Chapter 282: Sacred Dragon Emissary, Favored By The Night (2)

Levi felt that the reason for this phenomenon might be because the attribute of strength was the greatest boost to combat power.

As the saying goes, strength could break all techniques. This caused the mainstream breathing technique to become a strength.

As for the other three breathing techniques, one of them was a shallow-quality breathing technique that Levi was not too interested in at the moment.

There were only two breathing techniques that interested him.

One of them was called the 'Undying Bird Breathing Technique'. It was actually an extremely rare perfect-grade breathing technique, and it was even a relatively rare type of physique.

The other book was the 'Night Owl Breathing Technique'. Although it was only of a shallow quality, it was a very rare Perception technique.

"This Andrew is really good at doing things. In the future, I should give him the title of an excellent employee."

He was in a very happy mood.

Levi was very satisfied with Andrew's delivery this time.

He was especially satisfied with the Undying Bird Breathing Technique. This perfect physique breathing technique should be able to allow Levi to directly cultivate it to the legendary realm.

Undying Bird.

It was a powerful existence in myths and legends. This divine bird was said to be immortal. Every time its lifespan was exhausted, this bird would build a nest with the branches of the holy tree and then turn into a ball of flames. The Undying Bird would be reborn in the ashes of the holy tree in the form of a young bird.

In this way, it could continuously reincarnate and achieve another form of eternal life. It was a little similar to the lighthouse jellyfish in his previous life.

Levi could not help but place high hopes on this breathing technique.

He felt that if he could continuously deduce and cultivate this breathing technique to a level that no one had ever achieved before, would he have the ability to be reborn like the Undying Bird?

Of course, he was just guessing. This ability was too heaven-defying.

Perhaps, only when he reached the realm of the real Undying Bird could he have this ability.

As for a mythical creature like the Undying Bird, it should be on the same level as the Red Lotus. At the very least, it should be at the level of the ruler of the Multidimensional Plane. Levi did not have any delusions now. As long as he could obtain a Transcendent Physique, he would be satisfied.

Among the secret medicines required for the Undying Bird Breathing Technique, there was a main ingredient called the Seven-colored Rainbow Pheasant's Blood.

When Levi was in the human world, he had never heard of such birds.

It should be the same as the Turbellarian Eggs, which didn't exist in the Emerald Kingdom at all, or perhaps in other kingdoms.

In Andrew's letter, it was written that the Undying Bird Breathing Technique was bought by a traveling merchant from an antique shop in the faraway East Pole Empire. Therefore, the source of this breathing technique might be the East Pole Empire.

Andrew had already sent people to the East Pole Empire to look for the secret medicine materials, but there had been no news so far.

"If it really can't be found, then I'll just slowly cultivate. This breathing technique is very important and can't be put aside." "I want to see if I can find it in the Wizard World."

Levi made a decision.

His current physique breathing technique was the Vortex Beast.

The Vortex Beasts were only third-grade excellent quality, and level seven was the highest it could get to.

To Levi, the so-called 'Top-tier Physique' was no longer enough.

As for the other technique, the 'Night Owl Breathing Technique'.

The Night Owl was a legendary creature, a strange bird that appeared in the night. The Night Owl's hearing was extremely sharp, and it was said that it could hear movements from thousands of miles away. It was indeed a 'thousand-mile ear'.

This point was similar to the Man-Faced Spider.

From the Night Owl Breathing Technique's tiny figure pattern, this breathing technique's quality was about the same as the Man-Faced Spider Breathing Technique.

The ingredients needed for the Night Owl Breathing Technique were easy to find, and Levi planned to train it to its maximum level during this period.

With his current realm, it wouldn't take long for him to reach the limit of this level of breathing technique.

In the next half a day, Levi had mastered the Night Owl Breathing Technique.

Three days later, the Undying Bird Breathing Technique was also quickly mastered.

Levi—

[Night Owl Breathing Technique: Level 1 (1/1000)]

[Undying Bird Breathing Technique: Level 1 (1/1000)]

After learning the basics of the breathing technique, Levi asked Manla to inquire about the whereabouts of the Rainbow Pheasant required for the Undying Bird Breathing Technique.

There was no need to waste his precious cultivation time on such trivial matters that could be solved with money.

During the Month of Flowers, Levi also helped Ms. Marlene complete the refinement of a second-circle potion.

After this refinement, Levi's pharmaceutical skills had also reached level six.

This was the limit of a high-level pharmacy apprentice. Any higher and one would be an official pharmacist. Levi—

[Pharmacy: Level 6 (1/40,000)]

Levi's current pharmaceutical skills were second only to Ms. Marlene in the entire Gray Tower, which made Levi's status even higher.

Even the unsmiling Mr. Marko, or Mr. Tim, the meditation teacher whom they rarely met, would occasionally ask Levi to help them refine some potions, and the reward was points.

No matter how busy Levi was, he would always find time to help these teachers refine.

After all, no matter what, it was definitely not wrong to have a good relationship with his seniors.

Moreover, the teachers of the Gray Tower were so good. Even if it was not for the sake of connections and points, Levi was willing to refine for these teachers.

Year 1019 of the Holy Brilliance Calendar, during the Month of Flowing Fire.

Levi cultivated the Night Owl Breathing Technique to its maximum level.

Levi—

[Night Owl Breathing Technique: Level 6 (Maximum). Special Effect: Advanced Hearing, Favored By The Night.]

After Levi practiced the Night Owl Breathing Technique to the maximum level, other than the expected high-level hearing, there was another special effect..
