

Wizard 313

Chapter 313: Level 10 Red Lotus, Fireplay Master! (3)

The rest would take time to polish.

At the thought of this, Levi decided to leave the trial. He planned to go to the academy to see if there were any Burning Faction Meditation Arts. He would make use of his Dance of the Fire God Special Effect so that he could learn Burning Faction spells in the future.

After walking around, he did not find a Burning Faction Meditation Art.

He wanted Manla to keep an eye out for him, so he went to the White Sail Alley. However, he found that in the material store, Manla's original position had been replaced by an unfamiliar female apprentice wizard.

"I'm sorry, where did Manla go?" Levi asked.

"Sir Levi... Manla said that he went home to visit his family. He might take a few days to come back. Oh right, he asked me to pass these things to you. I wanted to give them to you earlier, but I heard that you were in seclusion, so I

Didn't dare to disturb you."

The new store manager raised her head and smiled. Then, she handed over a very small storage bag.

"Thanks a lot."

Levi was deep in thought as he left with the storage bag.

After returning to the ninth floor of the Gray Tower, Levi opened his storage bag.

The space inside was not big. It contained three breathing technique inheritance diagrams and various materials that Levi had asked Manla to help

Him collect previously.

There were three breathing technique inheritance diagrams, two shallow strength-type breathing techniques, and one shallow speed -type breathing technique. Levi silently kept them for future use.

In the interlayer of the inheritance diagram, there was another message written by Manla.

"Sir Levi, I'm sorry. Forgive me for leaving without saying goodbye. Something happened to my daughter, so I left in a hurry. The storage bag is filled with the things you asked me to collect previously. These things are not worth much. The handling fees you paid me previously are enough to pay for them, so there's no need to pay extra. Thank you for taking care of me during this period of time. I survived the most difficult period..."

After reading the letter, Levi sighed in his heart.

Manla was a good partner and reliable.

From the looks of it, his daughter seemed to be in trouble.

As far as Levi knew, Manla's daughter was a triple affinity wizard.

Unfortunately, among the three elements, there was no key water element affinity.

In this Realm of Azure Cloud, where almost all members of the Ocean School of Thought were present, this was undoubtedly the most speechless thing.

Originally, his daughter could shine in the Gray Tower. If she studied here, Manla could also take care of her. However, the heavens were not happy.

Manla had no choice. In order not to waste his daughter's talent, he spent a lot of money and asked someone to find a Burning Faction wizard in this sea.

Although this wizard was not from a wizard organization, he was still a famous official wizard. His strength was probably not much different from Green Ghost Carter.

He lived on the Black Fire Island thousands of miles away and had more than ten apprentice wizards under his command.

Manla's daughter was one of them.

Manla did not mention the name of this wizard. He only said that he was a senior first-circle wizard.

Levi was helpless in this situation.

"I have no choice. I'll go to the Blacksail Wizard Market myself. I've been in the Gray Tower for so long, but I haven't been to the market yet. I happen to have money recently, so I might as well buy one or two Wizard Tools to increase my strength."

Levi sighed. It was not easy to find a reliable partner. He only hoped that Manla would come back soon.

After making some preparations, Levi sat on the Dragon King Whale Leviathan and left the Gray Tower.

Levi's current strength could be said to be below that of a Second-Circle Wizard. Only a senior first-circle wizard could contend with him. Therefore, he was not as afraid as when he first entered the Wizard World.

He had to be careful and keep a low profile. Levi was basically safe in this sea area.

He went to the Blacksail Wizard Market this time because he wanted to find a Burning Faction Meditation Art that could be cultivated to at least the first circle. Secondly, he wanted to buy a few Wizard Tools and collect some potion materials for Naga's Blessing, breathing technique inheritance diagrams, and so on.

Levi was rich now. He had 8,000 Aether Stones on him.

This money had to be converted into actual combat strength as soon as possible. The Aether Stones would not generate interest in the storage bag.

In the Gray Tower, there were no Wizard Tools for sale. Official wizards usually only had one or two Wizard Tools with them. They used them themselves and no one took them out to sell.

Currently, among the four official wizards of the Gray Tower, there were no wizards who were proficient in the art of crafting. Like pharmacists, craftsmen also needed to pass down their skills. Furthermore, it was also a very

Expensive profession that was very difficult to form.

Therefore, Levi could not buy a Wizard Tool here even if he had money.

Levi only had two Wizard Tools on him.

Pot of Equal Value and Ring of Wind Spirit.

Among them, the Pot of Equal Value, the Wizard Tool, was useless to Levi so far. After all, its creator had only created it to provide shelter for the creator's family in the mortal world.

For Levi, who had already entered the Wizard World and was as strong as a First-Circle Wizard, this snuff bottle could only be used as a chamber pot at most. The knight breathing techniques inside had already been extracted by Levi during this period of time. Tuten had been squeezed dry.

Therefore, the only Wizard Tool that Levi could use now was the Ring of the Wind Spirit.

For Levi, one Wizard Tool was obviously not enough if he were to encounter an intense and prolonged battle.

Levi might only be an apprentice wizard now, but because of his identity as a

Legendary knight, those who came to trouble him were basically all official wizards..
