

Wizard 323

Chapter 323: Saint Ape Emperor Mu, Black Snake Levi, Supreme Knight, King of the Century! 5

The nine black gas longswords wielded by the three-headed and six-armed Asura evil spirit transformed into flaming longswords! The furious flames of the Red Lotus burned everything in its path!

"Break through!"

Levi stabbed out with the Poseidon Trident, unleashing blinding light!

The nine swords brandished red lotus flames!

The Nine Swords Asura evil spirit completely tore apart Kane's defensive spells!

Levi's Poseidon Trident pierced Kane's heart, crushing it and creating a gaping hole in his body.

The blood of the Fireplay Master splashed on the surface of the sea!

Levi quickly looted Kane's possessions while the Saint Scorpions devoured Kane's soul.

He then embalmed Kane's body and buried it on the island.

Levi did not dare to bring the corpse of a member of the Pan -Plane Wizard Council with him.

If the Pan-Plane Wizard Council planted a tracking mark similar to that of Kane's son on Kane's body, then Levi would be courting death if he carried the corpse around with him!

After his encounter with Kane, Levi learned to be even more cautious.

There were too many strange spells in this world. He must not be careless!

He planned to revisit this island after some time.

If Kane's body wasn't taken away by then, it either meant that the Pan-Plane

Wizard Council did not investigate his death or that they couldn't find his body.

By then, the prosecution period would end, and Levi could turn Kane's corpse into a living dead.

He would then have Green Ghost Carter and Kane the Fireplay Master as his left and right guardians. With the Rock Troll couple, Levi would be more than halfway to achieving his dream of assembling the Seven Generals of the Living-dead Family.

When the time came, he would be almost invincible among those at the second-circle!

Following Kane's death, the tracking mark Kane left on Levi's chest completely disappeared.

Levi inspected himself and found no other strange marks. He heaved a sigh of relief.

He recalled the corpses of the Rock Trolls that had fallen into the sea. The adult

Rock Trolls had a solid defense that could match his own Solid State Black Scale. Although they were injured after taking a big fireball head-on, they could still be used.

The two small Rock Trolls had turned into piles of charcoal, so they were utterly useless.

He sighed. He had wanted to reunite their family, but his plan was thwarted because of this damned Kane!

Levi then took out the energy core from the dead Hell Strongman. He also erased all traces that might have exposed his identity as a legendary knight, leaving only some traces of the spell of the Undead Ship to mislead anyone who came searching for Kane.

After doing all this, Levi changed his appearance and left on the Dragon King Whale.

Along the way, Levi took some long detours and changed his appearance many times to prevent being followed.

In the end, three days later, he returned to the Gray Tower safely as Levi.

After this battle, Levi had killed yet another experienced First-Circle Wizard.

The path of a knight was promising!

Levi managed to loot many items from Kane.

He got 6,000 Aether Stones, an amount which far exceeded any previous harvest.

Kane the Fireplay Master was rich.

Levi was grateful for his patronage.

This harvest was almost equivalent to Levi's harvest from exploring the Shadow Realm.

Kane had earned a lot just by collecting tuition fees. It was no surprise that he had so much money.

Rumor has it that he had come up with all sorts of excuses to collect tuition fees from his apprentices. He also often held lectures to earn money. There weren't many wizards from the Burning Faction in the Realm of Azure Cloud anyway. Even if Kane was teaching incorrect material, no one would know. Just like that, Kane swindled many people, earning a fortune in the process. Therefore, Manla was always worried about her daughter's tuition fees.

Levi muttered, "Sigh, I wonder how Manla is doing."

He suddenly remembered that since he killed Kane, Manla's daughter would have a problem going to school.

However, he couldn't care less.

The situation was unexpected. Levi had to do this to save his own skin.

Besides Aether Stones, he also found an offensive Wizard Tool on Kane, the Fire Snake Bracelet.

This was a Wizard Tool in the shape of an Ouroboros bracelet.

He could use the bracelet to cast the First-Ring Spell, Fire Snake Dance!

It should have additional uses, but Levi had yet to figure them out.

Levi put it away for now, saving it for future use.

He looked at the big hole in the carpet with a regretful expression.

Kane's carpet was the most valuable Wizard Tool he had.

It was the Flaming Carpet, a first-circle Wizard Tool.

This Flaming Carpet was made from the fur of a particular precious first-circle sea beast. It had extreme defensive power and could resist the impact of ordinary First-Ring Spells. It even had two solidification spells, Flaming Shroud and Fire Sky Dance, enchanted on it. One was a defensive spell, and the other was a flying spell.

In the Celestial Circle Shop, this Flaming Carpet could be sold for at least 1,000 Aether Stones.

Unfortunately, the Flaming Carpet had been pierced by Levi's Poseidon Trident. However, it was not too heavily damaged. It could still be repaired, but perhaps only a specialized blacksmith could succeed in doing so.

Levi could only put it away for now and see if he could find a way to repair it in the future.

His final spoils from the battle were Meditation Art, spell books, and casting materials.

The Meditation Art he obtained was the most common Sun Meditation Art of the Burning Faction. It was similar to Levi's Deep Sea Meditation Art and Earth Meditation Art. All three of them were the most basic Meditation Arts, but they were also the most practical ones that had withstood the test of time..
