

Wizard 307

Chapter 307: Blood Beast Breakthrough, Third Special Effect, Thousand Faces! (3)

However, when he thought about how this belonged to the Tower Master's lover, he felt uneasy.

The Tower Master shook his head. "Take it. It's a gift. There's no need to be polite with me."

Levi couldn't refuse, so he happily accepted it.

The Tower Master looked at Levi and said, "The Stone Heart is very valuable. Do you want any rewards other than the points I promised you?"

Levi thought for a moment and said, "No."

Under normal circumstances, the resources brought out by apprentice wizards from the Shadow Realm should be handed over to the tower to be distributed uniformly.

However, so far, neither the Tower Master nor Ms. Marlene had asked about his harvest. This meant that they had kept their promise. Levi would enjoy all the resources he brought from the Shadow Realm.

Putting aside Levi's other Stone Heart, just the various resources and items he had obtained in the past seven days were worth thousands of Aether Stones.

Levi had already gained a lot, so he did not covet more rewards.

The leader might just be asking politely. If you really dared to ask for it, your impression of the leader might be greatly reduced.

Levi understood this logic.

The Tower Master smiled and said, "Do you have anything else to say?"

Levi nodded. "Yes, Lord Tower Master. I saw people from the Undead Ship in the Shadow Realm. I don't know how they got into the Shadow Realm.

"Furthermore, I saw the people from Undead Ship mixing with the people from

Whale Song Island.

"The fact that Whale Song Island was mixed with such dark wizard organization members puzzled me.

"Other than that, the people on Whale Song Island are very hostile to me and have attempted to kill me. Therefore, I suspect that Whale Song Island is plotting something and I want to warn the tower about this."

Levi said.

Hearing that, Marlene nodded and said, "Actually, I also have my doubts about Whale Song Island. Other than Angus and the two official pharmacists, only four apprentice wizards, including you and Oliver, know that I was certified as a Second-Circle Pharmacist to refine the Eye Devil's Gaze. The Undead Ship appeared the day after the refinement was completed.

"After some investigation, I could basically confirm that Angus had leaked our whereabouts.

"He looked kind and kind, but he was doing such things behind my back. It really surprised me.

"Levi, after you become an official pharmacist, go to the Star Tower. You can't be at Whale Song Island anymore."

The Tower Master said calmly, "According to my teacher, Salman, after the Pan-Plane Wizard Council was established, some powerful wizards who were dissatisfied with the Pan-Plane Wizard Council ruling the Wizard World went to other Multidimensional Planes and established their own forces. These forces have been secretly supporting the dark wizard organization or some ambitious people to disturb the rule of the Pan-Plane Wizard Council.

"I'm guessing that Whale Song Island must have obtained something to rely on, which is why they dare to do this. After all, they're in cahoots with the Dark Sorcerer Organization. Once this matter is exposed, they'll be severely punished by the Wizard Tribunal."

"Unfortunately, there's no evidence. Otherwise, we could report this matter to the Star Tower and have them investigate Whale Song Island," Ms. Marlene said.

With the clues they had obtained so far, there was a high chance that they would not accept it even if it was given to the Star Tower.

Furthermore, the people from the Star Tower might already be on Whale Song Island's side. If he reported blindly, he might alert the enemy and harm himself.

After some discussion, Levi was no longer worried about this matter.

This was something that the Tower Master should consider.

If a small figure like him encountered a large-scale wizard war, he couldn't turn the tide.

At that time, there was a high chance that he would have to run away with the bucket. Although he liked the Gray Tower, he could not say, "As long as the tower exists, the tower will die."

"If there's such a large-scale wizard war, I might as well return to the human world and hide for a period of time. Although the human world is not suitable for cultivating the path of wizards, I can still cultivate the path of knights.

"When the battle is over and the storm is over, I'll come back. As long as there's life, there's hope."

Levi comforted himself.

Of course, if it was only a small-scale battle, he still had to help the Gray Tower tide over the difficulties if he could help.

"After killing so many people from Whale Song Island, I wonder how Whale Song Island will react."

Levi shook his head. Too many things have happened recently. He planned to cultivate in the tower for a period of time.

He had to cultivate the Undying Bird Breathing Technique as soon as possible and break through to become a high-level apprentice wizard as soon as possible.

Back on the ninth floor of the Gray Tower.

Levi closed the door.

He lay on the bed and slept soundly for three days.

In the Shadow Realm, he explored high-intensity and high-pressure for seven days without any rest. Even though he was a legendary knight, he was exhausted both physically and mentally.

Three days later, Levi, who had been resting, was woken up by a knock on the door.

He opened the door. It was Senior Sister Winnie.

"Junior Brother, I've successfully constructed a first-circle spell model. I think I'll be able to become an official wizard in a year or two after I polish my spiritual force and state," Senior Sister Winnie said happily. She had learned the Meditation Art since she was a child, and it was a triple affinity talent. Now, she could finally touch the threshold of an official wizard..
