

Wizard 325

Chapter 325: Saint Ape Emperor Mu, Black Snake Levi, Supreme Knight, King of the Century! 7

He made sure he was in peak condition before setting off.

He went to a small island located in the uninhabited sea between the Gray Tower and the Sighing Sea Breeze.

The night sky was as dark as the water below, and the sea's surface was calm.

The waves crashed against the rocks on the shore.

Fist of the Empire sat patiently on a boulder on the deserted island. His imposing body seemed as stable as the boulder under his feet. He stood firm and unmoving as the waves hit him.

The Dragon King Whale broke through the waves on the sparkling sea surface in the distance. Whale Knight Levi stood majestically on its back.

"You have come."

'Yes.' "Are you ready?"

"Of course."

"I'm Emperor Mu, legendary knight and Storm Destroyer of the Tuva Empire!

Do you have any legendary titles?"

Levi replied, "I don't have legendary titles. I'm just a nobody. If I were to claim a title, I would be a supreme knight. By the way, aren't you of Storm's Birth?"

How did you become a Storm Destroyer?"

"That's a thing of the past. From now on, I'm no longer Fist of the Empire. I'm just Emperor Mu, the gravedigger of the Church of Storms! Speaking of which, the title of supreme knight is not bad. You and I are both the pinnacle of knights. I am not overstepping my boundaries by calling you a friend, right?"

"Hahaha, of course not. I think that compared to friends, soulmates sound better."

"Soulmates?"

"Yes."

"Soulmates...Interesting. Soulmate, please enlighten me in this battle!"

"Come on, our battle will be legendary!"

Levi stepped on the Dragon King Whale and leaped dozens of meters onto the island. He was like a hungry tiger pouncing on its prey.

Emperor Mu laughed out loud and pounded his chest. Rumble! Thunder rumbled, and the sound of a war drum reverberated throughout the area.

He stood up, and the island seemed to shake. The huge rocks under his feet shattered into pieces.

Levi's body was covered in layers of Black Scales. He flicked his tongue and looked at Emperor Mu menacingly.

The latter commented, "Black Scales. I have never seen such black gas in the

Tuva Empire."

Emperor Mu's expression was calm. Countless black fur appeared on the surface of his body. His back became broader, and his chest became thicker.

He transformed into a huge black ape.

He explained, "The breathing technique I cultivate is called the Saint Ape

Breathing Technique! In ancient times, only the Red Lotus Breathing Technique of the Red Lotus family could compare to it. Since you have cultivated to the legendary realm, your breathing technique must also be famous."

Emperor Mu, who was akin to a giant black ape, clenched his fist and punched back at Levi's black fist of scales.

Levi did not want to reveal too many breathing techniques before Emperor Mu. After all, the latter was different from other enemies he had encountered. He understood the way of the knight well. Thus, Levi had only used this breathing technique for now. He had been battling with the Level 11 Black Snake Breathing Technique.

The legendary clash was epic!

Levi laughed loudly, his aura piercing the heavens.

He said, "Emperor Mu, you still don't understand. The quality of the breathing technique means nothing. All past glories will eventually be forgotten. I believe you also feel it; being a legendary knight is not the limit for us. I, Supreme Knight Levi, will never be satisfied with being a legendary knight. I want to surpass wizards with the body of a knight and be on par with the gods!

"Emperor Mu, I wish to establish an organization called the Twilight Knights.

"After this battle, I wish to invite you to join this organization. We can interact and improve ourselves together.

"So far, there are only two people in this organization, the Blood Knight and me.

"Emperor Mu, will you accept my invitation?"

The two muscular men were locked in a fierce fight.

Levi had gradually acknowledged Emperor Mu. During the war, Levi had an idea. He wanted to establish a force entirely made up of legendary knights. He wanted to invite like-minded legendary knights to exchange their experiences and breathing techniques to seek more breakthrough possibilities!

"Very good, you're crazy enough to want to break through that legendary shackle. Levi, I, Emperor Mu, have acknowledged you! I will join the Twilight

Knights. By the way, did you say that the Blood Knight is in this organization? Wasn't he dead? Can you bring me to meet him? He was my idol when I was young!"

Emperor Mu was in disbelief.

As Levi exchanged punches with Emperor Mu, he said with a straight face, "Yes, the Blood Knight is also part of the organization, but he is in the human world now."

Levi did not care whether the Blood Knight agreed to this or not. He would pull the latter into the team first. The title of Blood Knight was much more influential than Levi's title.

Moreover, that old man would definitely be eager to join such an organization that promoted exchanges among legendary knights.

Levi would inform the Blood Knight about this later.

"Alright, stop talking. Let's fight seriously! I'm going all out now!" Emperor Mu said. His body expanded again. The violent ape shook the mountains and the earth, and his menacing fist swung toward Levi.

"Good punch!" Levi's Solid State Black Scales clashed against each other, creating noise.

The black-scaled fist and the furry palm collided again. The shockwave from their collision swept up the sand and dust on the island.

Levi's defense was more robust, but Emperor Mu's strength was greater. Although Emperor Mu's attacks were fierce, Levi always managed to neutralize them.

The two of them had their own advantages and disadvantages. It was difficult to determine who was stronger.

However, Levi had yet to use the Golden Cross Slash and the Nine Swords Form.

Moreover, the later it was into the night, the Special Effect, Favored By The Night, gradually increased. When midnight arrived, Levi's condition would reach its peak.

Until now, Levi had only been testing the waters with Emperor Mu.

The two moved around the island, destroying everything in their path.

In the vast Endless Sea, the battle between the two legendary knights, which was a rare sight, was happening fiercely without an audience.

This would be a dazzling and unparalleled battle in the human world! It was a significant event that could be recorded in the annals of history and praised by countless bards!

Unfortunately, this was the Wizard World.

In the eyes of the proud, powerful, and busy wizards, legendary knights were insignificant.

At this moment, Levi and Emperor Mu, who were struggling at the bottom of the Wizard World, felt mutual appreciation.

Even burly men like Levi and Emperor Mu were sentimental!

The two insignificant yet legendary figures clashed repeatedly, but it was difficult to determine a victor between them.

Levi could tell that Emperor Mu had learned a lot of breathing techniques, but they were all superficial, Non-bloodline Breathing Techniques. It seemed that Emperor Mu also wanted to become an all-rounded warrior or surpass the level of a legendary knight by learning other breathing techniques.

Unfortunately, Emperor Mu did not have the proficiency panel and could not break through the shackles of his bloodline. Therefore, Levi did not use the Red Lotus, Blood Beast, and other breathing techniques to bully Emperor Mu. It would be meaningless to bully a soulmate like that.

The battle continued, and as the night grew darker, Levi's body became stronger and stronger under the Special Effect, Favored By The Night.

He honestly didn't want to become stronger, but this passive effect was beyond his control.

On the other hand, Emperor Mu was finding it more and more challenging to keep up.

When it was almost midnight, Levi sighed internally. Then, his fighting spirit rose, and he laughed loudly. He did not put a lot of force into his Golden Ripple Divine Palm, but it still managed to deliver a solid blow to Emperor Mu. Emperor Mu flew backward, spat out blood, and fell into the sea.

Levi noticed that Emperor Mu's blood seemed to be faintly golden. He did not say anything about it. Instead, he smiled and declared, "I won today's battle!"

Levi slapped the island with all his might with his Golden Ripple Divine Palm, which had reached its peak state under the effect of Favored By The Night.

Crack!

Ripples propagated, and the ground cracked apart like spider webs as seawater poured in.

The island was shattered.

The winner of the legendary battle between Saint Ape Emperor Mu and Black Snake Levi was supreme knight Levi!
