

Wizard 293

Chapter 293: Advanced to Legendary, His Strength Has Soared! (5)

"D*mn it, Levi ran quite fast. He has already left Perception of my Whale Song." Bane's expression changed and he couldn't help but curse.

"Teacher, why don't we go inside and explore? Anyway, this Shadow Realm is only so big. The really good things are all in the inner area. When the time comes, we'll definitely meet that kid again," said a high-level apprentice wizard.

His name was Deli, and he had mastered a total of eight cantrips.

'What you say makes sense. Then you shall lie in ambush here. I'll give you a Shifting Scroll. This is a precious second -circle item that Lord Morpheus bestowed upon me. Once Levi returns to the exit, use this scroll and swap me with you. I will kill Levi at lightning speed," said Bane.

"Ah... Should I stay here?" Deli obviously hadn't expected this.

"That's right. The border area is very safe. You don't need to worry too much. You don't need to fight with that Levi. After all, he's a legendary knight. You shouldn't be his opponent. All you need to do is to tear this scroll open when you see Levi. When the time comes, I will make a move. With your strength, you should be able to hold on for a moment against the legendary knight," said

Bane.

"Alright then." Although Deli didn't want to stay here.

However, he did not dare to reject the request of an official wizard.

In the end, Bane brought the other four apprentice wizards and left, heading straight for the inner region.

There was basically nothing good in the border area. The previous explorers had taken it away, so he did not want to waste time here.

Moreover, the people from the Undead Ship had also infiltrated this place. He had to meet up with the people from the Undead Ship. This time, he didn't just want to weaken the strength of the Gray Tower.

If possible, factions like the Sighing Sea Breeze that could negatively affect the plan of Whale Song Island had to be weakened as much as possible in the Shadow Realm.

After all, in this place, if someone killed the other party, the Pan-Plane Wizard Council would not pursue the matter.

In order to obtain more resources, the major wizard organizations would send their most elite First-Circle Wizards and apprentice wizards.

If all these people were left in this Shadow Realm, that would undoubtedly be a heavy blow to these wizard organizations.

Not long after Bane left...

About ten kilometers away from the entrance, Levi's figure was hidden in a tree hole in the gray fog.

The range of Bane's first-ring detection spell, Whale Song, was clearly far inferior to Levi's Black Snake's Message.

He did not sense that Levi was still near the entrance.

Levi walked out of the tree hole and spat out his black snake tongue. He waited until Bane and the others were completely out of his Perception range.

However, there was still a high-level wizard left at the entrance of the Whale Song Island.

Levi knew with his toes that Whale Song Island must have sent people to ambush him, but he did not know what kind of trump card they had up their sleeves.

Levi waited for a while longer.

The wizard was still at the entrance of the realm and had no intention of leaving.

"Hehe, interesting. I am the one who is going to ambush you, right?" thought Levi.

"Unfortunately, in front of my Black Snake's Message, you have nowhere to hide. It was time for the roles of hunter and prey to be swapped.'

Levi's figure leaped and quickly disappeared.

He wasn't in a hurry to head to the inner region. If he didn't take care of the hidden danger of Whale Song Island, he wouldn't dare to go inside to search for the Stone Heart.

Therefore, in the next few days, he would play a game of cat and mouse with the other party.

There was no one at the entrance now.

Most of them had already headed to the inner area.

Only some weak, timid, or people who were up to no good were still wandering around the edge of the entrance.

With the Black Snake's Message and his superstrong Perception, Levi avoided these people and locked onto a single target.

That was the apprentice wizard from Whale Song Island.

With his current strength, he could easily kill a high-level apprentice wizard.

Soon, Levi returned to this area.

He looked up at the foggy sky. The sun was shining high in the sky, but because of the gray fog, there was no warmth.

"Favored By The Night can only take effect at night, but killing an apprentice wizard does not require Favored By The Night."

Levi went into stealth mode. In his mind, he had a small map.

That wizard was standing still in one place.

Levi sneered. He was getting closer and closer to his opponent.

When the high-level apprentice wizard was about half a mile away from Levi, Levi stopped in his tracks. The black gas in his hand condensed into a black blade. Although Levi couldn't see the figure of the

wizard due to the gray fog, he had the Black Snake's Message and Advanced Hearing. Levi had completely locked onto the other party's coordinates.

Now, there was no obstacle between him and the other party. The other party did not see him.

Deli was hiding in a bush not far from the entrance. He was alone in there and was a little afraid.

Therefore, he had been on full alert. He held the casting materials and wand in his hand, ready to cast a spell at any time.

Suddenly, whooshing sounds broke through the air.

In the blink of an eye, the black blade attacked.

With Levi's current level four Black Devil Blade, the black gas could leave his body for more than 200 meters.

At the same time, Levi's Blood Beast Seed exploded, and his blood wings followed closely behind the black blade.

Deli immediately waved his wand and cast a defensive spell. Water enveloped Deli and protected him.

Psh.

The black gas entered the water current and was neutralized by the water current.

Deli did not hesitate to use the Shifting Scroll.

Although he had not seen the enemy yet. However, there was no doubt that the one who ambushed him was the legendary knight of the Gray Tower.

Unfortunately, it was too late. He had underestimated Levi's speed!

After Levi's Blood Beast exploded, their speed was not much slower than the black gas condensing blades. He appeared ten meters in front of Deli, and the black gas formed a long whip in Levi's hand. The long whip tore through the air and lashed out.

He directly sent the scroll in Deli's hand flying.

Then, the long whip coiled around Deli.

Levi was now covered in black scales all over his body, including his face, and his mouth would occasionally spit out a sinister snake tongue.

"Lizardman... A monster? You are a monster!"

How was this a knight? This was clearly a monster.

Deli, who didn't know much about knights, was already scared silly.

If not for the gray moon-patterned robe on Levi's body, he would have thought that this was a monster from the Shadow Realm and not Levi.

Crack, crack.

Levi broke Deli's hands that were trying to cast a spell.

Crack, crack.

He broke both of Deli's legs.

Then, Levi grabbed Deli's neck.

He lifted him up high.

Levi held the Shifting Scroll in his hand.

Then, he opened his mouth and civilly said, "If you want to live, answer whatever

I ask you next."

Deli was firmly restrained by Levi, and his desire to live made him nod without hesitation.

"Why does Whale Song Island want to harm me?" Levi asked.

Deli was shocked. Apart from the higher-ups, only a few people on Whale Song Island knew about this. How did Levi know?

Could there be a mole?

It seemed that the matter had been exposed.

Perhaps Levi and the Gray Tower were already prepared.

No wonder the Gray Tower sent Levi alone.

"Because this is an order from Lord Morpheus. I don't know why Lord Morpheus wants to do this," said Deli.

"Alright, then let me ask you again. Including you, what is the strength of the people who entered the Whale Song Island in the Strange Realm this time, and what spells do they have?" Levi continued to ask.

At this moment, Deli's life was in Levi's hands. For the sake of that sliver of a chance to live, he would tell him everything he knew. Deli did not have the backbone of the grand knight that Levi had met in the mortal world.

In the end, Levi asked everything he wanted to know. He did not kill Deli, but kept his promise and let Deli live.

He only cut off Deli's limbs, leaving him with only a torso, and then bandaged his wounds. Then, he used the Seal of Dragon Might to destroy Deli's mind and spirit, crippling his spellcasting ability. Finally, he poisoned Deli with a slow-acting poison, which would cause him to slowly die in the next few days.

The main reason why Levi did this was because he knew that the official wizard had an item that could sense the life and death of an apprentice wizard. If he found out about Deli's death, he might become alert and it would be detrimental to his actions.

After doing all of this, Levi picked up Deli's storage items, wand, as well as the precious Shifting Scroll, and left..
