

Wizard 280

Chapter 280: Red Lotus Flame Body, Black Snake Limit Breaking! (5)

Perhaps one day, it would also appear on the wine barrels of the Shining Tavern in the future, becoming a new admission ticket.

In the Emerald Kingdom, the southern nobles celebrated the new year.

They were lucky that the blue frost did not invade the south.

However, this was only temporary. With the recovery of the Dark Wave, there might be an existence as terrifying as the blue frost invading this world, such as the Blood River Will...

During this period of time, rumors about vampires began to spread in some areas of the South.

Only those who truly understood the inside story knew that this was the awakening of some sleeping Blood Clan members. They had not drunk fresh blood for too long. They thirsted for fresh blood and killing.

There were very few true knights like Anderson. Most of the Secondary Blood Clan members gradually abandoned human morality and laws and did whatever they wanted after becoming vampires due to their bloodthirsty instincts.

This was the reason why Anderson wanted to be reborn. He wanted to stop this kind of behavior, although this idea was completely unrealistic.

In Flower City, Andrew quietly packed the things that he had prepared for his master. The breathing technique inheritance diagrams, secret medicine materials, gold, and the Core of the Undead...

Before Levi left, he had instructed Andrew to collect all these from the human world.

Andrew carried out Levi's mission conscientiously without any complaints, and he didn't need to be paid a single gold coin. This was the advantage of a Blood Servant.

Absolute loyalty, never betraying!

The reason why he had to pack these things was that Knight Anderson had finally found out where Levi was through various means. He was at the Realm of Azure Cloud, Gray Tower.

With the help of his wizard friends, Anderson contacted the messenger of the express delivery company, Owlery, which was a part of the Pan-Plane Wizard Council.

Now, Owlery's messenger had arrived in Flower City.

"I spent a lot of effort to send something to your master," Anderson said with a pained expression.

"With my master's personality, he definitely won't let you suffer. Don't worry." Andrew smiled.

In the end, the messenger of Owlery, a witch wearing a black robe with an owl print on it, put the things that Anderson had packed into a special storage bag.

"Please pay the shipping fee," the messenger said calmly.

Anderson took out a small bag with heartache. It contained a portion of the Aether Stones he had accumulated over the years.

Although he was not a wizard, he had some Aether Stones on him so that he could trade with wizards.

Now, he used it to pay for Levi's delivery.

He had put in a lot of effort for Levi. He knew that Levi was a person who knew how to repay kindness. He was optimistic about Levi's path as a knight and felt that he might be able to help him break through the shackles of the legendary realm in the future!

After she finished collecting the goods, the witch transformed into an ordinary black owl and left Flower City in a hurry under the cover of night.

"Come on, Elder, let's continue playing chess."

"I can't continue anymore. A good friend of mine has woken up. I have to look for him and discuss something. Recently, some Blood Clan juniors have been too restless. Sooner or later, they will bring disaster to our entire race." Year 1019 of the Holy Brilliance Calendar, the Month of Germinal.

In the Realm of Azure Cloud, the edge of the Endless Sea, the Gray Tower.

On the ninth floor of the Gray Tower, the Black Snake seed in Levi's heart was more solid and powerful than last year. Its eyes were more lifelike, and its black scales were glowing.

Today, Levi's Black Snake Breathing Technique finally broke through its limits.

Levi—

Black Snake Breathing Technique: Level 10 (5/200000). Special Effect: Black Scale (Liquid)

The special effect of the Old Mountain Snake Breathing Technique was Rock

Armor. Like Elephant Armor, it overlapped with the special effect of the Black Snake Breathing Technique. Hence, Levi incorporated the Black Snake Breathing Technique into it to break the limit.

Most importantly, there were too few defensive breathing techniques. Levi had no other choice but to fuse with this one if he wanted to break the Black Snake's limit.

This was different from the strength breathing techniques of Ostrich

Mountain, the giant, and the red lotus. Frost Arm strengthened the arms, Flame body strengthened the body, and Ostrich Feet strengthened the legs. In short, each had its own focus and could be used at the same time.

As for defensive breathing techniques, Levi only planned to cultivate his own Black Snake Breathing Technique for the time being. This was enough since he still has wizard spells to use for defense.

"With the high -grade Black Snake Secret Medicine I've concocted, the Black Snake Breathing Technique should reach the peak of level 11 by the beginning of next year. I can also hit the legendary realm after my 30th birthday!" Levi was also slightly excited.

As an ancestral breathing technique, the Black Snake had been cultivated by Levi to a level that no one had ever achieved before or since.

Reaching the legendary level at the age of 30 was an amazing thing. In the human world, it would definitely be a big event in the knights' circle.

Unfortunately, this was the wizards' world. Wizards were busy with their own matters, and powerful wizards had even gone on expeditions to other planes, leaving behind countless legends.

No one cared about a small legendary knight.

As soon as Levi broke out of seclusion, he was called to the Gray Tower's "reception room" by an apprentice.

Levi was puzzled. In this world, the shipping fees were very expensive, and even Levi was reluctant to use them.

It was not that he could not afford it, but he felt that it was not worth it. Instead of spending precious Aether Stones to send breathing techniques from the human world, he might as well spend more time in the world of wizards and find them slowly.

Inside the hut, Levi saw the messenger lady from the Owlery. She was a beautiful witch.

She took out the cheapest storage bag and handed it to Levi.

The price of the storage bag was included in the shipping fee.

In the storage bag, there were a few breathing technique inheritance diagrams, a Core of the Undead, and a letter addressed to Levi..
