

Wizard 267

Chapter 267: Extreme Ostrich Mountain, Maximum Limit Dragon's Might, and Dragon Affinity! (6)

He was the spy that the Undead Ship had placed in the Gray Tower.

However, in order to prevent being exposed, the Undead Ship would not use him most of the time.

"Forget it. Let's tell Carter about this situation first. I can't do anything about it."

On the sea, Carter looked at Noz's report.

"Damn it, this little brat, he's not coming out, is he? I'm so angry!"

He flew into a rage.

"Teacher, are we still waiting?"

"We'll wait. I don't believe that he'll never leave the Gray Tower. If we go back now, we'll only be scolded by the captain."

Green Ghost Carter had finally gotten over it.

He had to capture this damned brat and torture him with those vicious spells from the School of Death.

In the Gray Tower, Levi's daily life was dull and fulfilling.

Meditation, spellcasting, watering flowers, pharmacology, breathing technique, sword skill, Black Devil Blade.

Soon, it was time for the annual assessment.

In theory class, Levi did excellently in all of them.

He had already practiced Water Arrow to level 2.

Tidal Grasp had also broken through to level 2.

Level 2 was basically the standard of a mid-level apprentice wizard.

Levi felt that with his current level, he should at least be able to handle this year's combat assessment.

However, one month before the actual combat assessment, only then did he

Imow about the Tower Master's plan to properly train everyone's actual combat ability.

To be better prepared to deal with the revenge of a dark wizard organization like the Undead Ship, starting this year, the actual combat assessment would be conducted at sea.

The assessment method was also very simple.

The team was led by the spell teacher, official wizard Marko.

The apprentices would go to the nearby sea to hunt for sea beasts.

For three days, anyone who killed a sea beast with the strength of a mid-level apprentice would pass the assessment.

If they could hunt sea beasts with the strength of a high-level apprentice wizard, then they would be considered excellent.

As for the transcendent sea beasts that were comparable to official wizards, that was out of the question.

In the entire Gray Tower, the only person who could kill a transcendent sea beast was probably only Levi.

Perhaps to take care of Levi, the rules of this year's assessment had changed.

They could use any method to kill sea beasts.

In other words, even if Levi used his knight's strength to kill a sea beast, it would still be counted in the assessment.

Perhaps it was because of the attack incident by the dark wizard.

It made the Tower Master realize that the protection of the apprentice wizards in the Gray Tower was too good.

Everyone had been at ease for too long and had already slacked off.

Therefore, those who passed the assessment would be rewarded with 20 points.

Those who are excellent would be rewarded with 50 points.

Those who hunt transcendent sea beasts would be rewarded with 200 points!

This was a decent reward for most apprentice wizards.

Therefore, everyone was eager to give it a try.

Hearing this news, Levi felt helpless.

Although the rewards of this activity were not bad, he really didn't want to go out now.

Before becoming an official wizard, Levi did not want to leave the Gray Tower.

However, since this was the Tower Master's rule, Levi did not dare to disobey.

The Tower Master must have considered the possibility of revenge from the Undead Ship.

He should have been prepared.

"However, with my current strength, level 4 Flame Flow, maximum protection, Dragon's Might, and so many trump cards, I still have the power to fight against an official wizard."

Levi was a cautious person and liked to make conservative estimates.

While waiting for the combat assessment, Levi was called to the seventh floor of the White Tower.

The Tower Master smiled at Levi and handed him a small bag.

"Take this. This is 300 Aether Stones. This is the reward from the Star Tower. Marlene applied for it for you half a year ago. There are rewards for killing evil dark wizards. Although the amount is not much, it is also the recognition of the Star Tower and the Pan-Plane Wizard Council for your actions.

"The reward was given out a little later, and it only arrived a few days ago. Take it. At this stage, you are also short of money," the Tower Master said.

Levi was grateful. He quickly took the small bag and said, "Thank you, Tower Master. Thank you, Ms. Marlene."

Ms. Marlene lived up to her title of Granny Marlene. She was really too kind.

Levi sighed.

He didn't expect that Ms. Marlene had done so many things behind his back.

This was indeed heartwarming. "Teacher, you must succeed in advancing."

Levi prayed in his heart.

He has truly treated the Gray Tower as his home in the world of wizards.

If he had the strength, he would definitely protect this place.

"I called you over because there are some other things," the Tower Master said.

"Please say it." Levi nodded.

"In this combat assessment, I feel that the Undead Ship will make a move against our apprentices. Their captain, Demon Harland, is an old enemy of mine. He has been scheming against us, so I will protect all of you in secret. If Harland makes a move, I will take action."

"But I didn't tell anyone about this. I suspect that there's a mole in our tower, but I believe you because Marlene is very accurate in judging people."

"If Demon Harland doesn't come, then unless the situation is really critical, I won't make a move. As a Second-Circle Wizard, if I make a move, it would be bullying the weak. With a veteran First-Circle Wizard like Marko here, you don't have to worry about your safety."

"Although Marko is strong, his strength alone is limited. So if he can't handle it, I'll have to trouble you to protect our apprentices. My original intention was to let you experience actual combat, not to let you die in vain. We're nurturing wizards, not raising poisonous worms."

"Although I'm a wizard and don't know much about Imights, I know that those who can become legends on the path of knights are not ordinary people."

"Although the Gray Tower is a small organization and isn't worth mentioning in front of a large faction, I sincerely hope that every apprentice who comes here can treat this place as their home," the Tower Master said sincerely.

Levi nodded. "Don't worry, Tower Master. I'll do my best to protect everyone."

However, if it's beyond my ability, I hope you can help."

After leaving the White Tower, Levi was completely relieved.

With the Tower Master overseeing the assessment this time, it was basically impossible for problems to occur.

Levi returned to the ninth floor of the Gray Tower.

"Another huge sum of 300 Aether Stones."

"I didn't think that killing a dark wizard would have such benefits."

After putting away the Aether Stones, Levi began to prepare for the combat assessment.

Red potion to recover stamina and spiritual force, the blue potion to recover spell power, the sacred medicines to heal injuries, the poison for dipping weapons, the enhanced Sleeping Potion to anesthetize behemoths, and special chains that were purchased at a high price...

Just like how he had prepared for the slaughter in the human world, Levi proceeded in an orderly manner.

After everything was ready.

Three days later, Mr. Marko stood in the square, looking down at the thirty students.

He was quiet and didn't like to talk, so he didn't give any inspiring speeches.

"Let's go.."
