Chapter 275: Capture Dragon King Whale, Second-Ring Battle, Level Nine Red Lotus! (8)

After all, with so many apprentices, they were a very powerful force. With everyone's cooperation, they could even kill the Hell Strongman.

Levi looked at Mr. Marko, who was being suppressed by the Nightmare Knight and sighed in his heart.

If he hadn't been in the Red Lotus Blood state, he could have helped his teacher.

However, he was already in a weakened state. He would be courting death if he participated in a battle of that level.

The most important thing to do now was to not disappoint Mr. Marko and bring these apprentices back to the Gray Tower safely.

On the other side, Green Ghost Carter watched as Levi, the legendary knight, was about to escape again. He was also anxious as he let the Nightmare Knight continue to deal with Marko.

He waved his array and chanted an incantation, turning into a green smoke that surged towards Levi.

"Damn it, anyone can leave, but you little bastard must stay!" Green Ghost Carter sneered in the green smoke.

This was a flying spell from the School of Death, and it could only fly for a short distance.

The green smoke was extremely fast and was about to catch up.

The black gas danced around Levi's body. He had already prepared casting materials to cast the Seal of Flame.

At this moment, a mithril arm suddenly appeared and continued to extend. Runes flickered on the arm.

Then, the arm grabbed the green smoke.

Screams came from the green smoke.

Levi knew that the Tower Master had made a move.

"Hehe, old man Herman, I knew that you wouldn't be able to hold back. I didn't want to act so quickly, but I don't want to give up such a good opportunity. Do you know how long I've waited for this day? Do you know how I spent such a long time on the run? Since you're here today, don't leave. You and the pile of iron lumps on your body can die in this sea!"

All of a sudden, a figure that looked like a ferocious undead creature, covered in black demonic flames, stepped into the void. Beside him, a ferocious Three-Headed Hell Lizard was drooling.

"Cut the crap, Harland. Let's fight here today. Your Undead Ship needs some beating." The Tower Master's disdainful voice came from his arm.

The green smoke also broke free from the Tower Master's control and returned to the Demon's side, turning into Green Ghost Carter.

"Captain, that little bastard is the legendary knight that the Undead Ship is trying to capture. We can't let him go," Green Ghost Carter complained.

"Levi, bring the others and retreat. I'll have Jorman receive you at the front. I won't have time to worry about you."

The Tower Master's voice rang out in Levi's mind.

Levi did not waste any more time and let White Tower No. 9 evacuate quickly with everyone.

The situation on the battlefield had changed too much.

This damned Second-Circle Wizard had come out.

If they stayed here, they would be hit by the aftershocks of the attacks of the Second-Circle Wizard.

Everyone might die.

In the end, Levi and the others left the terrifying battlefield.

One could vaguely hear the explosive sound of a powerful spell.

He didn't know how the situation was over there.

"I hope nothing happens to the Gray Tower. The Tower Master has to deal with the owner of the Undead Ship alone, and there's also a second-circle transcendent creature. I wonder if he can handle it." Levi frowned. Not long after, Levi and the others met Jorman, who was hovering above the sea.

Jorman came to pick up Levi the others.

Next, the apprentices laid on Jorman's body, and Jorman quickly led them

Away.

As for Levi, he stayed on the damaged White Tower No. 9.

He still had to keep an eye on his Dragon King Whale.

After an unknown period of time.

Levi saw Ms. Marlene's figure appear on the surface of the sea.

"Little Levi, are you alright?"

Ms. Marlene asked with a solemn expression.

"Teacher? I'm fine. Did you successfully advance to the second circle?" Levi asked in surprise.

"That's right, I succeeded." Ms. Marlene smiled. "I heard that we were at war with the Undead Ship, so I rushed over immediately."

Levi heaved a sigh of relief.

With a new Second -Circle Wizard like Ms. Marlene, they should be safe from now on.

Not long after, Levi saw a strange man with only half of his body left holding Green Ghost Carter as he quickly cut through the sea and fled frantically.

Behind him, there was a law-enforcement officer in a starry robe chasing after the strange person without saying a word.

"Damn Herman, you actually called the Star Tower's law enforcers to ambush me. You're despicable!"

The figures of Demon Harland and the law-enforcement officers quickly disappeared into the horizon.

In the sky, a five-meter-tall alchemical creature with a head covered in mithril and rivet, shining with a golden glow, fell to the surface of the sea and appeared in front of Levi.

There was still a lot of flesh, skin, and hair on this alchemical creature. There were also traces of burnt marks from the flames. The head of the Luminant Gold was cracked a little, and a brain could be seen inside.

This monster was the Tower Master. He gave up on chasing and watched as Demon Harland fled.

"Tower Master, are you alright?" Levi asked carefully.

He had never seen the Tower Master in such a sorry state. It was obvious that the battle just now was extremely tragic.

"It's fine, haha. It's just a pile of scrap metal. My brain isn't damaged yet. I'll go back and fix it. This time, I took the opportunity to teach Harland a lesson. He should be quiet for a while. He won't be able to recover completely before ten years. Hehe, a body of flesh and blood can't compare to an alchemical body after all."

The Tower Master said calmly and even put his fallen eyeball back into his eye socket.

"You are too desperate," Marlene said.

"I'm fine. Hey, you've advanced to the second circle?" The Tower Master asked in surprise.

"Yes, I was lucky and almost failed," Marlene said.

"Haha, great news. Don't tell anyone about this. We have two Second-Circle Wizards in the tower now. If Harland dares to come again, we'll make sure he doesn't return." The Tower Master laughed loudly.

"Stop talking. Hurry up and repair your prosthetics," Marlene said helplessly.

Year 1018 of the Holy Brilliance Calendar, Month of Flowers.

On the ninth floor of the Gray Tower, Levi opened his eyes.

The Red Lotus Breathing Technique was at level 9..
