

Wizard 2701

Chapter 2701: East Sea Shepherd Sword! Sauron's Current Situation!

The number of leaves can continue to increase. The 101st leaf has already sprouted.

Secondly, these little dolls themselves can continue to grow stronger.

When Lord Victor advances to legendary.

Perhaps he won't need external aids.

Using the secret sword to conduct a long-range assault across Nora's entire territory.

From "East Sea Shepherd Swordsman" to "Nora Shepherd Swordsman".

...

Months later.

The Dark Ancient Tower opens again.

Levi's figure appears.

The first few layers don't have much left to do.

Just reaping the harvest.

Half a year later.

Led by Jin.

Levi found another temple.

It was located in the pitch-black Deep Sea.

Pushing open the dusty doors.

A strong demonic aura rushes forward.

Roar!

A raging lightning ball rolls in, exploding with a thunderous roar.

Levi is surrounded by the Double Vajra Holy Domain, forming a pure land.

The mighty lightning transforms into lightning liquid flowing around him.

Everything is annihilated, only he remains unmoved like a mountain.

The thunder dissipates, and a slightly surprised gaze emerges.

Levi meets this gaze.

It is a giant dragon.

It is covered with purple scales, robust in size, with a silver horn on its forehead.

"Being able to withstand the power of my lightning ball without dying is impressive. How did you appear here? Are you the heir of Sauron?"

Levi sensed a sacred aura from this giant dragon.

"Are you a dragon or an angel?" he asked.

"I am the angel under the Lord of Storm."

'What a pity.'

Levi sighed inwardly, another dragon ruined.

After becoming an angel, it no longer belongs to the realm of normal creatures.

This Thunder King Dragon might look no different from ordinary giant dragons on the surface.

In reality, it can exist until now because divine power shapes its body.

Once it dies, the divine power dissipates.

Leaving just some divine remains, nothing of real value.

Of course, without becoming divine, it wouldn't have lived this long.

With this thought.

The Crimson Dragon Slash emerges in Levi's palm.

"What are you going to do?"

"Kill you."

"Arrogant!"

The Thunder King Dragon opened its gaping maw, and another terrifying lightning liquid ball shot out.

Swoosh! Levi's figure appears like a phantom, flashing forward!

A vast and majestic red-gold sword energy slashes horizontally!

The lightning liquid ball is annihilated, and the red-gold radiance illuminates the temple.

The Thunder King Dragon's eyes are filled with terror, and immediately it is engulfed by the Sword Qi.

Crack.

Its scale armor is easily torn apart.

Divine blood splatters, bones and internal organs fly.

Boom! The Thunder King Dragon's body falls heavily to the ground.

Levi grasps its neck.

Crack.

He suddenly exerts force.

The dragon's head is separated from its body.

"Blasphemer, you won't die a good death. You can't imagine how powerful the Lord of Storm is. He is both a Thunder God and a Wind God, and is..."

Smash.

The head bursts like a watermelon.

Levi extracts its true soul, calling Leon out.

"Here, a new snack."

"Master is so good."

Leon packs it up, returning to fairyland to slowly digest it.

Levi tidies up the shattered divine remains.

Overall, they still have some use.

Especially these dragon scales.

It's just a pity for this bloodline crystal.

In mid-air, the thunder light gradually dissipates.

Leaving only a cloud-like object floating idly.

It shimmers with purple light.

[Equipment Name: Thunder Cloud (Purple Epic)]

[Equipment Level: Nine-level]

[Special Effect: Heavenly Punishment]

...

[Heavenly Punishment:

1. The Thunder Cloud floats high above the sky, absorbing the elemental power of the thunder wandering in the heavens and the earth for charging. If encountering an enemy, it can conduct level-nine thunder punishments on any enemy within a radius of fifty thousand li. 雷云

2. Thunder Cloud can bind with the rare treasure "Excalibur," and if anyone breaks an oath made under Excalibur, they will suffer an attack from "Heavenly Punishment," and those under level 10 will die upon encountering it.]

Seeing this special effect.

Levi's heart filled with joy.

Unexpectedly, [Excalibur] has a matching rare treasure.

Like [Bright Sun].

This is another Civilization Treasure for protecting the organization.

Its effects are undeniably strong.

Breaking an oath made under Excalibur not only faces the sword's backlash.

But also suffers Heavenly Punishment.

With such severe punishment, organization members can be more loyal.

Because above them always floats this thundercloud.

Levi puts it away and continues inside.

He originally thought the Ninth Layer dealt with light, time, space, and similar sects.

But now it seems, this is not the case.

Passing through the temple hall, Levi enters a strange Water Curtain Cave.

Looking out, it's an endless Thunder Ocean.

He transforms into Thunder Element Particles, wandering within.

Suddenly, he discovers a purple heart flickering with thunder.

He grabs it, murmuring:

"Bright Moon Artifact, Thunder Heart."

This is a Sequence Artifact from the thunder sequence he has refined.

He puts it away, continuing to roam the ocean.

Before long, he discovers several Thunder God Series Artifacts.

Among them are those of Bright Moon, and others of Morning Star.

By the time Levi is about to finish exploring.

He has already collected half of the Thunder God Series Artifacts.

"It's a pity, without the Thunder God's Head. Otherwise, I could cultivate another super talent of the thunder element." Levi murmurs to himself.

At the center of the Thunder Sea, Levi discovers a purple crystal no larger than a fist.

It emits a terrifying aura of destruction, with the elemental power of thunder constantly surging out.

At its core.

There's a miniature purple Thunder Dragon wearing a crown's phantom, looking majestic.

"This... is a bloodline crystal?"

Levi's heart trembles. .

According to his Dragon School of Thought knowledge.

Chapter 2702: East Sea Shepherd Sword! Sauron's Current Status!

Its master should be a Mythical Giant Dragon.

Thunder Emperor Dragon!

This type of dragon has long vanished into the river of time.

For tens of thousands of years, no one has seen its trace.

This is the most powerful lightning giant dragon.

Moreover, what it excels in is the endurance dimension.

"It's truly like having a pillow delivered when one feels sleepy."

Levi tried to use Wizard's Hand to grasp it.

But was immediately thrown back by the violent force of lightning.

This Thunder Emperor Dragon has been dead for hundreds of thousands of years.

Yet its bloodline crystal still possesses such might.

Levi took out the wizard tower to suppress the bloodline crystal.

He sat cross-legged, whispering to himself.

A month later.

Accompanied by a series of sealing restriction forces confining it.

The bloodline crystal was successfully collected by Levi.

As the Thunder Sea slowly dissipated.

Levi found 3 overlooked lightning-related oddities.

He is currently at a huge square.

He became cautious.

Wondering if Sauron left some sort of Easter egg.

Then he found a seemingly ordinary parchment under a stone brick.

"There really is... hidden quite deep."

Levi murmured, then opened it to check.

[Lord of Storm, Tu Olivarres, resides at the Storm Sea of the Thousand-Autumn Countries, with the Divine Kingdom behind the Pure White Gate. This old fellow is irritable and exceptionally powerful, causing great difficulty for our work in subduing Nora. ㊦aÑØBĚs

After I left the Arrogant Sun Plateau, I visited the Storm Sea and encountered Thunder Emperor Dragon Alkes blocking my path. It served as the mount for the Lord of Storm for thirty thousand years, yet was never divinely enthroned...

I can understand it wanted to perform well before its master to earn a subordinate god position. Unfortunately, it chose the wrong opponent.

I killed it, took its dragon scales and dragon skin, dragon bone, and dragon claw to refine the supreme treasure "Thunder Dragon Drum," used to guard the Lightning Sect.

After killing the mount, the Lord of Storm wasn't angry but instead invited me with a smile to have tea behind the Pure White Gate, showing great patience. We chatted happily for three days and nights before I left the Pure White Gate.

A strong fist really works. The Lord of Storm agreed to sign a ceasefire treaty. Another powerful deity was settled by me. But I know, He doesn't submit... During conversations, He always mentions that powerful existence deep in the astral world.

The peace is temporary, without sufficiently strong power, one day the Gods will find an excuse to obliterate the wizard civilization. Just like in the past billions of years, they have erased countless civilizations, routine.

I can feel I don't have much time left, and the newborn wizard civilization needs a long time to grow. Temporarily earning the tolerance of the Gods is already the best outcome, otherwise the end would be worse than the Giant Empire.

Before I disappeared, perhaps I should visit some of those failed ones in the river of time... Origin Divine Tree, Blood Dark Dragon King, Ultimate Creation, Ancestor of Frost Giant.

I believe, reaching their realm, they wouldn't really fall, they should exist in other forms.

All these years, I have deeply realized that relying on the power of one person alone makes success difficult to achieve. Perhaps these failures scattered across the endless sea should unite. Of course, the timing for unity, not now... but in the future.]

Levi quietly read the Easter egg information.

Still Sauron recording in diary form.

He felt as if Sauron was narrating beside his ear.

Combining previous information.

Levi roughly understood Sauron's rise and feats after becoming strong.

This is information not known outside.

Because many things involve the ultimate secrets of the Multidimensional Plane.

If outside the ancient tower.

These seemingly ordinary information.

Could be noticed by the omniscient and omnipotent supreme existences.

So, Sauron could only remain in the ancient tower.

Now, Levi firmly believes.

Sauron is not dead!

He merely "disappeared".

But he surely can still influence the Wizard World.

When wizards ascend to legendary status.

Those envelopes from Sauron are the proof.

Perhaps, it wasn't that Sauron anticipated the future and wrote letters in advance.

It's that he has always existed, constantly watching over the Wizard World.

Levi guessed one possibility.

Dark Ancient Tower, Dark Wave Revival, plane convergence...

All the major Nora-related events he experienced.

Might be pushed by Sauron's power in the shadows.

Perhaps he feigned death to deceive opponents.

In reality, still hiding, manipulating everything from the dark.

Only this can numb those Giant Worlds.

A person who has reached Level 11.

How could he possibly die?

Another evidence.

Ancestor of Frost Giant.

This existence did not die.

It has intricate connections with the Frost Witch.

Gullwig advancing to legendary status at record speed.

Could not happen without its help.

Of course, there should be a price.

It's just that the lady bears it silently.

Origin Divine Tree hasn't died.

Its shadow exists in the creation myths of the World Tree across the Multidimensional Plane.

Moreover, Levi remembers.

Mana started as an ordinary ancient banyan tree.

She acquired the potential of a divine tree because of a [World-Changing Leaf].

This is a leaf fallen from the Origin Divine Tree.

Blood Dark Dragon King might also have not died.

When Ash Dragon talked about the double dragon empire of ancient times.

After the death of Blood Dark Dragon King, a large group of negative energy dragons were born.

Bloodlines, darkness, shadows, poison, death...

Isn't this a continuation in a new form?

Suddenly, Levi seemed to comprehend.

Sauron said he wants to find those former "failures".

To unite them in the future.

He might have really done it.

Because unknowingly, Levi has more or less greeted these former "failures". He just hadn't realized it.

There's one more, Levi hasn't figured out.

That is Ultimate Creation.

According to Ash Dragon.

It has another title:

Ancestor of Ten Thousand Spirits!

This existence appeared as fleeting as a bloom, then dissipated.

Its essence is a mystery.

Regarding its information, Levi knows limited.

Perhaps only the Time Dragon which transcends all might know more.

"What form will this one take when appearing?"

Levi muttered, pondering as he left the temple.

He wanted to see if he could find another temple.

He now harbors extremely strong interest in Sauron's Easter eggs.

This interest even surpasses Legendary Artifact, or even supreme treasure.

Puzzle all these together.

Perhaps he can unveil secrets concealed in the river of time.

Resulting in a few months of wandering.

Besides finding some resources and oddities.

There are no special discoveries.

Levi could only regretfully leave the ancient tower, waiting for the next century.

Returning to the Land of Darkness, he continued his journey.

On the return trip, he didn't wander aimlessly, solely heading towards Nora.

Three years later, he crossed that Plane Graveyard again.

Meanwhile, the thunder emperor dragon crystal was also processed by him.

Refining it into the Evolution Potion for the Sky King Dragon.

He found a safe place, set up shelter, and began seclusion immediately.

Three years later.

At the end of Nora Calendar year 1423.

Levi went through another tribulation.

What appeared above his head was a pure white world.

At the center of the world, a throne entwined with lightning and hurricane awaited him.

Levi passed through layers of tribulations and arrived here.

He leaned against the throne, then lay sideways, falling into a deep sleep.

As usual.

First, take a nap.

Upon waking, hold a round table meeting.

With Elena and the Eighteen Riders, welcome the new year.

No matter the current situation.

The time to bid farewell to the old and welcome the new should always be joyful.

...

Non-charging ps:

Late stage, writer's block to death, wrote seven thousand after brooding for a day. Old Field has never penned such a long plot, feeling like walking on thin ice, previous foreshadows need to be collected, pitfalls need to be covered, couldn't write ten thousand today, excuse me, blame me for being too weak!

Happy New Year's Eve!

The missing three thousand words will be supplemented by the Spring Festival Gala.

Let's make dumplings!

Chapter 2703: White Emperor Dragon! The Second Strongest of the Pan-Plane Appears! (Happy New Year!)

Indomitable Heaven.

On the pure white throne.

Along with another metamorphosis of life's tier.

Levi's fourth Super Divine Level bloodline was born.

It represents ultimate endurance and persistence.

Containing the domains of thunder and hurricane.

Ultimately fused into the power of the [Indomitable Sacred Domain].

The new breathing technique, Levi named it [White Emperor Dragon].

He transformed in a flash, turning into a long, pure white giant dragon. Its head resembled both dragon and bird, with smooth, soft scales having a unique feather-like texture, surrounded by the power of flame clouds formed by wind and thunder, holy and solemn.

This is a completely different aura from the Golden Emperor, Crimson Emperor, and Black Emperor.

Levi opened the proficiency panel.

White Emperor Dragon Breathing Technique: Twenty-first Rank (1/50 million), Special Effect: White Emperor Dragon Body Supreme (Level 9 Early Stage), Exclusive Weapon: Wind Thunder Wings (Level 9),

Bloodline Divine Patterns: 44 patterns/81 patterns. Heavenly Sovereign Authority: Indomitable Sacred Domain.

...

Like other breathing techniques.

Spell-like abilities and many other abilities are all fused into the power of the Sacred Domain, with some evolution.

[Silver Mountain Skyfall] and [Wind Illusion Realm] advanced to [Wind and Thunder Emperor Palace].

With a thought, a palace composed of storms and thunder can be summoned to descend, suppressing enemies.

Even if one is level 9, once suppressed, it's difficult to flip over.

And [Summoning Maia] was upgraded to [White Emperor's Coming].

It can summon a phantom of a White Emperor Dragon matching Levi's realm to fight.

Its true combat power should be above mid-level 9.

Levi's affinity with storm and thunder elements also improved considerably.

Traveling the Void likewise.

Already reached a hundred times the speed of regular travel.

It can greatly shorten Levi's travel time.

After leaving Indomitable Heaven, he continued on his journey.

Meanwhile, dispersing and rebuilding the White Emperor Dragon breathing technique, condensing divine patterns.

...

Time flew by.

Seventeen years later.

Nora Calendar 1440. .

Blood Battle 1328.

Blue Agate Market.

Levi's figure appeared, intending to rest here for a while.

After long years on the road, bustling around.

He found a place to stay, refining and absorbing some oddities obtained earlier.

Before long, Levi smiled.

"Not bad, another new companion spirit."

He arrived at the Ancient Banyan Fairyland.

Placed his hand on the ground.

A golden spirit resembling an ant descended.

Its antennae measuring everything in front of it.

Full of curiosity about everything.

"Go forth, Ant Power God!"

The new companion spirit came from a Morning Star Artifact of the Earth Faction.

It resembled an ant.

From Levi's experience.

This type of oddity is likely suitable for farming.

Ants and bees are the epitome of diligent workers.

As expected, a small top-grade companion spirit was born.

A while later, according to samples tested by the research team within the fairyland.

Ant Power God can convert earth elemental power, or earth-element herbs, materials, and such into a sugar pill that strengthens the body, promotes strength development, and enhances endurance.

The team named it [Power Pill].

Power Pill has a good effect on mortals, or low-level and middle-level wizards.

Especially significant for body-refining wizards.

Although wizards are spiritual practitioners.

Improving physical attributes never hurts.

Levi took one himself.

No effect on him, though it tasted good.

Given his current attribute base and realm.

Nothing below level 9 of Heavenly Materials and Earthly Treasures has any use for him.

This is the helplessness of being powerful.

However, he estimates that low-level knights might also benefit somewhat.

But certainly not as noticeable as unenhanced wizards.

With the new product set, Levi felt a bit melancholic.

Unknowingly, the food factory in the Ancient Banyan Fairyland has also developed.

Under the banyan tree, the first-generation employee Long is also no longer the same.

Once just a little earthworm.

Now a "flood dragon" with yellow scales and a horn atop its head.

Twenty miles long, a slight move would cause an "earth dragon flipping."

This is the fairyland's "Earth God."

ADie controls the rain and turns clouds, known as the "Master of Rain."

Ah Kun governs the ocean, improving the environment, as the "Sea God."

The Netherworld nourishes undead in the ancient banyan tree Mansion, as the "Yin God."

The Green Queen and a group of little bees sow and pollinate as the "Flower God."

Peach Blossom Immortal, Ant Power God... all have their duties.

And ultimately, the "God of Creation" is Queen Banyan, Mana, who spawned this series of ecology, creating the Earth, Fire, Wind, and Water of this world.

This is the scene Levi once envisioned for the Ancient Banyan Fairyland.

Thriving with life, everything competing and growing in an orderly manner.

Under the banyan tree.

The Rainbow Sword Master and a round-faced girl gathered in front of the mahjong foursome, pointing fingers.

Idrasala muttered: "You two stop giving directions, not playing fair."

Mana scolded with a smile: "Exactly, go on, later I'll get down and you can take over. See how impatient you are, or maybe find two other people to start a new game."

The round-faced girl shook her head like a rattle drum.

"Don't want to, not fun playing with them, defeating you gives a sense of achievement."

The Rainbow Sword Master agreed.

This is the charm of the Ancient Banyan Fairyland.

The Rainbow Sword Master, who originally didn't want to follow Levi.

Came here and quickly blended in, reluctant to leave.

Here, there is no war, no slaughter, no scheming against each other.

Just a group of women playing mahjong and dragons playing games.

According to the statistics sent by the Dragon Turtle from the Dragon Palace.

As of now.

Dragon Palace has 1,368 kinds of transcendent creatures.

kinds of mixed-blood dragon clan, totaling 4,399.

types of sub-dragons, numbering 155.

types of pure-blooded Dragon Clan, 9 in total.

Chapter 2704: White Emperor Dragon! The Second Strongest of the Pan-Plane Appears!

The original elders of the sub-dragons.

Except for those whose upper limit is level 8, like the Black Lotus Beast and the Bloodsucking Demon Dragon.

The others have already fully matured and entered their prime.

Most have found their partners and started families.

Only a few rare ones are still without partners.

Such as the Flame King Dragon, which still occasionally births new sub-dragons.

Levi did not interfere with this.

Marriage freedom.

For pure-blooded dragons, finding a suitable partner is very difficult.

So their nature is not restricted.

Though somewhat abnormal.

But within the policies of the Ancient Dragon Continent,

it even encourages marriage between the Dragon Clan and the Humans.

This results in the birth of dragon descendant wizards, with guaranteed talent lower limits.

Of course.

New life and prosperity also accompany the passing of the older era.

Those mixed-blood dragons and transcendent creatures that followed Levi earliest are gradually growing old.

Gustav, Leviathan, Crimson Netherworld Sparrow, Wind Thunder Winged Dragon, Crimson-Horned Fire Python, Shrimp SoldierPixar, Crab GeneralSuo Jinsi... they are all entering the final stage of their lives.

Of course, they are not alone.

They have all left their marks.

Passing on their bloodline through reproduction.

Levi also takes time to chat with them.

In fact, with his current skills,

collecting some higher-tier bloodlines to refine some breakthrough potions,

breaking their bloodline shackles is possible.

But doing so means sending off existing lives.

There's no guarantee they could successfully advance to level 6.

This makes the effort not very meaningful.

Letting nature take its course.

Perhaps in their next lives, they might find a more interesting way to live.

Maybe becoming wizards or knights,

in terms of growth potential, is certainly better than transcendent creatures.

In the coming days,

Levi remained hidden among the populace, practicing meditation.

Half a year later.

By the Small Stone Pond.

With an elevation in momentum.

Levi opened his eyes.

Spiritual force appeared on the Klein Crystal Ball:

[Spiritual Force: 56000/74000]

Took a sip of Heart-Cleansing Tea to wash away the fatigue of retreat.

After nearly two hundred years,

Levi advanced to the nine rings senior realm.

He was quite satisfied with this speed.

In fact, if he wished,

he could consume various Truth Oddities and Soul Stones at any cost,

to increase his spiritual force even faster than now.

But that would make things unstable.

This current state is the healthiest.

It basically ensures that he can step into the ten-level realm almost simultaneously with knights.

Beyond the nine rings, it's more important to determine the path of legend for the future.

If these are not figured out, reaching nine rings perfection is just idle waiting.

"A small breakthrough, can continue the journey now."

Levi left the fairyland and returned to the market.

He happened to catch the upcoming auction there.

He thought about it and decided to join in on the fun.

...

Blue Agate Market.

Five thousand years ago, the level 9 expert [Blue Dream Star Lord] established this place in this star zone.

With the passage of time, this expert hasn't appeared for a long time.

This area is managed by his descendants,

the Blue Heart Axe King and the Blue Stone Spear King.

These brother and sister pair both possess a nine-level realm, unmatched in talent and skill.

In this region, they are also exceedingly renowned.

Both are in the level 9 middle stage.

A hundred years ago, they once drove back a level 9 late-stage great pirate [Black Teeth Mad Lord] together.

After this battle, the name of the Blue Nephrite Twin Stars spread throughout the Pan-Plane.

And no one dared to cause trouble here again.

Of course, some voices speculated,

if the level 9 late-stage pirate arrived and the Blue Dream Star Lord didn't show up,

wouldn't that mean the old level 9 expert had already perished from lifespan exhaustion?

When the market was initially established,

the Blue Dream Star Lord was already at the level 9 late-stage.

Now five thousand years have passed.

If he has not progressed to level 10,

he probably long since turned to dust.

And if he reached level 10,

such a major event within the Pan-Plane should have stirred waves,

rather than remained so quiet.

On this day,

beyond the Blue Agate World,

Buzz! The void trembled.

Four figures descended.

One donned light armor, her curvaceous figure wrapped in leather as dark as the night sky.

Her long, shapely legs adorned with a sharp dagger.

It was Xu Li.

Another wore black armor, tusks protruding, looking fierce, laden with fat.

Its appearance resembling a pig-headed, human-bodied monster.

Most absurdly, it wielded a weapon resembling a pitchfork.

Like a second brother returned to life.

The Ninth Divine General under the Holy War Army Master Ancient Teeth.

It possessed enormous strength and its prowess was also at the level 9 middle stage.

Once it clashed with a level 9 late-stage expert over a hundred rounds using the level 9 exotic treasure [Plow Star].

There were two others, also acquaintances.

Lady Bai Shanhua of the Jade Eye Clan and the Sword of Dominance of the Dog Bear Clan.

After the Giant Head Star battle,

Earth Awakening and Levi escaped.

The Star Singer also used a secret technique to escape gravely injured, with no news since.

These two were captured and incorporated.

Now they serve the Council of Ten Thousand Clans.

With four level 9 experts arriving, clearly, a significant event was unfolding.

Ancient Teeth looked at the blue world ahead.

"That old thing, the Blue Dream Star Lord, should be dead by now, though Black Teeth Mad Lord is really useless, being repelled by two level 9 mid-stages." RǎNQǒEŠ

A hundred years ago.

The Council of Ten Thousand Clans targeted this region.

They wanted to take over the Blue Agate Market.

And seize the Blue Nephrite Twin Stars as well.

They bribed a well-known great pirate to test it out.

From the current look of things, the Blue Dream Star Lord has fallen.

They could take action now.

...

Blue Agate Auction.

Levi used 3 relatively useless level 8 exotic treasures.

To secure a level 9 water-element holy medicine [Blue Speckled Root], feeling quite pleased.

Chapter 2705: White Emperor Dragon! The Second Strongest in the Pan-Plane Appears! (Happy New Year!)

Sacred medicines, the more the better.

In the long run, once the organization grows.

Many strong individuals will inevitably face the problem of advancing to the ninth-circle.

In the short term.

Elena, Triss, they need this as well.

Over a hundred years of plane travel.

He obtained dozens of rare treasures.

Many of these are just empty in level, lacking practical use.

Trading them wouldn't be a waste.

Suddenly.

A sense of danger lingered in his heart.

Levi looked towards the Fool Rune.

Then, his expression became vigilant.

"The Council of Ten Thousand Clans is here again... It's truly been a long time."

He quietly left the assembly.

In the depths of the Blue Agate World.

There is a beautiful and grand blue castle.

Entirely built from Blue Gemstone.

Two figures awakened from seclusion.

One with female features, having six arms, holding a huge axe.

One with male features, having three heads, carrying a long spear.

They were the Blue Heart Axe King and the Blue Stone Spear King.

Their clan is also known as the Blue God Clan.

Within the clan, females have six arms, and males have three heads.

Sometimes, a genderless or hermaphroditic genius is born.

That would be a natural Three-headed and Six-armed Heavenly Divine Body.

Such a person often signifies the prosperous rise of the Blue God Clan upon birth.

Because their talents are extraordinary.

Even their lifespan is double that of a regular Blue God Clan member.

Their father or rather their mother, the Blue Dream Star Lord, was Three-headed and Six-armed.

But unfortunately.

Three thousand years ago, they went into seclusion to advance to level-10, with life and death unknown.

The siblings couldn't contact them no matter what.

Nor did they know where they were presently located.

Sister, Blue Heart Axe King, frowned and said, "Several powerful presences are approaching the Blue Agate Market; it seems that group from the Council of Ten Thousand Clans again." 𐄂𐄃𐄄𐄅

Brother, Blue Stone Spear King, took down the long spear and said coldly:

"A hundred years ago, when they bribed pirates to test us, I knew this day would come. The Council of Ten Thousand Clans has coveted father's assets for a long time. Continuing on is too difficult... Sister, after this battle, let's close the market and wander outside the Pan-Plane."

Blue Heart Axe King said, "Alas, it's the only choice. But with father missing now, and no knowledge of their successful advancement... We're moving the entire clan, leaving them lonely somewhere in this world."

The siblings sighed regretfully.

Over the years, the Council of Ten Thousand Clans accelerated its expansion.

They relied on the Covenant Sword and the Dark Temple, two supreme treasures.

Coercing and persuading, using both hard and soft tactics, before the plane convergence, they absorbed many level-9 experts who were unwilling to abandon their tribes and civilization, attempting to establish a larger Anti-Wizard Alliance.

The two took their respective weapons and came to the outside world.

The void around the Blue Mana World.

Already sealed by four level-9 auras.

Gu Chi God General sat upon a gigantic temple, carrying the rare treasure, Plow Star.

"I have long heard that the Blue Dream Star Lord's two offspring are the unmatched Double Axe and Spear, and meeting today, it's indeed extraordinary."

Blue Heart Axe King angrily said:

"My brother and I have always conducted honest business benefitting all clans in this region, never provoking the Council of Ten Thousand Clans. What do you mean by bringing in a great army and pressing at our border? Do you wish to wage war against us? Do you not know that my father has already advanced to level-10?"

Blue Stone Spear King stood with arms folded, displaying an unafraid demeanor.

To the siblings.

They must insist that their father has not fallen.

Only then can they intimidate these people.

A potentially existing level-10 strongman.

Even the Council of Ten Thousand Clans wouldn't want to provoke.

Their father wasn't among those following the Plane Sovereign path.

Such individuals are eternally confined to their old home.

Even with a long lifespan, their influence on the Pan-Plane is minimal.

They can only rely on their extended lifespan to study duplication and puppet paths.

To travel the Multidimensional Plane through these external means.

The Holy War Army Master, Worm Lord, and even the Amethyst Saint were such individuals.

A level-10 who can move freely.

No organization would dare provoke.

Even the Nora Council wouldn't.

In guerrilla warfare.

Such a strongman can harass a civilization into an inability to develop normally.

But since Gu Chi and others dared to come, they came mentally prepared.

He said:

"There's no need for tension between you two. Our Council of Ten Thousand Clans isn't some terrible menace. As long as you submit to the council and swear under the Covenant Sword, we'll leave immediately! These seven regions around here will still be your territory!"

Xu Li added fuel to the fire, saying:

"Have you two never been to Nora? Do you know how terrifying the Wizard World is now? For their own development, they've caused countless civilizations to lose their homeland, making billions of lives displaced... The mission of our Council of Ten Thousand Clans is to prevent all this, returning life for all clans to their proper course."

The siblings weren't the type of hot-blooded youths easily swayed.

They exchanged a glance and fought without hesitation.

"Fine! Since that's the case, let's see the truth through battle!"

Gu Chi grabbed a pitchfork and swung it down fiercely.

Nine plows of light that crack heaven and earth shot straight through, shattering stars.

This Plow Star rare treasure is top-quality among level-9.

Its power is far from ordinary.

Xu Li also took action.

He drew a dagger from his thigh, transforming into a stream of light disappearing into the void.

Lady Bai Shanhua and Sword of Dominance, two level-9 early stages.

Each used their own means, surrounding the siblings.

Such a lineup is enough to sweep through most domains and civilizations.

The siblings were indeed very strong.

Each of the six arms wielded a huge axe.

With every move, there were six axe lights that tore the sky apart.

Chapter 2706: White Emperor Dragon! The Second Strongest of the Pan-Plane Appears! (Happy New Year!)

Another one, three heads rotating incessantly.

A long spear danced, airtight, with no blind spots in its defense.

Unfortunately, Sauron once said:

Two fists cannot match four hands!

Besides, General Gu Chi was too strong.

Or rather, that rare treasure was too fierce.

The brother and sister were completely overwhelmed.

"Isn't Blue Dream Star Lord level 10 by now? Why haven't they taken action at this time?"

Gu Chi taunted.

The siblings looked grim.

Suddenly, the void behind the sister split open.

A graceful figure wielding a dagger suddenly stabbed down.

The sister barely dodged, but still had an arm severed in an instant.

It cried out in pain, and a fierce axe light hacked backward.

But Xu Li had already fled thousands of miles away.

"Tsk tsk tsk, too slow." Xu Li chuckled, completely unaware of a streak of rainbow light approaching from behind.

A figure struck at the speed of light, pressing a palm against Xu Li's chest.

Boom! Xu Li's body exploded, turning into a chaotic void stream.

It fell far away in panic, its face pale.

This palm strike almost killed it instantly.

Fortunately, the Void Spirit Clan had strong survival means.

"Your speed isn't fast either."

Levi smiled, blinking away again.

On the other side, Gu Chi's expression changed.

"Dusk Palace Master?"

He instinctively swung the rake towards Levi.

Bang! A brilliant golden light descended.

It was Earth Awakening activating the Divine Image Law, punching the rake away.

"Who are you?"

General Gu Chi's heart sank to the bottom.

He never expected to encounter the Dusk Palace Master here.

This guy is truly a persistent ghost!

Three times, five times, he's disrupted the Council of Ten Thousand Clans' plans.

However, although Xu Li wasn't suited for direct combat.

He was of the Void Spirit Clan, so his life should be unharmed...

General Gu Chi, fighting Earth Awakening, glanced at the battlefield.

Then his jaw nearly dropped to the ground.

He saw Xu Li pinned in the void, unable to move.

A white imperial palace, emitting endless storm and lightning power, pressed on its head.

Boom!

As the palace descended.

Xu Li's body crumbled, unlikely to escape death.

General Gu Chi immediately shouted.

"Retreat!"

The Dusk Palace Master was even stronger than a hundred years ago.

This is truly outrageous.

What has he been eating to grow like this?

For level 9 experts.

Advancing in a hundred years is as hard as reaching the heavens.

Does this guy really have no bottleneck?

Buzz! The void resounded with a sword hum!

Rainbow bridges converged from all directions, weaving into a Heavenly Net.

"Secret Skill: Twenty-Four Bridges!"

The Rainbow Sword Master at the rear took action.

General Gu Chi had no place to evade, charging right in. .

His rake clashed with Rainbow Sword Qi.

Even dealing with Earth Awakening alone was strenuous.

Now there's a Rainbow Sword Master.

With two level 9 mid-stage fighters assisting.

The Council of Ten Thousand Clans had no advantage.

Taking this chance, Levi stepped forward.

In his eyes, there was only Gu Chi.

Others could run.

The Blood Fire Eighteen Generals must die!

The Crimson Dragon Slash shone with radiant light.

The Red Gold Sword Energy, infused with the power of the Holy Realm, slashed down!

General Gu Chi was terrified.

Hastily, he used the rake to block in front of him.

Boom! The terrifying impact scattered his fat body.

The rake vibrated, shattering his hands, blood and flesh flying.

Each of Levi's strikes was fiercer than the last, shredding the deep space with waves of sword qi.

This ninth-ranked general, his strength infinitely close to level 9 late stage.

Couldn't last for dozens of rounds before being severed in two.

The aftermath of the sword qi plowed a ten-thousand-mile trench in the darkness.

The rake-shaped rare treasure was quite solid.

Only some gaps were left, but it wasn't damaged.

Levi picked it up.

"Good stuff."

Leon appeared on horseback, capturing this general's soul.

To occasionally feast on a level 9 meal.

Recently, it had successfully advanced to level 8 late stage.

Such speed, even Triss and Elena couldn't match.

Only Levi, this cheater, could stay ahead.

With General Gu Chi dealt with.

Lady Bai Shanhua and Sword of Dominance were no issue.

Their strength was average, to begin with.

Surrounded by Earth Awakening, Rainbow Sword Master, and the sibling duo, four level 9 mid-stagers.

They had no power to fight back and were quickly subdued.

"Dusk Palace Master, don't kill us!"

"We were forced into this."

Faced with life-and-death danger, the two level 9 experts lost all dignity.

Blue Heart Axe King and Blue Stone Spear King observed Levi, their minds shaken.

"Sister, this is the Dusk Palace Master who's recently risen to fame."

"So strong... in an instant, he subdued the ninth General."

They didn't understand why Levi appeared here.

Felt some concern.

Hearing Lady Bai Shanhua and Sword of Dominance plead for mercy, Levi said with a smile:

"I can spare you, but you must swear under my sword to work for me."

As he spoke, the Excalibur sword appeared behind Levi.

Meanwhile, Thunder Cloud ascended to the high heavens.

"Those who break the oath will be struck by five lightning bolts from heaven!"

Seeing this spectacle, the two fell silent.

They couldn't swear the oath.

Because they had already sworn under the Covenant Sword.

The two were inevitably in conflict.

The price of breaking the Covenant Sword was death as well.

"Then I'm sorry."

Levi swung his blade, slaughtering the two alien strongmen.

These alien races may have been innocent themselves.

But when they chose to stand against Nora.

They had already sealed their fate today.

For himself, for Nora.

Levi had no other choice.

Of course, he could have chosen the Black Emperor's Enslavement to forcefully subdue them.

But now his standards were higher.

Unless it's a useful level 9 like Earth Awakening.

Chapter 2707: White Emperor Dragon! The Pan-Plane's Second Strongest Enters! (Happy New Year!) (5)

Others, it would be better to kill them.

These level 9 corpses, Levi has use for all of them.

He wants to store them.

To be used in the cost of Equivalent Exchange during the formation of oddities.

Of the oddities of Elemental Proof, he has three left.

Wind Emperor's Robe, Golden Emperor's Palace, Thunder Emperor's Crown.

These three require corpses of level 9 late stage with different attributes as the main ingredient.

Currently, Levi hasn't found suitable ones.

"Thank you, Sir Levi, for resolving the siege."

Suddenly, Blue Heart Axe King, with six arms clasped, spoke.

Levi was slightly startled, then smiled and said:

"You've heard of me?"

Blue Stone Spear King laughed and said:

"The reputation of the Dusk Palace Master, those messengers in the Pan-Plane who are knowledgeable among level 9 experts, have all heard of you. Previously, it was thought to be exaggerated, but today, seeing it firsthand, it truly is extraordinary."

Levi felt some sentiment.

Before he knew it.

He had reached the day when "Who in the world does not know you."

It seems that in future travels through the Pan-Plane, he should use his real appearance less.

Otherwise, he's likely to be targeted by enemies.

Levi laughed and said: "I was just passing through this place to participate in the auction, seeing injustice, I helped out with the sword, all clans within the Pan-Plane are one family, you two don't need to be courteous."

His attitude was extremely amiable, making people feel as if bathed in spring breeze.

Now, Levi, walking outside.

Not only represents himself, but also represents the image of wizard civilization and Nora Council.

Although he is not an official.

But those uninformed alien races won't think like this.

In their eyes, Levi is equal to the wizard group.

"Sir, please come with me, my house is just below, we will set up a feast to properly thank you, our great benefactor."

After the events during this period, Blue Heart Axe King had some thoughts.

Actually, he and his brother had considered whether to join Nora.

But having gotten used to the comfortable life now, they don't want to make changes.

Now, having initial contact with characters like the Dusk Palace Master, the feeling is not bad.

So he wants to seize this opportunity to enhance the relationship.

Whether they join later or not, it's another path.

"Alright, then I'll be intruding."

Levi followed the two to their home as a guest.

As the chat went on, Levi mentioned the inconvenience of alien marketplace trade, the issue of lack of universal currency. Upon hearing this, the siblings sighed repeatedly.

"Sir does not know, our father Blue Dream Star Lord once wanted to issue Blue Agate Coin using our world's specialty, Blue Gemstone, as currency, but after all, due to weak reputation and insufficient strength, he failed to gain the trust of strongmen from various clans, ultimately abandoned."

Levi said:

"You two are smart people, you should know as well, Nora Council, after two extensive invasions by demons, has grown increasingly stronger, now having sixteen level 10 Strongmen, hundreds of level 9, in the coming millennia, Pan-Plane will have only two outcomes.

One is invaded by the Abyss, becoming Demon Land, the other is being ruled by Nora Council, establishing a united Pan-Plane civilization and racial consortium, one which can contend with the astral world, Abyss, a giant civilization.

However, I believe the final victor will be us. The rising Nora will not only be the world of wizards or humans, because without All Clans, relying solely on wizards isn't enough to contend with existing giants.

Now, Nora is already preparing a new currency system, one that enables All Clans, all chambers of commerce to align, realize barrier-free transactions with currency guaranteed by civilization's reputation, enough to convince everyone.

With your commercial insight, if you join Nora now, it will definitely allow your talents to shine, gaining discourse power in the future world. Furthermore, there's a practical issue, now four level 9 experts of Council of Ten Thousand Clans have failed here at your place. If you don't evacuate early, you will surely face their crazy retaliation."

Levi's words directly silenced the siblings.

Giving them the feeling of being pushed to Liangshan.

"Indeed, the situation with Council of Ten Thousand Clans, we already have no room for reconciliation, next is either allegiance, or escape..." Blue Heart Axe King sighed.

"Sister, what should we do?" the brother asked.

Closing his eyes, contemplating for a moment later.

Blue Heart Axe King said:

"We plan to join Nora, hope Sir Levi can introduce us."

Levi laughed and said: "Every friend I introduce over there does well in Nora, rest assured."

Not long ago, Star Splitter also joined Nora Council.

Now, due to his powerful strength, he holds an important position.

He also succeeded in consuming Thousand-Year Potion, achieving longevity extension.

There's hope to step into level 9 late stage realm within a few hundred years.

Unexpectedly, Levi also benefits from this.

For every level 9 he introduces.

The congress either directly pays him.

Or supports Ancient Dragon Continent through other means.

In general, there is always an expression.

In fact, even without these benefits.

This kind of effortless matter.

Levi would also do.

The main reason being one is short after eating people's food.

In Dark Ancient Tower over there, he received too many benefits from Sauron.

If he doesn't do something for the wizard civilization.

Levi fears that the Sauron above might secretly curse him.

After negotiating.

The siblings immediately started packing.

Running a chamber of commerce for so many years, they were strong and wealthy.

Space Treasures and such are not lacking.

Moving wasn't bothersome.

Soon, everything was ready.

The siblings then left with Levi, heading towards Nora.

...

"Damn it!"

Looking at the blue world ahead.

The Seventh Divine General's face was gloomy, feeling utterly furious.

Chapter 2708: White Emperor Dragon! The Second Strongest of the Pan-Plane Appears! (Happy New Year!)

This market has long been deserted.

The plan fails once again.

And we lost yet another General.

Dika, Canon, Ike, Gu Chi...

Now, four of the Blood Fire Eighteen Generals have fallen.

...

Dark Temple.

At the Ancient Elder Council.

The Holy War Army Master remained silent.

The other Ancients didn't look too pleased either.

"From the current perspective, this squad encountered the Dusk Palace Master, which is why they failed. That young one now has a Level 9 Middle Stage alien race and an elemental dominator of similar strength by his side... His own cultivation should have also risen to a Senior Nine Ring. Though it's hard to admit, solving him from now on is as hard as reaching for the stars."

"Damn it, how on earth can we eliminate him?" The Worm Lord was somewhat inexplicably agitated; the repeated failures had made it somewhat impatient.

The Void Emperor said, "Don't rush. The End Dragon Bird and Red Crow have personally executed plan b, right? Given their strength, failure should be impossible."

The Amethyst Saint nodded.

"We await good news."

The Dark Sun Sovereign closed his eyes in meditation.

Since the Black Sun incident.

A fear had lingered in his heart.

The strength of Edmund and the Nora Council had already surpassed his imagination.

He and the Council of Ten Thousand Clans were at a disadvantage.

To turn the tides ahead.

Will depend on the demons' performance.

Through these events, the Dark Sun Sovereign realized.

All that these Ancients are doing now is in vain.

To solve such an unparalleled character possibly born from the will of Sauron.

In the universe, only four forces can achieve it.

The Council of Ten Thousand Clans just had to watch the show.

...

Star Realm Ruins Sea.

A golden and a crimson light sped by.

They were the End Dragon Bird and Red Crow.

Nora ahead grew larger and larger.

The two fell in the darkness and halted.

"Big brother, I'll capture those dragons, you cover me. According to the data, there are only two among the Nora Council who might pose a threat to you, one is Edmund, the other is the Frost Witch... The latter is speculated to have ties with the Ancestor of Frost Giants." rAÖßES

"Indeed, those legendary youths are not worth considering. Back in the day, I traversed the Pan-Plane when they weren't even born. Second brother, rest assured and go; it's been a long time since I've had a good meal; today, I can finally have a feast."

The two were well-prepared, bantering with confidence.

Just as they were about to make a move.

The Land of Darkness suddenly lit up as bright as daylight.

As if a sun appeared out of thin air.

The End Dragon Bird and Red Crow both tightened their expressions.

A magnificent figure descended from the sun before them.

It was... The Fire Sovereign Gryus!

The Pan-Plane's second strongest.

Not a God, yet an invincible being called "Fire God" by countless people.

It resides within the true sun.

The Pan-Plane's most dazzling, most scorching place.

The protector of all Fire Elemental Spirits.

Legend has it, it was the first Fire Element born from the Red Giant Plane.

Behind it loomed layers of fire prison phantoms.

Each layer, a world, totaling nine layers.

These were refined from nine suns.

The Pan-Plane's third-ranking supreme treasure:

Dead Sun Nine Prisons!

The Fire Sovereign stood firm.

The End Dragon Bird and Red Crow stayed silent, motionless.

The atmosphere was somewhat awkward.

The Fire Sovereign suddenly spoke:

"Two little birds, do you recognize me?"

Perhaps only it dared to address two level ten existences in such a manner.

"The renowned Fire Sovereign, who wouldn't recognize... I just don't understand why you're blocking our brothers. I remember you uphold neutrality?"

The End Dragon Bird said in a deep voice, angry but not daring to speak.

The Red Crow was trembling, not daring to speak.

At the same level ten, it and the Fire Sovereign could be two extremes.

One can only bully level nine, while still very young and immature.

The other can crush other level tens effortlessly, older than many Gods.

The Fire Sovereign said:

"I do uphold neutrality, no issue there... From ancient times, wizard, Abyss, or astral disputes, so many times big and small, have I ever participated? I haven't participated in this war either."

"Then why are you blocking us?"

"Huh? I'm not blocking, just passing by. Seeing two young friends, I thought to come up and chat a bit. Red Crow, you haven't forgotten me, right? When you were still an egg, it was one of my Fire Elemental Spirits who picked you up and placed you in the Red Giant Plane to hatch."

The Fire Sovereign had an expression reminiscing the past.

The Red Crow smiled awkwardly, lowered its head, saying:

"Yes, it's all thanks to the senior's care back then."

"In the blink of an eye, you're level ten already, time waits for no one. Only I am still standing in place, will sooner or later be surpassed by you rising stars."

"Senior jests, in ten thousand years, the Pan-Plane's second strongest will still be you, we are but fleeting moments."

The Red Crow was forced to exchange pleasantries with the Fire Sovereign.

The End Dragon Bird tried to bypass the Fire Sovereign.

But was caught by it, pulled close.

"I say, brother, what are you up to? Going to Nora to stir trouble?"

"No comment."

"Don't be foolish, you don't know? In these past centuries, two Mythical Creatures like you have already died there, tragically."

"That was due to their weak strength."

"You think you can handle it? Can you take a punch from me?"

"..."

Looking at the silent big brother.

The Red Crow said: "Big brother, let's head back."

The big brother was a vain bird.

It feared the big brother might actually fight the Fire Sovereign.

The Pan-Plane's second is not in vain.

Even the Astral World, Abyss, these giants.

Would not provoke this ancestor before them without reason.

The big brother's frail body, isn't it just a few strikes away from being crushed?

The End Dragon Bird was internally stifled, furious.

But in the end, reason prevailed.

The Fire Sovereign suddenly laughed:

"Forget it, no jokes anymore, go about your business, I'm leaving first."

It transformed into a sun, and vanished into the darkness in an instant.

"The senior's temper is still that erratic... Big brother, do we continue?"

The Red Crow asked.

The End Dragon Bird, unable to suppress its anger, said coldly:

"With its appearance, a new sun arose on Nora's side... We've already been exposed, how to continue? Let's go, there are strong ones from the council coming."

The two birds turned into two lights, quickly departing from Nora.

Plan a failed.

Plan b faltered before it even began.

The End Dragon Bird knew.

The Fire Sovereign's appearance was definitely not a coincidence.

It intentionally sought trouble!

It seems the so-called neutral second strongest of the Pan-Plane.

Is secretly in cahoots with those wizards.

Soon after, a figure quietly surfaced deep in space.

It was Edmund, who stood in silence.

"End Dragon Bird."

Chapter 2709: Snake of the End! The Preaching Voice Amid Ages!

Edmund naturally had heard of the Doomsday Dragon Bird and the Red Crow.

He just had never interacted with them.

The vast majority of mythical creatures wouldn't easily choose sides.

They possess long lifespans.

As long as it doesn't involve a multidimensional plane level war.

In any era, they can manage to survive.

The Purgatory Black King Dragon is a typical example of this.

This is also why the Venerable Blood Scales ultimately did not choose to join the Council of Ten Thousand Clans.

The Fire Sovereign's actions.

Edmund actually thought.

It wasn't about obstructing the Doomsday Dragon Bird and Red Crow.

But rather advising the two birds to stay away from the vortex.

This powerful being had a great temperament.

It witnessed the birth of generations of strong beings and mythical creatures.

And deeply understood the difficulty of achieving level 10.

Unfortunately, those two evidently didn't appreciate it.

Perhaps fearing the Fire Sovereign had also joined the wizard faction.

Edmund shook his head, turned, and left.

Next, on the Ancient Dragon Continent's side, vigilance needs to be strengthened.

Those few dragons, envious wizards can easily handle.

Only worried if the Doomsday Dragon Bird takes an interest.

...

Dark Temple.

Ancient Elder Council.

The shadows of the Doomsday Dragon Bird and Red Crow slowly emerged.

"Hmm? The B plan completed so fast? As expected of the Doomsday Dragon Bird!"

The Worm Lord showed a delighted look, seemingly seeing hope.

Even the Dark Sun Sovereign and others were somewhat surprised.

The Doomsday Dragon Bird coughed and said:

"Encountered some mishap, ended before it even started."

The Red Crow wiped the cold sweat off its forehead. .

"We encountered an unexpected presence."

The Amethyst Saint said in a deep voice, "Who is it? With the strength of the Doomsday Dragon Bird, ordinary level-10s are no match, right?"

The two brothers replied in unison, "The Fire Sovereign."

As those words were spoken, silence fell over the scene.

Even the Amethyst Saint was stunned.

"The Fire Sovereign? Why would it stop you?"

"Don't know, perhaps secretly allied with Nora."

"With its strength, this multidimensional plane war doesn't affect it at all, how could it ally? It's the first actual powerhouse of the Pan-Plane, who tore the Sword of World Destruction with its hands and burnt to death and rebuilt Surgard of Abyss's 650th layer!" ~~raNoEs~~

The Amethyst Saint couldn't make sense of it.

How strong was Surgard at its peak.

Having fought against it before, it deeply understood.

With its invincible Amethyst Race body.

It could only fight it to a standstill.

Later Surgard, for further advancement.

Absorbed the Power of the World from several fire worlds of the Pan-Plane.

Resulting in the Sun extinguishing, deeply impacting surrounding worlds.

Then caught and beaten by the "environmentalist" Fire Sovereign.

That battle even shattered the supreme treasure Sword of World Destruction.

Finally, Surgard was refined in the Dead Sun Nine Prisons.

As a Fire Demon Emperor, it was burned to death.

Thinking back, it's still unbelievable.

After reincarnation and resurrection, Surgard became smarter.

Only daring to provoke some weaker small and medium civilizations.

Never again recklessly provoking the Fire Sovereign.

Sometimes, thinking about its achievements.

Even gives the Amethyst Saint an illusion.

Could this Fire Sovereign possibly be at level 11 already?

Could it have possibly reached Sauron's realm back then?

Always claiming to be the second of the Pan-Plane.

Just not wanting to be noticed by the Four Great Giants.

The saying goes, "A tree towering above the forest gets its wind snapped."

This Fire Sovereign seems recklessly bold and honest.

But actually, it's quite smart.

Letting Sauron, the dead, be first of the Pan-Plane is proof.

"So what do we do now?"

The Void Emperor was also somewhat baffled.

The Council of Ten Thousand Clans dares to provoke Nora.

But doesn't dare provoke such a lone powerhouse like the Fire Sovereign.

A group of ancients looked at each other.

In the end, all eyes were on the Doomsday Dragon Bird.

"Should the B plan still be implemented?"

The Doomsday Dragon Bird frowned and said, "If you all can restrain the Fire Sovereign, I would dare to try, otherwise no talk."

The Doomsday Dragon Bird isn't afraid of Edmund and them.

These short-lived species, no matter how strong.

Cannot outlive it.

It may lose temporarily, but it will never lose forever!

Moreover, no one knows how truly strong Edmund and others are as they haven't had many achievements.

Previously hunting those mythical creatures.

Definitely relied on the convenience of teamwork.

Otherwise, it doesn't believe the world's fastest Rainbow Dragon would be caught!

But this old thing the Fire Sovereign, not only strong.

It can truly live long.

Elemental spirits are extremely difficult to achieve level 9, level 10.

But once achieved.

Their lifespans are extraordinarily terrifyingly long.

Not Gods, but more than Gods.

Especially after level 10, becoming an Elemental Monarch.

At this time, they themselves are an elemental world.

As long as the world lives, so can they.

This is why the Fire Sovereign holds the title "Son of the Sun God."

It has little difference from the Sun itself.

As its lifespan increases, it will slowly grow stronger.

This is also why the Fire Sovereign upholds the principle of prudence, being a lone wolf.

As long as it's alive, it can continually raise its upper limit.

Someday, it could become the strongest below level 11.

Right now, it might have already reached this realm.

"Continue with our other plans, don't delay because of one person. The Abyss will naturally think of a way to deal with the Dusk Palace Master. He is not enough to affect the larger situation."

The Dark Sun Sovereign suddenly said.

"Makes sense; no matter how strong, it can't surpass the Abyss. Throughout history, there have been more remarkable individuals than him."

"Exactly."

The ancients seem to have found a reason to comfort themselves.

The nerves tormented by the Dusk Palace Master over the years also eased a bit.

...

Land of Darkness.

Within the shelter, Levi looked at the mountainous pile of spoils.

Chapter 2710: Snake of the End! The Preaching Voice Within the Ages!

Previously, he slew four members of the Council of Ten Thousand Clans and reaped substantial rewards.

He acquired three Ninth-level Treasures alone.

The first is General Gu Chi's weapon, a rake named [Plow Star].

This is a treasure that is not much inferior to the Crimson Dragon Slash.

The materials used and the craftsmanship are all top-grade.

Among the combat treasures Levi acquired, few can match this one.

Upon researching, he discovered it was crafted by Master Bao Long.

That explained everything.

As a Pan-dimensional Divine Craftsman,

the treasures he forges are undoubtedly top-quality.

It's just a pity that the Plow Star weapon doesn't align with Levi's aesthetic.

However, its grand and majestic aura.

Is quite suitable for Gandaph.

Levi plans to let him use it.

With this treasure as an aid.

Gandaph is invincible under the Ninth Level.

Once Gandaph's cultivation advances further to Eight Ring Perfection.

With the power of his Ancient Divine Body.

A single strike from the rake can overwhelm even a Level 9 Expert.

The second is the [Void Dagger] from Xu Li.

This is remarkable, a replica of the supreme treasure [Void Blade].

It is likewise a top-quality item.

The materials for this treasure are the Ninth Level [Void Divine Stone].

It also possesses the traits of [Sharpness] and [Divine Concealment].

The former cuts through iron like mud, the latter slays invisibly.

An absolute divine weapon for assassinations.

Its effectiveness surpasses the [Shadow Blade] left by Sauron.

After all, that dagger was just Sauron's side project.

However, Levi prefers upright battles.

With his strength, why would he need assassinations?

He can simply charge in openly and unleash havoc.

Therefore, after reaching the Ninth Level.

The Shadow Blade was left in the organization's treasury by Levi.

That treasure suits the wizards of the Shadow School of Thought.

It is likely destined for the future Shadow Queen, Ayak.

As for this Void Dagger.

It is highly compatible with the Heavenly Dog Bloodline of the Dark Moon Knight.

The organization's executives or supernovas.

Indeed, they need some aces up their sleeves for survival.

The third Ninth-level Treasure.

Is the [Bear King's Greatsword] from the Sword of Dominance.

Compared to the [Void Dagger] and [Plow Star].

This item is relatively ordinary.

Compared to the Crimson Dragon Slash, it's far inferior,

but after all, it's a Ninth-level Treasure.

It should not be wasted.

Stored in the organization's treasury, waiting for a destined owner.

Levi believes.

The Giant Spirit God Witch, Gandaph's disciple, is a good match for this treasure.

Besides, there are a total of 33 treasures of Level 6 or higher.

Levi's journey has brought immense treasures to the organization's treasury.

Among the remaining spoils, worth mentioning.

Is the Truth Oddity.

A total of 156 pieces, unfortunately, none at the Glorious Sun-Grade.

But among the Bright Moon Artifacts, many good items were found.

Many are components of Sequence Artifacts.

Levi refined those useful to himself.

The rest, to enrich the treasury.

Other minerals, medicinal herbs, and general cultivation resources need no elaboration.

Additionally, on General Gu Chi and Xu Li, there were close to 30 billion Aether Stones.

Also considered a pleasant surprise, likely gained from hunting wizards.

...

Ten years later.

Nora Calendar Year 1450.

After a journey through storms, Levi returned to the Flora Realm.

From here, Nora was not far.

He stopped by to visit the Spider King.

"Master, you have returned."

"Yes, how have things been lately?"

"Quite good, for years the Council of Ten Thousand Clans has seldom bothered me, it seems they have given up on the Flora Realm and its surrounding areas."

"Develop cautiously, safety first."

He stayed with the Spider King for a while.

And gained more resources.

Boss Li was very pleased.

On a certain day.

In the Dark Deep Space.

Endless pink lightning exploded in the sky.

An aura of Ninth-level spread out.

It was a creature resembling a giant pink jellyfish.

Indeed, it was the Legendary Star Nebula Electric Mother.

After recuperating for centuries in the Cave Heaven Blessed Land of the Ancient Banyan Fairyland.

With the consumption of various Immortal Elixirs and Immortal Brews.

Its strength has completely recovered.

It reached the Ninth Level Realm.

Little Wo and the Spider King were both envious.

Levi said, "Little Rou, you've reached level nine too, you should stay here now and can protect the safety of the Spider King and Little Wo."

Little Rou's obedient voice came.

"Alright, master, that's wonderful."

Levi could see that Little Rou still missed Little Wo.

How could Little Wo not miss as well?

He, Dragon King Li, is not a heartless person.

They should be united when it's appropriate.

Anyway, with his current travel speed.

Even in full force, getting to the Flora Realm doesn't take long.

...

Six months later.

Levi returned to Nora.

More than a century of plane travel came to an end.

This journey was indeed a great windfall.

He didn't rush home.

Instead, he brought the Blue God Clan siblings to the Alien Affairs Administration.

The Old Witch felt several Ninth-level auras descending and hurried to greet them.

"Levi? You're back?"

"Yes, I've brought back two new friends."

He introduced the siblings.

The Old Witch smiled and said:

"Well, well, leave it to me. You two, come with me. Now that the Nora Council's Chamber of Commerce Management Department is being set up, you've come at the right time. I've heard of the renowned Blue Onyx Chamber of Commerce."

"Then please, ma'am."

After ensuring the siblings were settled.

Levi also received a valuable introduction fee.

He hummed a little tune as he returned to the Ancient Dragon Continent.

The Guardian Four Dragons opened their eyes.

"The Hall Master has returned."

"Has anything happened on the Ancient Dragon Continent lately?"

"Nothing, with the four of us brothers guarding, nothing can happen!"

"That's good, thank you all for your hard work."

Whenever Levi is away, he is most concerned about these giant dragons.
