and Gondor City.

Each invasion ended in failure.

Not counting Levi and his summoned creatures.

Ancient Dragon Continent has Elena, Triss, and Wendy, 3 eighth-circle wizards; Black Feathered Pheasant, Eight-legged Sea Demon, Ancient Alligator Turtle, Frost Giant Eagle, Thunder Crocodile, and Louise, 6 level 8 guardians.

Gondor City has 5 eighth-circle ones.

White Dragon Mountain has 1 Level 8 Peak.

That means the White Dragon Business Circle has 15 eighth-levels guarding it year-round.

Plus, the non-resident level 8 powerhouses gathered here for trade, already exceeding 20.

This lineup rivals several top wizard organizations.

Don't forget.

The strongest in Ancient Dragon Continent is the Mechanical School's unreasonable firepower defense system.

No wonder the [Commercial Daily] commented:

The White Dragon Business Circle is the safest place in Nora except for Sorren Continent.

Under the siphon effect, a modernized wizard world metropolitan district is forming.

...

Land of Darkness.

Inside a certain shelter, Levi is in secluded cultivation.

Beside him, there's a book [Levi's Treasure Hunting Diary].

[1140, went to Ancient World, found nothing.]

[1142, went to Nameless World, in an ancient wizard ruin slayed an ancient evil spirit, obtained a ninth-level pharmacist inheritance book [Old Man and Medicine], its author is the Eternal Youthful Witch, I briefly browsed it, discovered this sage indeed has unique insights on life-prolonging potions...]

[1145, went to Gel World, this place is no more... I suppose it was devoured by the Abyss, undoubtedly done by Surgard, hmph, cutting my opportunities, it has chosen the path to death!]

[1146, in an alien relic in Morrell World, discovered a Silver King Sword Chapter oddity, this is the final component of the Silver King Sequence...]

...

[1150, while traveling in Green Realm, encountered a legendary existence, surprisingly, it was the Baron of the Castle who vanished in Hell, it has a handsome appearance, not inferior to myself Baron Black Snake.

It travels the Multidimensional Plane aboard the ninth-level treasure [Halbin's Moving Castle], recently advancing to ninth-level realm, it is attended by a pair of beautiful twin maids, reminding me of my days living in Black Snake Castle, when I still knew how to enjoy life.

The baron was more enthusiastic than I imagined, we talked for long, exchanging information, intelligence, and materials, each taking what we needed.

It said in its early years, it discovered a 300,000-year-old Death Soul Tree outside the Pan-Plane world, but it seems to be part of Hell's garden.

...

While traveling in Hemi Domain, it discovered a Blood Clan breeding farm, Blood Clan raising Humans to obtain blooded food to satisfy blood lust, guarded by a level 8 peak Blood Clan, claiming to be Venerable Blood Scales, the Great General of the Blood Clan's Seventh True Ancestor.

...

I discovered living long is good, the baron's insights rank among the top of all existences I've encountered, this meetup greatly benefited me, writing today's diary really exhausted me.]

Chapter 2606: Eight Ring Limit!

[In 1153, I traveled across millions of miles and specifically reached the Hemi Domain, found the Blood Clan breeding grounds located in Bolo World, and met the Venerable Blood Scales. Seeing the shock and fear on its face was immensely satisfying... I allowed it ten moves, then shattered it with a single punch. After thirteen hundred years, this Blood Clan member, who boasted in front of the weak me back then, finally met its end.]

[In 1154, upon learning of the Venerable Blood Scales' death, the Seventh True Ancestor of the Blood Clan arranged for a level 9 incarnation to take revenge. We fought; it lost an incarnation, and I gained a bunch of level 9 materials. The future looks bright for both of us... After this, no Blood Clan members disturbed me. However, I feel that the Blood River Will seems to have noticed me, time to flee.]

...

[In 1156, I arrived in Hai'er World, where a group known as the Step Wind Clan resides, capable of mastering Hurricane Power innately. Their strongest member is currently an eighth-level being, working for the Council of Ten Thousand Clans. I decisively killed it and obtained the key to the Step Wind Clan's relic in the Ancient Secret Realm. It contains numerous rare wind-element herbs, including a soon-to-mature "White Scythe Grass," a nine-level holy medicine that I need... These should naturally belong to me.]

[In 1158, amidst a deep space meteorite wasteland, I found the drifting remnants of the "Star Tower." It is far from Nora and likely swept here by void turbulence. Madam Triss was delighted and borrowed 5 billion from me to buy the relic... I feel she might work for me her entire life to repay the debt, which is quite amusing to think about.]

...

[In 1162, having explored the Dark Treasure Map and the treasure map of the Dwarf Kingdom, I should head back to the Flora Realm to find the Spider King. This journey was fairly rewarding.]

...

On this day.

Levi opened his eyes.

He placed his hand on the Klein Crystal Ball.

[Spiritual Force: 26800/26800]

...

"Spiritual force has reached its maximum."

Calculating, it has been less than five hundred years since advancing to eight-circle.

At this speed, Levi felt satisfied.

Actually, he still had a Bright Moon[Red Tide Blood] at hand.

However, it could only be refined post nine-circle.

He opened the proficiency panel.

In the eight-circle magic section, there were a total of 27 skills.

had already reached the nineteenth rank maximum.

were currently at the eighteenth rank.

Another 4 were at the seventeenth rank.

The last four spells Levi studied.

Were "Mad Fire Ancient Spirit", "Desolation Messenger", "Brain Burning", and "Long Whale Drinking Sea".

The first was collected by the White Dragon Commerce and could create a flame spirit causing madness.

The second was obtained while exploring a treasure map, similar type, also leaned towards summoning.

Desolation Messenger was of Earth attributes, leaving a trail of desolation wherever it went.

The third was acquired earlier from a trade with Duke Rumon.

Burning and ascending oneself could temporarily increase spiritual force level by one-third.

Resulting in a boost in strength.

The cost was damage to spiritual origin.

This spell could be used on oneself or allies.

Naturally, Levi would not use it on himself.

He's never used such extreme means for ascension.

This spell was learned for application in special moments on summoned creatures.

The last "Long Whale Drinking Sea" was from a trade with the Ice Sea Witch.

This belongs to the Long Whale Sequential Magic, as Levi did not cultivate the antecedent.

Thus, it was not as quickly cultivated as "Thousand Thunder" and "Sun Splitting in Eight Directions".

However, the realm was high enough not to take much more time.

The 27 eight-circle witch marks are ready, awaiting perfection before advancing to the ninth-circle.

In the Rune Language.

Lovers Rune upgraded to the 15th rank, luck boost reached 180%.

Hanging Rune upgraded to the 10th rank, element damage resistance reached 90%.

Moon Rune at the 14th rank, lifespan boost 160%.

Levi found that his consumption of lifespan was completely unmatched by the increased rate.

If Moon Rune could infinitely upgrade, he would be immortally alive.

But he knew it was impossible.

Even those behind these runes likely cannot achieve eternal life.

Let alone himself who is blessed?

Moreover, he can sense the Rune Language has an upper limit.

Post eighteenth ranks, the Strength Rune and Chariot Rune, cultivation speed is progressively slower.

Levi is unsure of further potential advancements.

Regardless, he is already greatly appreciative.

Throughout cultivation, these inconspicuous runes greatly aided him.

The Twilight Round Table descended, Elena's projection appeared.

"Levi, there's some bad news..."

"What is it?"

"The Silver Dragon Knight's evolution failed, but survived, though his cultivation dropped considerably and the foundation was largely unaffected."

Upon hearing this, Levi sighed slightly.

"I understand, as long as he's alive... failure does not mean no chance at all. He still has time, enough to regroup and fight once more. If evolution fails, advancement will do. Cultivation is rebellion against fate; even geniuses need to face setbacks."

Elena nodded, she said, "There's also good news, Nanette and Green Bird Knight are getting married. Do you want to record a blessing video for them?"

"Sure."

"By the way, Thousand Illusion Knight is also preparing for evolution and wants to wait for your return to try."

"Alright."

"What about Dark Moon Knight? I remember he's nearly ready as well."

"Inspired by Silver Dragon Knight's failure, he decided to polish for another hundred years."

"That works."

"Also, I recently killed an eighth-level felon from the Council of Ten Thousand Clans and exchanged in the council treasury for a Bright Moon Artifact[Sea Emperor's Breath]."

"That's impressive, but take care."

"Don't worry, with your gift, the Dark Night Dance, I took him down in less than a hundred rounds. This exotic treasure is powerful." .

"How is the White Dragon Commerce doing?"

"Developing smoothly, with over two hundred shops settled in and tens of thousands of wizards and alien races... By the way, Nanette found an alien seller with Gale Wood of ten thousand years, quoting a level 8 exotic treasure. Checking the organization's treasury, there doesn't seem to be anything suitable."

"Gandaph has a level 8[Destruction Emblem], let him trade it."

Destruction Emblem is a trophy from the Black Dragon Wizard.

Obtained from the Council of Ten Thousand Clans, the quality is average.

Given Gandaph's combat expertise, this item is entirely unused.

Before leaving Nora.

Levi processed and placed his early-use Wizard Tools into the organization's treasury.

Things like Purple Holy Crucible, Belt of Gluttony, Snow Iron Dragon Armor were unnecessary.

He kept only a Falling Star Ring and Amethyst Light Sword with him.

With the wizard tower present, other wizard tools were rendered redundant.

Upon acquiring Gale Wood.

Levi's wizard tower possessed all four great strange woods of Earth, Fire, Wind, and Water.

One month later.

Levi set forth towards the Flora Realm.

"God Race, here I come!"

Chapter 2607: Sweeping Through the Strong!

Bloodfire Domain.

This is one of the super-sized domains governed by the Council of Ten Thousand Clans.

Its ruler is the God Race.

The Holy War World is the center of the Bloodfire Domain.

In the darkness surrounding it.

Many affiliated worlds directly or indirectly controlled by the God Race are scattered like a star array.

Above the high heavens of the Holy War World, there is a pitch-black temple.

It is ten thousand miles tall, resembling a gigantic war fortress.

This is the Blood Fire Temple, also known as the Holy War Palace.

"Lord, we've captured a pure-blood Dragon Clan."

The excited voice woke the slumbering Holy War Army Master.

Its mouth curled up and said, "Not bad, where is that pure-blood Dragon Clan now?"

"We caught it in the Flora Realm, it's already under General Dika's watch."

"Ensure General Dika keeps a close eye on it, conduct a century-long Holy War transformation on it, if it can be used for our purposes, great, otherwise kill it..."

"Understood."

"By the way, have we found the whereabouts of the Level 9 Giant Ape discovered some time ago?"

"Not yet... But we've learned from our Amethyst Race allies that the Level 9 Giant Ape has attacked the Amethyst Race multiple times, they have means to lure it out, but they need us to send people to capture it."

"Alright, leave this matter to General Canon and General Iku, both are at Level 9 Middle Stage, once the trap is set, capturing the Level 9 Giant Ape won't be difficult, once captured, conduct a Holy War transformation immediately."

"Understood."

...

After the subordinates finished reporting, the temple returned to silence.

The Holy War Army Master returned to its secret room.

In there was a severely damaged, remnant body.

"Damn Surgard actually destroyed my First Divine General's incarnation... If it weren't for its Sword of World Destruction already evolving into a supreme treasure, given its Level 9 Late Stage strength, how could it be a match for my First Incarnation?"

As the Plane Sovereign, the Holy War Army Master can't leave the plane.

Therefore, it cultivated seven duplications.

All are Level 9 cultivation, serving as its proxy across the Multidimensional Plane.

These seven incarnations, along with 11 generals loyal to it.

Form the current God Race's "Blood Fire Eighteen Generals."

From the First Divine General to the Seventh Divine General, they are its incarnations.

The strongest can rival the weak gods of the astral world, approaching Level 10.

The weakest also possess Level 9 Middle Stage strength.

The remaining 11 are ordinary Majors.

No matter the cultivation level, all Majors must obey the Divine Generals.

General Dika is the latest addition as the 18th Major loyal to it.

This person once practiced in seclusion in the Flora Realm.

After breaking through to Level 9 some time ago, he dared to challenge it's Seventh Divine General.

Ultimately, he was subdued, underwent Holy War transformation, and became one of its subordinates.

There was a need for a ruler in the Flora Realm for the God Race.

So, General Dika was appointed there.

In the past century.

A force hidden underground in the Flora Realm repeatedly hindered the God Race's activities.

According to General Dika's investigation.

The enemy is suspected to excel in duplication puppet techniques.

The two sides engaged in prolonged confrontations.

So far, General Dika hasn't been able to extract the enemy from the shadows.

"We're still short on manpower..."

The Saint General was repairing its duplication, murmuring to itself.

Watching the Wizard World grow increasingly prosperous.

This gives it a growing sense of urgency. .

Nora's rise will inevitably influence the gods of the astral world's faith in the Multidimensional Plane.

Among this, the Bloodfire Dominator is most severely affected.

Because 70% of its Belief Land is concentrated in the Pan-Plane.

Unlike other strong gods, who are broadly distributed outside the Pan-Plane.

To address this issue, the Bloodfire Dominator employs a two-pronged approach.

First, vigorously developing the God Race under the astral world.

The God Race is divided by faith, promoting militarism, best suited for barbaric expansion.

No matter your race, as long as you believe in the Almighty, everyone is brothers and sisters.

The entire Pan-Plane is the promised land bestowed to the God Race by the Bloodfire Dominator.

Second is waging divine wars above the astral world, annexing weak gods.

The Bloodfire Dominator originally only wielded the Fiery Fire Divine Authority.

Later, by annexing the Blood River, it acquired the Blood God Authority.

Recently, it has been scheming for War God Ares' War God Authority.

Ares resides in the Forest of Myriad Phenomena and is an Intermediate Divine Power User.

If taken down, the Bloodfire Dominator could stand out among strong gods.

...

Flora Realm.

Deep in space, a vast temple is navigating.

Inside the temple, there's another world entirely.

Rows of well-trained Divine Race Soldiers are arrayed.

In front of towering pillars, a golden giant dragon is imprisoned.

The giant dragon opened its eyes, burning with rage.

"I am Molten Gold Dragon Aioris, a servant of the Nine Dragons Emperor, release me at once."

Heaven have mercy, it was initially sleeping in a small world.

Upon awakening, it found itself surrounded by several Level 9 burly men.

Then, it was captured and imprisoned here.

A brawny bald-headed man approached from the front.

He is General Dika, of the Black Luster Clan in body.

Purely in physical defense, the Black Luster Clan is even stronger than the Amethyst Race.

But its magic resistance is ordinary, and other attributes are weaker.

Hence it's called the "Little Amethyst Race," though far less famous than the latter.

"The Nine Dragons Emperor is long dead, you're no more than a stray dog, my lord can give you ten years for transformation, as long as you sincerely believe in our master and make the divine statue manifest to prove your sincerity, your life will be spared, or I'll ruthlessly slay you, peel your skin and extract your tendons, and refine a rare treasure."

"I am a dragon, I don't even believe in the King of Ten Thousand Dragons, what Bloodfire Dominator should I believe in?"

"How can the King of Ten Thousand Dragons compare to the Bloodfire Dominator?"

Chapter 2608: Sweeping Away All Rivals!

"Ha, say that to the true name of the King of Ten Thousand Dragons if you dare."

"...Someone, this dragon's mouth is too insolent, give it a slap for me!"

Pained roars echoed within the temple.

...

Ancient Dragon Continent.

On this day, the sky and earth changed color, and the winds and clouds gathered.

Two figures arrived with a loud bang, blocking the sun.

One was covered in fine blue scales, with a horn on its forehead, eyes like blue crystals.

It had a long body, over thirty thousand meters from head to tail, exuding an aura close to Level 9 Middle Stage.

The other had yellow scales, a shorter and stockier form, and was about twenty thousand meters from head to tail,

its dragon head resembled a triceratops, with a ridge-back like a mountain peak.

Its aura was at Level 9 Early Stage.

The arrival of these two Legendary Dragon Races completely set the Ancient Dragon Continent ablaze.

Figures flew from the Dusk Holy Temple and the Tower of Dawn among wizard organizations.

"My gosh, giant dragons?"

"So, so big... Are these Legendary Dragon Races?"

"More than that, they're already adults, they're Level 9 Experts."

"They couldn't be invading our Ancient Dragon Continent, could they?"

"Quick, call the commander!"

Excitement, shock, and more were tense emotions.

The giant dragons were too powerful.

Any one of them could level the Ancient Dragon Continent.

And this time, two had arrived.

These two giant dragons landed quietly in the wilderness, simply waiting.

Seeing they had no hostility, someone mustered courage and asked:

"Dragon sirs, what brings you to our Ancient Dragon Continent?"

The ice-blue giant beast dragon looked over, emitting a clear male voice:

"I am Frost Sky DragonGloster, this is Ancient Mountain DragonGanggrite. We have come at the invitation of the Dusk Palace Master and the Princess of the Ancient Tomb race, you can be assured."

Soon, Louise arrived with the Fire Dragon Knight.

"Hahaha, Uncle Six, Uncle Eight, you've arrived together!"

Happily, she leaped into the embrace of the elegant ice-blue giant dragon, like a little girl thousands of years old.

The ice-blue dragon wrapped her in its wings and gently said:

"Louise, it's so good that you're okay."

The Ancient Mountain Dragon looked at the nearby Fire Dragon Knight.

With a deep, magnetic voice, it asked:

"Louise, is this sir your companion?"

The Fire Dragon Knight saluted, neither humble nor arrogant, saying:

"I am the Fire Dragon Knight, Louise's partner, greetings to both uncles."

Seeing the crowd of onlookers growing, Louise quickly smiled and said:

"Everyone, don't worry, these two dragon sirs have come to seek the protection of the Dusk Palace Master, and from now on will be the Guardians of our Ancient Dragon Continent."

Upon hearing this.

The crowd of onlookers froze, shocked, incredulous.

"Is it true? Two Level 9 giant dragons, traveling billions of miles to seek refuge here at our Ancient Dragon Continent?"

"Are we dreaming?"

"The Palace Master is so formidable, always attracting the Dragon Clan to come seek alliance."

"From now on, our Ancient Dragon Continent will have Level 9 Guardians, and two at that, should demons come, they'll surely have no return!"

The members took pride in their exceptional leader.

Especially the 18 Twilight Cavalry and other elders who had accompanied Levi a thousand years ago.

Their pride and excitement were beyond words.

Not long after.

The Old Witch from the Alien Affairs Management Department also descended upon the scene.

"Welcome to Nora, both of you."

This was something Levi had already informed the congress about.

Just to prevent others from harboring nefarious intentions.

An unclaimed Legendary giant dragon, who wouldn't want that?

Soon after, the news of the giant dragons visiting the Ancient Dragon Continent spread wildly.

Throughout the Eastern Sea, even Nora, it caused a stir.

Everyone deeply felt how impressive the Dusk Palace Master was.

On the Yellow Earth Continent, Dreamland Steeple members intimately collaborating with the Ancient Dragon Continent were even more shaken.

For they knew, it was not just two?

In the Nightmare World, there was a nest of pure-blooded Dragon Clan!

And two Level 9 giant dragons had yet to be revealed!

Quickly, the organization leaders held a grand feast for the two dragon sirs.

The dragon descendant priory, as the congress's emissary, also attended the event.

The epic meeting among the three giant dragons.

From now on.

The Ancient Mountain Dragon would guard the Ancient Dragon Continent, the Frost Sky Dragon would guard White Dragon Mountain.

The visit of the two dragons was named the "Return of the Double Dragons" by official media as a major event.

This matter was frequently promoted, spread, and fermented.

Its influence expanded towards the Pan-Plane.

More and more organizations and wizards joined the White Dragon Commerce.

The White Dragon Business Circle thrived.

...

"By the way, Louise, why didn't Uncle Nine come?" the Frost Sky Dragon asked.

"Not sure, when I last contacted Uncle Nine, he said he would come, but now he hasn't arrived and can't be reached." Louise was also puzzled.

By rights, she had the closest relationship with Uncle Nine.

He should have been the first to arrive.

The Ancient Mountain Dragon said, "Uncle Nine likes to sleep, perhaps he fell asleep again on the way."

"Maybe so, we'll wait a while longer..." Louise was also somewhat worried.

After all, the Pan-Plane had become a chaotic mess.

Even at Level 9, if one was unlucky, they could be captured by demons.

"Speaking of which, what about the famous Dusk Palace Master?"

"He is currently traveling, when he arrives, I'll introduce him to you two uncles first."

...

Flora Realm.

On his journey, Levi had already learned via the Twilight Round Table about the visit of the two giant dragons.

"Hahaha, four Level 9 giant dragons now."

Additionally, there were 4 juvenile dragons, 2 Legendary giant apes, totaling 10 kinds of Legendary Creatures.

Now with Louise confirming the living giant dragons, only the Melt Mountain Dragon remained unreturned.

Chapter 2609: Sweeping Through the Strong

Of the other six giant dragons, some fell unexpectedly, and others were captured by the Abyss.

Wanting to collect them is already hopeless.

...

A month later.

Underground caverns of a certain nameless small world.

Little Wo slept soundly, possibly dreaming of Little Rou.

Inside his world, Levi met the Spider King.

"Master, you've finally arrived."

The Spider King dangled its thread, its tone aggrieved.

"How have things been?"

"Not too well, a level 9 expert from the Flora Realm has come, capturing my duplications everywhere. I've already lost a quarter of them... I worry that if this continues, it may trace my duplications back to find my true form."

"What's the background of this expert?"

"He is the newly recruited general of the Holy War Army Master, one of the eighteen strongest of the God Race."

...

Having heard the Spider King's report, Levi furrowed his brow.

"A level 9 from the Black Luster Clan, likely stronger than the level 9 Fish Demon and those demigods running on fumes."

As comfort, Levi gave the Spider King 10 bottles of Five Immortal Liquid all at once.

"Hehehe, thank you, Master."

The Spider King grinned from ear to ear, no longer troubled by the loss of duplications.

After all, with the master here, all problems would be easily solved.

"By the way, Master, these are the resources I've collected over the years... though part of them got snatched by the God Race, you must reclaim them. I originally found an eighth-level water-element sub-dragon species for you, but it was taken by them too," the Spider King complained relentlessly. ʀaNoBĔS

"I understand, leave the rest to me."

Levi took inventory of the Spider King's spoils.

No need to mention the other regular items, totaling about ten billion in value.

Noteworthy are the following: .

First is a level 9 [Ruel's Stone] the size of a fist.

He's nearing the Maximum limit with his Crimson Emperor Dragon Breathing Technique, not far from level 9.

Just right for recasting the Crimson Dragon Slash

Second is a Morning Star-level oddity [Golden God Blade].

This is the last component of Lord Victor's Golden God Series.

Now, Lord Victor, the Silver King, Golden Emperor, and Golden God series artifacts are all in Perfection.

He's the first among the Three Avatars to complete the three major sequences.

Third is a Morning Star-level oddity [Sea Emperor's Whiskers].

To be refined for Elena upon returning.

All things considered, Elena's Sea Emperor Series is three-fifths complete.

Fourth is an eighth-level Fire Elemental Spirit.

Her name is Nako, shaped like a Fire Bird.

Levi subdued her, planning to assign her to the Tower of Dawn upon returning.

There are still 56 rare creatures, 7 sub-dragon species, and 24 mixed-blood dragon clan members left.

Resting at the Spider King's place for a while.

Levi eventually left.

The God Race holds considerable power within the Pan-Plane.

His enemies may not be limited to just General Dika.

He intends to make more preparations.

The current ninth-level experts he can deploy.

Are just the Flame King Dragon and Tyrant of Horror.

As for the King of the Underworld, he can summon it to deal with demons.

After all, the Underworld has declared war on the Abyss.

Sending it to confront alien races isn't ideal; it would tarnish the Underworld's image.

Therefore, he seeks out Rocks to subdue his brother Green Ghost.

Meanwhile, he can retrieve the Star Nebula Electric Mother, a Legendary Creature.

...

Two years later.

Nora Calendar Year 1164, Blood Battle Year 952.

"Rocks, you said there are ancient ruins here, but I don't see them? Could they have been explored by someone else?" Green Ghost looked around suspiciously.

Rocks felt as if a knife were twisting in his heart, so complex and painful.

Even now, his brother still believes him.

He's determined, no matter what, to save his brother.

"Brother, maybe we shouldn't leave the Pan-Plane."

"What do you mean?"

"No other meaning, I heard it's even more chaotic outside the Pan-Plane. There's hardly a peaceful place left. I'm worried we're going for naught."

"So where do you suggest we go?"

"We should go to Nora."

"What's wrong with you? Have you been controlled? We just defected from the Council of Ten Thousand Clans, and you want us to join Nora next? Are you trying to get us killed?"

"Brother, calm down. If I told you I have a way to ensure our Qilin Clan wouldn't be held accountable and could start anew, would you believe me?"

"I don't believe it. I think you've been controlled by someone. I want to see who dares to control my brother!"

Green Ghost grabbed Rocks.

Rocks didn't resist, and he said seriously, "Brother, I've lied to you many times since childhood, but this time, I'm truly not lying... you must believe me."

Green Ghost placed Rocks on the ground, took a deep breath, and said:

"My foolish brother, I know you've lied to me many times, including the incident with the Turtle King Fruit... I can overlook these since everyone has selfish motives, and you mean no harm. But I don't understand why you're still deceiving me now? What's your intention? Give me an explanation, or don't blame me for not treating you like family."

Rocks said:

"Brother, do you know the White Scale Tribe has joined Nora, and the Purple Qilin Clan is also in Nora... the White Dragon Mountain Master joined Nora, and just the level 9 alien experts we know of have more than ten joined Nora. After the Underworld fully engaged in war with the Abyss, the power of Wizard World has been constantly expanding, Nora is preparing for a true council of races in the Pan-Plane, continuously extending olive branches to level 9 experts, including those who once had ties with the Council of Ten Thousand Clans. Even the giant dragon followers of the Nine Dragons Emperor have gone.

Haven't you always wanted to take a share from the convergence of the planes' benefits? Now there's a chance right in front of us. The big figure of Nora, the Dusk Palace Master, has already agreed that if we truly join, he can settle us in Nora."

Chapter 2610: Sweeping Through the Strong

Green Ghost said coldly:

"Bullshit big shot, just a mere level 8, relying on the might of the wizard tower and the strategic advantage of Nora to slay a level 9 Fish Demon... Throughout history, such people have existed, but are they still alive now? They haven't changed the history of the Pan-Plane either.

The lords of the Multidimensional Plane have always been those four families, a structure that the Council of Ten Thousand Clans cannot change, nor could the Wizard Council that once produced Sauron! The Underworld's collaboration with Nora is just exploiting the wizards; it doesn't mean Nora has a chance to become the fifth power!

Rocks, you are too naive and too easily swayed. My tolerance for you has reached its limit. Alas, for the sake of the race, you should stay here..."

As he spoke, Green Ghost reached out towards Rocks.

The next moment, Rocks' figure suddenly vanished, like a dream or illusion.

Green Ghost's expression slightly changed, looking into the distance.

Tens of thousands of miles away, a figure in Black Armor parted the void ripple and descended gracefully.

He seemed to have been waiting for a long time, his eyes calm.

"Dusk Hall Master... was all this planned by you? What did you do to my brother?"

Green Ghost looked alert, still worried about Rocks at this moment.

"He is well. As he said, I am here to invite you."

Green Ghost laughed skyward.

It spread its six arms, forming six green hurricanes that pierced the heavens and earth.

"Today, I will test your strength, you Supernova of the Wizard World!"

Its six arms struck out, and the hurricanes surged forward, grinding everything along the way into pieces.

Levi drew the Crimson Dragon Slash from his back with one hand.

Swoosh! Streaks of Sword Qi shot out, slicing the hurricanes apart, dispersing them into nothingness.

"Good, not bad at all!"

After a probing attack, Green Ghost's form turned into a whirlwind and surrounded Levi.

Then, shadows of green fists came crashing down like a tidal wave.

The golden light barrier around Levi reverberated with a buzz.

"Green Ghost's strength should lie between the Second Realm and Triple Demon Realm."

After the clash, Levi concluded.

But it was far more troublesome than the Blood Angel.

The latter was trapped in the Sky Pool, with its divine power exhausted, using a bit less each time.

Whereas Green Ghost had no such concerns.

With its formidable Level 9 body, its resilience must be strong.

If it were a prolonged battle, he was confident he could defeat the opponent.

But capturing it alive would be difficult.

Fortunately, he wasn't alone.

After entangling Green Ghost, three more figures quietly descended.

Tyrant of Horror, Flame King Dragon, giant dragon corpse demon.

Two at level 9, one Quasi-Ninth Level momentum entered the battlefield.

Green Ghost's expression slightly changed.

"Hmph! Outnumbered, what shameless tactics, is this the strategy of a Supernova?"

"Come on, I'm a Supernova, but that doesn't mean I'm a fool."

"You..."

Green Ghost was infuriated.

It looked around quickly and rushed towards the weakest target, the giant dragon corpse demon.

"Oh, picking on the weakest, are you? I'll beat you to death!" Mary cursed.

Boom! Dragon claw and Green Fist clashed.

"Green Wind Burst!"

The glow on the fist shimmered, and a green storm quickly took shape, sweeping up the Wind Illusion Dragon.

Buzz! A wizard tower, as dreamlike as a star, descended.

Eight thousand stars lit up, a vast power bearing down!

Within the Sealing Stars, there were 18 Level 8 Shadows alone, with suppressive power far greater than before.

Green Ghost's veins bulged, its body hunched over, bones cracking, flesh twisting.

Bang! Green blood mist exploded at the joints!

"Bring the wind!"

Billions of hurricane powers surged into its body.

It roared, its body rapidly expanding.

Finally, it transformed into a hundred-mile-high azure storm giant spirit!

"I won't lose!"

Boom! Like a mad demon, Green Ghost bore the heavy pressure of the wizard tower, battling the three dragons with its six massive green arms!

"It's over."

Levi closed his eyes; the Nine-colored Emperor emerged from behind him.

An enormous shield encircled it, merging with the Emperor's Sword, slashing towards Green Ghost.

Green Ghost, being constrained, was powerless to respond.

Rip! A Sky-connecting Sword Energy extended for a thousand miles, descending!

The hundred-mile giant's shadow split in two, exploding with a roar.

The wizard tower descended unhindered, overturning.

Within the Inner Heaven and Earth.

Green Ghost's figure appeared, a ferocious wound on its back, the vertebral pillar visible.

"Dare to seal me, watch me shatter your wizard tower." .

Threads of green wind power stitched up the wound on its back for the time being.

Green Ghost shot upwards, six fists towards the sky!

Eight thousand Sealing Stars formed a giant octagrams formation.

Rumbling! A star-glowing dragon-headed giant spirit's shadow emerged, towering a hundred miles.

"Eternal Star Abyss... Descending Star Spirit!"

The wizard tower was not just capable of sealing or damage reduction.

The different combinations of Sealing Stars allowed for many transformations.

The Descending Star Spirit was a power projection formed by the power of eight thousand summoned creatures!

Already infinitely close to level 9 standards!

It struck its feet on the ground, gazing down.

Behind it, one, two... as many as eight thousand starry fists appeared.

Six fists against eight thousand, it was inevitable!

Boom!

After an earth-shattering strike, Green Ghost was driven into the ground.

The shockwave caused the Strange Wood Pillars of Inner Heaven and Earth to tremble, as if the heavens would collapse.

Green Ghost propped up its body, looking up to the heavens.

Starlight transformed into a giant hundred-mile-diameter face of Dusk Hall Master.

His expression indifferent, gazing down like a god.

Then, a giant starry claw grasped Green Ghost.

Having battled the three dragons and suffered severe wounds, it had no strength to fight back.

"Just kill me... Where is my brother?"

Levi appeared, the Power of Extreme Darkness Dragon surging out.

The three dragons flew over, holding down the struggling Green Ghost.

After much effort, Levi finally managed to enslave it.
