

## **Wizard 301**

Chapter 301: Fighting Nightmare Knights, Eliminating Green Ghost Carter, Obtaining the Stone Heart! (2)

The source of the ravings seemed to be the core area in front of them. There seemed to be an indescribable monster unconsciously muttering.

This sort of murmur could only be felt when a Spell Caster like him chanted.

This made it especially tiring for Green Ghost Carter to cast spells every time.

He began to consciously retreat from the inner area.

He planned to return to the outer area first.

Here, his strength could not be fully displayed.

Hence, under the Hell Strongman's protection, he cast a spell and transformed into a wisp of green smoke.

The green smoke flew towards the outside.

Seeing this, Levi immediately used Wind Spirit Protection.

Endless air currents swirled around Levi, protecting him.

He controlled the airflow and rode the wind.

Soon, he caught up to the green smoke.

This time, he had to deal with Green Ghost Carter. Otherwise, how could Levi cultivate in peace with someone thinking about how to harm him every day?

Black blades stabbed into the green smoke one after another, and the screams of Green Ghost Carter came from inside.

"Ahhh! D\*mn it, that old thing Herman really gave you the precious Wizard Tool."

Originally, Green Ghost Carter also had a Wizard Tool. Unfortunately, in order to save his life last time, that Wizard Tool had already been destroyed.

"You're a First-Circle Wizard. Do you only dare to run?" Levi sneered and directly mocked, trying to break Green Ghost Carter's defense.

Green Ghost Carter's defense was indeed broken.

"You d\*mn brat. If it weren't for the fact that the core area is a little strange and affects my spellcasting, you would have died long ago."

Levi frowned slightly when he heard this.

He did not feel anything.

After all, up until now, he had basically only used his Knight ability and had not cast many spells.

"What exactly is in the core area?"

Levi was curious, but he did not want to go to the core area to take a look.

The reason why the Shadow Realm was called the Shadow Realm was because there might be some incomprehensible, strange, and indescribable things happening.

Levi would not court death. To satisfy his curiosity, he went to the core area to die.

After flying for a while, Green Ghost Carter changed many directions. He realized that no matter how he changed his route, that d\*mn brat seemed to be able to lock onto his position.

"That's impossible. I'm not under any tracking spell. Could that guy have a dog's nose?"

The effect of the Green Ghost Carter's flying spell disappeared and it landed on the ground. Although this was still the inner area, it was far from the core area, so it should have less effect on his spellcasting.

Levi rode the wind and arrived. He took advantage of the last moment of the Nine Swords Form to attack Green Ghost Carter with a Golden Cross Slash that descended from the sky.

Green Ghost Carter's body lit up with a dark green force field barrier. At the same time, the Hell Strongman rose from the ground and collided with Levi.

Boom!

Hell Strongman was blasted into the ground and shattered into pieces.

Levi's momentum did not decrease as he charged towards Green Ghost Carter again.

The force field around Green Ghost Carter shone brightly.

However, it was still destroyed by Levi's Golden Cross Slash.

His protective shield shattered.

The moment Levi's Frostmourne split the Green Ghost Carter into two, Green Ghost Carter turned into a ball of green flames.

The green flames were split into two and finally gathered not far away, forming the slightly weak face of Green Ghost Carter.

First-Ring Spell, Body of Ghost Fire.

It could turn the caster into a ball of green ghost fire, immune to most physical attacks and some spell effects. It was similar to elementalization.

As expected of a senior wizard, Green Ghost Carter had already used five First-Ring Spells.

Hellfire Rain, Soul Flame, Undead Summoning, Green Smoke Escape, Body of Ghost Fire!

Levi knew how big the gap between First-Circle Wizards was.

His slightly inflated heart after advancing to legendary was extinguished again.

"Sigh, I'm still too weak."

Levi sighed and charged forward again. "Tsk tsk tsk, you didn't expect this, did you?"

"Next, it will be your nightmare!"

A dark red array began to appear under Green Ghost Carter's feet.

The familiar aura that Levi was familiar with began to appear.

A Hell Knight wearing flaming armor and holding a chain hammer appeared in the array on a Flaming Warhorse.

Second-ring spell, Nightmare Summoning!

This was also Green Ghost Carter's strongest trump card.

Communicate and summon the second-circle transcendent creature from hell: Nightmare Knight!

This meant that Green Ghost Carter would have to recuperate for at least another year before he could recover from the damage to his spiritual force.

But it was worth it to kill this d\*mn kid.

Green Ghost Carter didn't expect legendary knights to be so difficult to deal with.

The Nightmare Knight was wrapped in flames, and even the eternal fog seemed to have begun to dissipate around him.

The terrifying second-circle hell creatures charged over.

Spider Sensing frantically rang the alarm.

Levi did not dare to face the attack head-on and could only dodge.

His Blood Wings Explosion directly relied on the concealment effect of the fog to disappear.

The Nightmare Knight paused for a moment. Its burning eyes seemed to pierce through the fog. After finding its location, it quickly charged in Levi's direction.

He looked at the Nightmare Knight that was chasing him relentlessly. He kept changing his position and relied on his super Perception to shuttle through the fog.

Although this Nightmare Knight was a second-circle transcendent creature, it did not have any spell-like abilities. It should be a pure warrior-type monster like a knight.

Its greatest strength was its unparalleled strength and powerful body..
