

Wizard 315

Chapter 315: Level 10 Red Lotus, Fireplay Master! (5)

It was indeed not easy to gather them in the world of wizards.

He felt that the person with the greatest hope was Andrew in the human world. If Andrew could find the breathing technique of the Giant Iron Crocodile family, he would be able to provide six breakthrough points.

In addition to the gains from the breathing technique, Levi also found some ingredients to refine Naga's Blessing potion. He was about to advance to become a First-Circle Pharmacist. He had prepared the ingredients in advance and could start refining after he advanced.

The Naga's Blessing was a very complicated potion. Among the first-circle potions, it was one of the more difficult ones. In addition to the three main ingredients, it also required 13 secondary ingredients.

Previously, Levi had only collected eight types and was still short of five. After he finished shopping at the market this time, he had also gathered them.

Next, he only needed to prepare the Gray Naga's Tears and Beak of the Bird of Joy.

Such a precious main ingredient could not be bought at these stalls. It could only be bought in large shops or auctions opened by wizard organizations.

Levi did not waste any more time.

He was holding a map of the Blacksail Wizard Market.

He found the most luxurious shop here.

Celestial Circle Shop.

The Celestial Circle Shop was an industry under the Star Tower. It was only one of the branches in the Blacksail Wizard Market.

The Celestial Circle Shop's status in the Realm of Azure Cloud was almost equivalent to an official shop. The quality of the items produced here was basically no problem. Otherwise, it would destroy the Star Tower's golden signboard.

Of course, the items inside were slightly more expensive than the ones outside. However, Levi was not short of money, so he walked in boldly.

"Hello, server 007 of the Star Ring Shop, Irene, is at your service!" A witch with a sweet voice and sexy clothes came up to them. She was wearing a translucent black silk robe, which was rare in the Wizard World, and a short, low-cut wizard robe. She looked innocent and seductive.

Beautiful salegirls could promote male customers' spending, and it was the same in the Wizard World.

Celestial Circle Shop in Blacksail Wizard Market had the most comprehensive collection of items, so Levi directly made a list of what he wanted to buy and handed it to witch Irene.

"Wow, this customer wants to buy a lot of things." Irene covered her mouth and said pretentiously.

The items on the list were very complicated. There were Wizard Tools, breathing technique inheritance diagrams, Meditation Art, spell books, potion materials, and even alchemy materials such as mithril and Luminant gold.

Irene took out a piece of parchment. She chanted an incantation, and the list of goods from the Celestial Circle Shop began to appear on the parchment.

Then, Irene glanced at it and said, "I'm sorry, we don't have the breathing technique inheritance diagram. We don't have the Gray Naga's Tears for the time being. We have everything else. Let me show you around our Wizard Tool shop first. See what you need."

Irene was extremely excited to see such a rare customer. She pulled Levi's arm with noble etiquette and went to the Wizard Tool Shop on the second floor.

As long as Levi bought a Wizard Tool, she could get a 1% commission.

That was at least a few Aether Stones. For an ordinary witch like Irene who had no ambitions, this sum of money was enough for her to buy some beauty potions that she liked.

In the Wizard World, not everyone yearned to become a powerful and knowledgeable wizard. Many people like Irene lived a frivolous life because of the talent of the Children of Chaos.

Essentially, most ordinary apprentice wizards might only be a little stronger than ordinary people in terms of temperament, or rather, there was no difference. Especially the second generation who were born in the Wizard World, such as Winnie, who had basically stayed in the wizard tower since she was young and had never experienced the struggles of the mortal world. She had never seen the dangers of the world and was too naive most of the time.

In Levi's opinion, these people were far inferior to the grand knights in the mortal world, let alone the legendary knights.

In the Wizard Tool Shop.

Levi looked at the few Wizard Tools in the window and couldn't help but shake his head.

All in all, the sea area where the Gray Tower was located was still too backward.

As the largest shop in this sea region, there were only a dozen or so Wizard

Tools sold inside. This also meant that Wizard Tools were precious and rare.

[Giant Squid Ring—first-circle Wizard Tool]

[Main Function: Storage, Defense] [Solidification spell: First-Ring Spell—Encirclement of Giant Demons]

[Price: 800 Aether Stones]

Levi immediately noticed the ring that looked like an octopus sucker.

Although he had the Ring of the Wind Spirit now, he still felt that his storage space was not enough. Compared to bag-type storage items, Levi preferred ring-type items. They were more convenient and flexible and had more space.

Of course, ring-type storage items were also more expensive.

Because the manufacturing process of storage rings was much higher than that of bags, all storage rings started with first-circle Wizard Tools and were sold for hundreds of Aether Stones. A ring like this, which had been solidified with other practical spells, was even more precious.

"I'll get this."

Levi pointed at the Giant Squid Ring.

His ultimate goal was to fill all ten of his fingers with spatial rings and become a Ten-Ringed Knight to maximize his storage ability. This would make it easier for him to shoplift in the future.

The witch Irene looked excited.

"Hehe, I got eight Aether Stones. Is this the world of the rich?" The witch Irene couldn't help but feel envious..
