Chapter 327: Level 7 Cross Slash, Golden Revolving Slash! 2

Levi wanted to establish an alliance with legendary knights because he wanted to rely on their strength and connections to collect more and better quality breathing techniques. They could also exchange their ancestral Bloodline Breathing Techniques with each other. Regardless of whether they could cultivate these techniques or not, they could use them as references.

Of course, Levi had some selfish motives. He certainly coveted the breathing techniques of other legendary knights. However, he truly wanted to create a supreme path for knights.

He had also fantasized about someday becoming the supreme leader and guide for all the knights. Powerful, loyal, and determined knights would back him. They would form their own knight regiment. Like him, they worked hard on the knight's path and constantly strived to become stronger. One day, such a humble knight order would live up to its name, the Twilight Knights. They would instill fear in the rulers of the Multidimensional Plane and even the gods, bringing about their end.

On the surface, Levi was just an ordinary, struggling wizard in the Wizard World.

In secret, he was the only light in the entire knight world! Like the Black Snake with a candle, he would illuminate the path for others!

Levi stopped his unrealistic fantasies and came back to reality.

He returned to the ninth floor of the Gray Tower and took out Golden Knight Gregor's sword technique that Emperor Mu had given him.

He flipped through the ancient book page by page, comprehending its characters and patterns. When he saw parts that interested him, he even practiced the technique with Frostmourne that he had reforged with luminant gold.

Unknowingly, three days passed.

Levi was utterly absorbed in his sword technique cultivation.

Ever since he cultivated the Golden Cross Slash to the peak of Level 6, he also gained an understanding of the Supreme Spin.

However, it always seemed just out of reach.

He was enlightened now that he had comprehended Golden Knight Gregor's sword technique.

Levi finally mastered the Supreme Spin.

He laughed heartily and sang as he swung his sword.

He thrust out Frostmourne.

Countless air currents and ripples swirled at the sword's tip, which was shining with a golden light. It was like a golden sun that would never stop spinning. Its light was piercing and brilliant!

Like a dragonfly skimming the water, Levi lightly tapped his sword on the training room's wall.

Then, the golden light spiraled on the wall.

After Levi retracted his sword, the golden light did not dissipate; it continued to spin.

Levi stared at it quietly.

He muttered, "So this is the Revolving Force."

Levi had applied only a little bit of Revolving Force.

However, the force seemed infinite.

The golden light continued to spin on the wall.

It was like a spinning black hole, moving rhythmically as it drilled deeper into the wall.

This sturdy wall, specially made for apprentice wizards to test the power of their spells on, was completely penetrated by the seemingly weak golden Revolving Force.

Only then did the golden Revolving Power slowly dissipate into the void, leaving behind ripples.

Levi speculated, "If I applied more force, this Revolving Force would have lasted longer and be even more terrifying." A black bird's eye peered through the hole.

The Black Flame Demonic Bird was dumbfounded.

It wondered, "What is Levi doing?"

Levi used some snacks to appease the frightened Black Flame Demonic Bird.

Only then did it calm down.

Levi declared, "This is the Golden Revolving Slash, the highest realm of the Golden Cross Slash!"

Levi opened his proficiency panel.

The Golden Cross Slash's interface had already changed.

[Levi]

[Golden Cross Slash: Level 7 (Maximum)]

[Special Effect: Advanced Vibrations, Advanced Waves, Golden Revolving Slash]

[Golden Revolving Slash: An unparalleled technique. After exerting force, the Revolving Force will last for a long time. This special effect cannot be leveled up, but its power and endurance will increase as your strength increases.]

After nearly 20 years, this powerful sword technique created by Golden Knight Gregor had finally been comprehended by Levi to the highest realm, the Golden Revolving Slash.

The Revolving Force was even more powerful and magical than the Ripple Force.

It was truly extraordinary. Golden Knight Gregor had managed to exceed the ordinary even though he was just a mortal knight.

Levi could not help but think of Sir Fred.

He lamented, "It's a pity that my comprehension took so long. If Sir Fred saw that I've mastered this supreme Golden Revolving Slash, he would have been extremely gratified."

This was his biggest regret.

No matter what, achieving this breakthrough was a timely help to Levi, who desperately needed strength.

Moreover, although the special effect of Golden Revolving Slash could not be leveled up, its power was linked to his strength attribute.

In theory, if he was strong enough, the revolving force could be sustained for an almost infinite amount of time!

Yet alone luminant gold, even the most formidable defense in the world, or even the world itself, would be destroyed by this endless revolving force.

When he fought with his enemies in the future, Levi only needed to use Golden Revolving Slash on his enemies, and he could escape.

After a while, his enemies might be killed by the Golden Revolving Slash.

After the battle with Emperor Mu, Levi had nothing else to do.

During this time, he had been cultivating in the Gray Tower in peace.

Occasionally, he would help Ms. Marlene refine potions and do some apprentice work.

The Tower Master had been in seclusion recently, and no one knew when he would develop that Alchemy Style..
