

Wizard 338

Chapter 338: Group Advancement! Dragon Spine, Lifting Beams, Burning Blood Ember! (3)

"If a powerful Dark Wave creature attacks Heavenly Mountain one day, I'll see if I can take the opportunity to fish in troubled waters."

Levi temporarily suppressed his thoughts about the Van Helsing family's inheritance.

In any case, he now had the Dance of the Fire God and the Earth Pulse. This attack and defense were completely enough. There was no need to forcefully pursue the affinity of the four elements.

In the end, Andrew's letter also mentioned that after Knight Anderson received the breathing technique inheritance diagram that Levi had sent back, he began to cultivate in seclusion. He seemed to have realized something. Knight Anderson asked Andrew to thank Levi on his behalf. He also asked Andrew to send a breathing technique that he had obtained some time ago as a gift in return. He hoped to have some reference and reference for Levi's breakthrough to legendary.

He found the breathing technique inheritance diagram in his storage bag.

After seeing the name of this breathing technique, he was stunned and revealed a helpless smile.

Black Whale Breathing Technique.

This breathing technique evoked Levi's memories of the human world.

It reminded him of the days when he was still a little bird and cultivated desperately under the shadow of the terrifying Duke of Montenegro.

Perhaps, without the pressure from the Duke of Montenegro, Levi would not have become a legendary knight so quickly.

After entering the Wizard World, although Levi would occasionally encounter some enemies, he had never seen an enemy like the Duke of Montenegro who posed a huge threat and pressure to him.

The Black Whale Breathing Technique was a perfect-grade strength breathing technique.

Although Levi had many strength-type breathing techniques, the only perfect-grade ones were the Red Lotus Breathing Technique and the Black Whale Breathing Technique.

The Black Whale was the emblem of the Montenegro Mountain family. In myths and legends, it was also known as the Swimming Dark Whale.

Legend had it that these giant whales roamed the void for their entire lives, using the endless Multidimensional Planes and even the astral worlds as oceans.

On the black whale, there was a huge piece of land. On it was a country called the Montenegro Mountain Empire. This was a country on the whale's back. The people of the Montenegro Mountain Empire would never leave the whale's back for the rest of their lives. They worshiped the black whale as a god and worshiped it as their master. They called it the Whale Lord.

This was also the source of the Duke of Montenegro's family name. The Duke of Montenegro wanted to build a fantasy Montenegro Mountain Empire, but unfortunately, he failed.

Now, the Montenegro Mountain family had been completely wiped out.

Even the breathing technique inheritance diagram had somehow fallen into the hands of Knight Anderson. After going around in circles, it was still obtained by Levi.

The secret medicine of the Black Whale Breathing Technique was not difficult to find. The stronger the whale blood, the better.

In the human world, the Narwhal was the main creature, but in the Wizard World, Levi could not help but look at the Dragon King Whale that was spraying water by the sea...

In any case, Leviathan was the one who was injured.

After obtaining the Black Whale Breathing Technique, Levi had mastered it.

The upper limit of this breathing technique was high, and there was a lot of potential to be exploited. Therefore, Levi naturally could not give up.

Holy Brilliance Calendar Year 1023, Month of Germinal.

Kane had been gone for two years.

Levi, the lawless maniac, was still at large. This undoubtedly disappointed dead Kane and his son.

After two years of waiting, Levi felt that it was time to turn Kane into a living dead. However, in order to be more stable, Levi decided to wait for a period of time to prevent himself from being “fished” by the investigators.

In any case, he had already waited for two years. What harm was there in waiting for another half a year?

After half a year, his strength would increase a lot. It would not be too late to

Levi calmed himself down and continued to wait.

In the White Sail Alley’s ingredient shop, Manla was busy finding a lot of ingredients for Levi to refine the Sandman Potion.

In return, Levi gave Manla some Aether Stones as compensation and asked Marlene to help Manla’s daughter contact the only Storm Faction wizard in the Sighing Sea Breeze.

This wizard belonged to the Storm faction, so he did not have many apprentice wizards under him. In addition, Dora's triple affinity talent was already very good, so the two sides hit it off immediately and happily accepted Dora as an apprentice.

Marlene recognized this wizard's character, and the Sighing Sea Breeze and Gray Tower had a good relationship. Both sides were helping each other, so Manla could rest assured that Dora was cultivating there.

Now that his daughter had found a good place to go, his collaboration with Levi was booming. Manla was also in good spirits. As Manla's friend, Levi was happy to do this.

Holy Brilliance Calendar Year 1023, Month of Flowers.

Levi and Emperor Mu held their second team-building event. Levi still won the final match, but Levi could feel that Emperor Mu's strength had improved compared to a year ago. A faint golden light appeared on his body with every move he made. It was as if Emperor Mu's blood was not red but golden.

Emperor Mu's resistance and defense were also gradually becoming stronger.

This further confirmed Levi's guess.

Of course, there was another possibility, Emperor Mu was a descendant of Golden Knight Gregor.

Everyone had their own opportunities, so Levi stopped making wild guesses..
