

## **Wizard 306**

Chapter 306: Blood Beast Breakthrough, Third Special Effect, Thousand Faces! (2)

There were usually only two possibilities for such a situation.

Firstly, corrupt personnel had appeared in the Pan-Plane Wizard Council, which sheltered many illegal organizations like Whale Song Island. As a result, many wizard organizations obeyed the law on the surface but did some shameful things in secret.

At the very least, there must be some shady dealings in the Star Tower, the management organization of the Realm of Azure Cloud.

Perhaps the Star Tower's law enforcer had already been bribed by some dark wizard organization. Otherwise, it would be very difficult for Green Ghost

Carter to sneak into the Shadow Realm under the witness of a Second-Circle Wizard.

Secondly, there were other non-wizard superpowers secretly supporting this matter, trying to split the Pan-Plane Wizard Council internally and causing conflict and trouble. Although it was relatively safe in the Realm of the Unbelievers, it could not be ruled out that the rulers of the other Multidimensional Planes and even the gods were secretly infiltrating the Wizard World.

In short, this matter was definitely not as simple as it seemed.

Any organization, as long as it was formed by humans, would definitely have the possibility of decay. Wizards were also humans and had seven emotions and six desires, so it was no exception.

Levi believed that the original intention of the Pan-Plane Wizard Council was definitely good. However, after so many years, who knew how many parasites existed in this behemoth?

Levi did not even know if there were different peaks among the Legendary Wizards. He could not understand or imagine the world of the big shots. "Sigh, it's too difficult to cultivate in seclusion."

The cultivation of wizards was similar to cultivation. Wealth, companionship, law, and land were indispensable

It was very difficult for Levi to cultivate alone. It was unrealistic. He would always encounter all kinds of disturbances. It was inevitable.

Levi could only try his best to avoid some obvious disasters and disputes so that he could become stronger as soon as possible.

On the eighth day, the intersection between the Black Fog Realm and the Realm of Azure Cloud had ended. The entrance to the Shadow Realm disappeared into the boundless sea. The next intersection might be a hundred years later, or a thousand years later, and no one would know.

There were still many secrets in the core area.

That strange murmur, that mysterious second-circle creature, what was the source of the black fog?

All of this had nothing to do with Levi.

In the lives of most ordinary wizards, the chances of stepping into the same Shadow Realm twice were very slim.

After returning to the Gray Tower.

Marlene immediately welcomed Levi.

The moment Levi returned alive.

Marlene heaved a sigh of relief, regardless of whether she had obtained the Stone Heart or not.

At least he came back alive. That was good enough.

And with Marlene's understanding of Levi,

Since he was back, he definitely wouldn't return empty-handed. Levi smiled when he saw Ms. Marlene waiting for him.

"How are you? Are you hurt?" Ms. Marlene asked.

She had no children and treated Levi as her own child.

This level of concern touched the soft part of Levi's heart that had not been human for a long time.

"I'm fine, Teacher. I'll be fine after resting for a while. Fortunately, I succeeded in bringing back the Stone Heart."

He took out the large Stone Heart from his ring and couldn't help but show off a little.

Madam Marlene smiled in relief.

"Levi, you never disappoint me. Let's go. I'll take you to the Tower Master," Ms. Marlene said.

He brought Levi to the seventh floor of the White Tower.

The Tower Master was doing some research when Levi came back.

Even with his state of mind, he was slightly nervous.

He saw that both Levi and Ms. Marlene looked serious.

He thought that Levi had not obtained the Stone Heart.

The Tower Master's heart sank and he sighed helplessly.

"You're back safely. Not bad. Although the Stone Heart is difficult to deal with, there's still a chance in the future. I'll halve the points I promised you." He said.

No matter what, Levi could represent the Gray Tower and go to the Shadow Realm alone to find the Stone Heart without an official wizard leading the team. Such courage and boldness were worth the points.

Ms. Marlene burst into laughter.

"I was just teasing you. I got it," she said.

Levi also smiled awkwardly. He didn't like to joke.

But Ms. Marlene was in such a good mood that she joked with the Tower Master.

The Tower Master's face darkened. "Marlene, why are you getting more and more mischievous as you grow up? You weren't like this before."

Ms. Marlene sighed and said, "Other than your brain, you're about to become a metal lump. I'm afraid your heart will also become an Iron Stone Heart. If you joke more, you might be able to maintain a fresh human heart."

The Tower Master was silent. A moment later, he said with a smile, "Don't worry. With this high-quality Stone Heart, I'm much more confident in advancing to the third ring. Don't worry. It's useless to worry."

Levi calmly took out the Ring of the Wind Spirit.

"Lord Tower Master, I'll return this ring to you. After all, it belongs to your lover. It's not appropriate for me to take it. Besides, I've returned safely from the Shadow Realm. I don't think I'll need it anymore." Levi naturally wanted this ring..
