

Wizard 292

Chapter 292: Advanced To Legendary, His Strength Has Soared! (4)

In this world where wizards were revered, it was not easy to meet a legendary might who was as rare as phoenix feathers and qilin horns.

"I'm the Sighing Sea Breeze wizard, Docket. If you encounter any danger in there, you can look for me. I'll help you settle it within my power." Docket sent a voice transmission to Levi.

Levi looked at Docket and smiled, expressing his gratitude.

Soon, the final step followed the intersection of the Black Fog Realm and the Azure Realm.

An entrance that emitted a strange red light slowly formed in the black fog. Nothing could be seen clearly inside the entrance.

At this moment, a Second-Circle Wizard wearing a starry robe suddenly appeared above everyone. Below him, the endless currents gathered into a water tornado and lifted him into the air. He looked like a sea god descending to the world, looking down at the exploration team below.

"According to our calculations, the intersection of the Black Fog Realm and the Realm of Azure Cloud will last for seven days. In other words, you only have seven days to explore the Black Fog Realm. On the seventh day, everyone will have to gather at the coordinates of the entrance to the Black Fog Realm and leave the Black Fog Realm. Otherwise, you will be left in the Black Fog Realm forever. You can only leave the next time the Black Fog Realm and the Realm of Azure Cloud converge. I think most of you won't be able to live until then."

"According to the Shadow Realm Act, only members of the Pan-Plane Wizard Council and legal organizations are qualified to explore the Shadow Realm. If there are some dark wizards or dark wizard organizations trying to pass off as qualified wizards and sneak in, I advise you to give up. Once I find out, I will not hesitate to kill you."

"Finally, in the Shadow Realm, I hope that everyone can work together to achieve a win-win situation. The Pan-Plane Wizard Council does not encourage malicious killing and competition between wizards."

"However, if your life is forever left in the Shadow Realm for various reasons, the Pan-Plane Wizard Council will not take any responsibility for it, nor will the council initiate an investigation."

"All responsibilities and consequences will be borne by the explorers themselves. Please think carefully before entering."

"Next, I will announce the list of organizations or wizards who are qualified to enter. Those who are not on the list, please leave."

This law-enforcement officer's voice was dignified and his aura was powerful.

He began to call out the names of those who were qualified to enter.

The wizard organizations were called to enter the black hole that was emitting red light under the lead of their respective wizards.

Levi looked at the people who had entered. The words of the law enforcement officer were very clear.

After entering the Shadow Realm, life and death would be disregarded! If he died, the Pan-Plane Wizard Council would not investigate the cause of his death.

Therefore, the greatest danger in this exploration of the Shadow Realm might not be the Shadow Realm itself, but the competing explorers present! To Levi, the main danger was the people on Whale Song Island.

If there was a chance, he had to strike first.

His Black Snake's Message had already collected the aura of everyone present.

Levi had stored all of their auras in his Aura Vault. As long as they entered his range of Perception, he would immediately sense them.

At that time, if the people of Whale Song Island were to scatter or encounter any danger, Levi would not hesitate to beat them up.

"Gray Tower, Levi." The law enforcement officer frowned slightly and called out to Levi. He then asked, "You're the only one from your Gray Tower, right?" "Yes, Lord wizard," said Levi with a smile.

"You may go in." The law enforcement officer did not say anything and let Levi in.

Levi smiled at the entrance of the black hole.

Under his robe, the solid Black Scales had already covered his entire body.

He had even prepared the Golden Protection in his hand.

Once he entered and someone ambushed him, he would activate the seal.

Taking a deep breath, Levi stepped into it and disappeared.

He felt the world spin.

When he reappeared, he was already in a gray fog.

This was the reason why this Shadow Realm was called the Black Fog Realm.

In this Shadow Realm, there was fog everywhere.

The edge of the area was a gray fog. The deeper they went, the darker the fog became. They could not even see their fingers when they stretched out their hands. It was dark without any sunlight.

Levi activated his Advanced Vibrosensing and Advanced Hearing.

Everything around him could not escape his Perception.

Within his Perception, those who had just entered the Black Fog Realm were quickly scattering in all directions to find their targets.

Levi looked at the cave entrance behind him. After marking the coordinates of the cave entrance, he quickly left.

This was obviously not a safe place. When the people from Whale Song Island entered, they might immediately join forces to kill him.

The wizard leading the team on Whale Song Island was obviously a veteran First-Circle Wizard. It was not a wise choice to confront them head-on.

In this Black Fog Realm, there was black fog everywhere. Most ordinary wizard's Perceptions were limited. On the other hand, Levi was like a fish in water due to his various Perception abilities. Therefore, he had to make good use of this advantage and launch a sneak attack on the other party.

Not long after Levi left, Sighing Sea Breeze also came in.

Fist of the Empire's expression was grave as he left the place under Docket's lead.

More and more people stepped into the Shadow Realm. In the end, the people from Whale Song Island were the last to enter.

Bane's expression was calm. He suddenly let out a sound wave that sounded like a whale song. The sound wave traveled through the fog, and ripples spread out..
