

Wizard 261

Chapter 261: Flower Knight, Legendary Levi! (6)

Well, she was indeed pretty.

If it was in his previous life, she would be the type that was out of his league. "Yeah, class just ended. Junior Brother, you're hiding your strength." Winnie said with a smile.

"What do you mean?" Levi asked in confusion.

"You helped Ms. Marlene to refine the second ring potion successfully, but you didn't say anything about it," Winnie pouted and said.

"Well, it's not my credit. Four high-level pharmacy apprentices were involved.

Moreover, I only helped around, and there wasn't much effect," Levi explained.

"As for you being a legendary knight, I haven't heard you mention it before. Now you are already an influential figure in the Gray Tower. You're an apprentice wizard who killed an official wizard from the Undead Ship, yet you're still pretending." Winnie smiled.

"What? How did you know?" Levi was dumbfounded. Other than him, only Ms. Marlene knew about this. Perhaps Ms. Marlene told the Tower Master, but the other apprentices should not know.

"The White Tower's reward for you has been announced, and the notice has been posted on the White Tower. Junior Brother, don't you know?" Winnie was also dumbfounded.

After Levi returned, he had been busy researching spells.

"I'll go take a look."

Levi said goodbye to Winnie and quickly rushed to the White Tower.

When the white snake saw Levi arrive, it woke up from its sleep.

Levi came to the bulletin board.

[Gray Tower's low-level apprentice wizard, who's also a high-level pharmacy apprentice as well as a legendary knight, Levi killed the official wizard enemy from the Undead Ship and protected Witch Marlene. He will be rewarded with 500 points. The Undead Ship belongs to the dark wizard organization, which is an evil force in the Realm of Azure Cloud. It has committed all kinds of crimes in our sea area. Everyone has a responsibility to fight against the dark wizard organization. Author, White Robe Wizard Herman]

"See, Junior Brother, you're really low-key. To think that I even wanted to teach you. I didn't expect you to be a hidden big shot. A legendary knight against a First-Circle Wizard," Winnie said in disbelief.

Being a legendary knight was an honor that many people dreamed of. If Winnie became a legendary knight, she would find 10,000 bards to go to various regions every day to publicize her glorious deeds.

However, when she first met this junior, he looked like a newbie who had just arrived. He was also stupid and naive. After he came, he stayed at home all day and did not participate in the social activities between apprentices. As a result, most of the apprentice wizards in the Gray Tower still did not know what Levi's name was.

In short, to be able to live without a sense of existence was quite amazing.

Levi didn't know whether to laugh or cry.

He looked at the words on it and then at his bracelet.

"548 points... This happiness came too suddenly."

Levi was a little confused.

He had never thought of telling the Tower Master about killing the enemy wizard.

He felt that this was not a big deal.

After all, the greatest credit was actually Ms. Marlene, who had restrained two official wizards.

Moreover, Levi was used to keeping a low profile, used to hiding himself, used to doing things silently without leaving his name. In order to avoid being noticed by the Church in the human world, he had become a person who lived in seclusion. Therefore, it was impossible for him to do such a thing that exposed his strength.

Even though Levi didn't care, Ms. Marlene took it to heart.

Out of goodwill, she immediately told the Tower Master about the good news after she returned. She even gave Levi all the credit for killing the official wizard, and the Tower Master on the seventh floor was elated for the rest of the day.

Since he was delighted, he generously transferred 500 points to Levi.

That was 500 points. Many high-level apprentice wizards in the tower could not save so much despite staying in the tower for more than ten years.

Levi had only been in the tower for half a year.

He directly jumped to the top of the Gray Tower's rich list.

He had even become an influential figure in the Gray Tower.

This made Levi somewhat unable to adapt. "Ms. Marlene."

Levi suddenly felt a sense of warmth in his heart.

He had always thought of the world of wizards as a bad place. The strong preyed on the weak, and there was also the dark forest. That was why he had been keeping a low profile ever since he came.

But now, he realized that there were still kind wizards out there. Wizards were essentially human, and human nature was difficult to change.

It was the same for Anderson, who was part of the Blood Clan.

"Junior Brother, in the future, I'll hang out with you in the Gray Tower. You have to protect me. After all, I was your guide, hehe." Winnie laughed shamelessly.

Levi was dumbfounded. He bid farewell to Winnie and went to the third floor of the White Tower. He wanted to look for Ms. Marlene and thank her personally, but he remembered that she might still be recovering from her injuries, so he went back first.

Along the way, the other cold and aloof apprentice wizard seniors took the initiative to greet Levi, who had been in the tower for half a year.

"Junior Brother, what is your legendary name in the human world?"

"Junior Brother, when will you come to my home for a drink? I've always liked knights since I was young. Unfortunately, my family doesn't allow me to be a knight. Now that a legendary knight is by my side, can I touch your chest muscles that are more developed than mine?"

"Junior Brother, thank you for showing mercy during the last test."

"Junior Brother..."

In the past few days, Levi had met many unfamiliar seniors who had started to build up their relationships with him.

After learning of Levi's glorious feat of killing an official wizard, they were all shocked beyond words.

In front of the window on the seventh floor of the White Tower, Tower Master Herman looked at Levi with a smile on his face.

He liked this kind of apprentice who kills an enemy directly without saying much. When he learned from Witch Marlene that Levi had smashed an official wizard who had learned body-strengthening spells with a hammer, he fell in love with this simple and violent young man.

"Not bad. Even if Levi's wizard talent is average, with his Pharmacy talent and the strength of a legendary knight, his future status will not be inferior to an official wizard." Tower Master Herman sighed.

For the next three months, Ms. Marlene had been recuperating.

Senior Sister Winnie was stimulated by Levi and meditated even harder.

She was quite talented and learned Meditation Art from a young age, so she has a solid foundation. There was still hope for her to become an official wizard in the future.

The Tower Master was obsessed with the study of alchemy and was about to switch from the Ocean School of Thought to the School of Alchemy. In Levi's opinion, the Tower Master viewed having flesh and blood as being inferior and was going to walk the path of developing machinery.

Three months had also caused the popularity of Levi, the fake legendary Imight, to slowly die down.

In these three months, he didn't dare to leave the ninth floor of the Gray Tower.

It was even more impossible for him to leave the island.

Now, he was an influential figure.

He was afraid of being remembered when he was outside.

Especially since he had offended the Undead Ship.

Perhaps those damned outlaws were preparing to ambush him on the sea lane.

Therefore, Levi understood.

Before he became an official wizard, he would not step out of the Gray Tower!

In any case, most matters could be settled in the Gray Tower.

As for the secret medicine and breathing technique required for his knight's cultivation, Levi planned to find a representative to help him collect them.

He quietly hid at home and studied the few spell models he had just obtained, cultivating breathing techniques, Meditation Arts, and so on.

It was impossible for him to go out..
