Chapter 314: Level 10 Red Lotus, Fireplay Master! (4)

Levi had already offended Undead Ship and Whale Song Island, so he had to prepare more Wizard Tools.

It would be best if he was like Old Demon Han, full of treasures.

To put it bluntly, in the Wizard World, apart from realms and spells, equipment was also very important.

Previously, Levi did not have money, so he did not dare to hope for equipment at the level of a Wizard Tool.

Now that he had money, he should buy it and spend it.

The Special Effect was activated, and Levi transformed from a brawny man of

2.5 meters to an ordinary wizard of about 1.8 meters tall.

His silver-white hair was draped over his shoulders. He tied it up and turned it into a capable bun.

The beard on both sides revealed the vicissitudes of life, and his face was as sharp as a knife.

Instead of wearing the Gray Tower's robe, he wore an ordinary hunting suit, looking rather handsome.

He turned into a witch pile driver in a game in his previous life. Unfortunately, there were no Gwent cards in the taverns in this world.

"Tsk, tsk, tsk. I'm really White Wolf Geralt now. I don't even need to wear a mask. I'm the real deal."

Levi was overjoyed.

"The third Special Effect of this Blood Beast Breathing Technique is simply a necessary skill for lawless fanatics."

Levi was different now. He was quite famous in this sea area. Therefore, when he went out in the future, he would go out with different faces so that he would not be easily found by his enemies.

Of course, if the enemy was very familiar with his aura, then his disguise shouldn't be able to hide from them.

However, that was unlikely.

In short, after this complete transformation, Levi's safety was greatly improved.

The Blacksail Wizard Market was a distance away from the Gray Tower.

Levi rode the Dragon King Whale for about a day.

In the distance, he saw the island covered in black forests like a giant sail, towering over the sea.

This island was much larger than the island where the Gray Tower was located.

This was Blacksail Island, the largest wizard market in this sea region. It was the trading center for large amounts of Casting materials, sea beast meat, and cultivation resources.

The breathing techniques that Levi had asked Manla to find previously were basically obtained from the Blacksail Wizard Market.

Therefore, he was also interested in seeing if he could find some breathing techniques that were useful to him in this market.

When they were still some distance away from Blacksail Island, Levi asked Leviathan to wait for him in the Deep Sea. Leviathan was one of the signature characteristics of the legendary knight Levi. Some people had already given him legendary titles that he despised, such as "Whale Knight" and "Dragon King Knight".

Hence, in order to avoid attracting the enemy's attention, Levi chose to swim over.

In the Blacksail Wizard Market, there were law enforcers from Whale Song Island. Levi did not want to expose himself to the enemy.

Levi could hear the sounds of hawking coming from the Blacksail Wizard Market with Advanced Hearing.

It was as if he was dreaming of his childhood when he was at the market in the town.

"Silver-Scaled Wizard Robe. Five Aether Stones for one." "Moonlight Greatsword, Ten Aether Stones for one!"

"Sea beast meat! Selling at a low price!"

It had been a long time since he had felt such an atmosphere, and he couldn't help but smile.

As expected, this Blacksail Wizard Market was also filled with the aura of the mortal world.

As soon as Levi landed on the island, a group of people surrounded him. "Buddy, I have a top-notch Sealion Potion here. Do you want it?"

"Don't."

"Hey, take a look... This is good stuff. Eating it can increase your strength by

500 kilograms out of thin air. It can even strengthen your aphrodisiac."

"Get lost."

Levi frowned and said coldly, releasing a trace of his aura.

He wanted to chase away these fake pharmacists who sold fake medicine.

He had long known that there were many pharmacists selling fake medicine in the Blacksail Wizard Market. These pharmacists often did not have a certified identity in the Pharmacist Association, nor did they have a true Pharmacy level. The medicine they refined could not be sold through various formal channels. They could only set up stalls in such markets or find people to sell it on the streets.

Levi was a high-level pharmacy apprentice himself, and he was not far from becoming an official pharmacist. Whatever potions he lacked, he would refine them himself and be self-sufficient. He would not buy potions refined by others at all.

Especially this kind of untested potion, he would not even use it.

If he was a fledgling who had just entered the Wizard World and came to the Blacksail Wizard Market as soon as he entered, he would definitely be deceived by all kinds of scammers here.

Fortunately, Levi had been in the Wizard World for a long time and was familiar with all kinds of common sense. Hence, he completely ignored these swindlers' bragging.

Levi scanned the stalls in the bazaar.

Basically, very few people bought the breathing technique inheritance diagram.

This was the Wizard World. Everyone had come here for wizards. Only mortals cultivated the path of knights. This was what most people thought.

Since Levi was free for the next two days, he was not in a hurry. He strolled around the market to see if he could find something good from the stall.

In the end, after he had almost finished shopping at all kinds of stalls, he also had a small harvest.

In terms of breathing techniques, he found three shallow breathing techniques. One was for strength, one was for speed, and the other was for defense. Other than defense, Levi was not in urgent need of anything else.

The Black Snake Breathing Technique, which was at the limit of level 11, required a total of 10 points. This meant that he needed 10 Maximum Level 4 defensive breathing techniques or two Maximum Level 8 defensive breathing techniques..
