

Wizard 358

Chapter 358: Level 4 Black Devil Blade, Return to Origin, Nine Golden Swords! 5

Levi said, "It's fine. I'm going to the beach to take a walk. You guys just stay here and keep watch."

"Hmm... Why don't I..." Winnie wanted to go with him, but Levi left before she could say anything.

Left with no choice, Winnie went on with her own business.

Levi hid somewhere by the coast. With his Black Snake's Message, he could sense the auras of many unfamiliar sea beasts approaching.

He muttered, "The first wave of sea beasts has already arrived, and there are quite a few first-circle transcendent sea beasts among them."

This enormous sea beast tide was indeed different. This was only the first wave, and first-circle transcendent sea beasts were already hidden within.

Usually, the first wave of the sea beast tide would not have such high-level sea beasts. Weaker sea beasts would serve as cannon fodder first, depleting the wizards' reserves and overall strength. Finally, they would use the first-circle or second-circle sea beasts as trump cards to attack the wizard tower.

However, the sea beasts were not holding back in this wave.

"The situation is urgent. I should go and inform the tower to make preparations."

Levi turned around and went back.

He entered the tower and shouted, "My Dragon King Whale senses the sea beast tide approaching. There are first-circle transcendent sea beasts among them. Everyone, be prepared. Many sea beasts can make land and fight. Don't think that you'll be safe staying on the island."

Immediately, Mr. Marko and Mr. Tim rushed over.

"Levi, how many first-circle transcendent sea beasts are there?" Marko asked.

"I'm not sure, but there might be more than one. Let's get ready and kill the first-circle transcendent sea beasts before they get close to the barrier," Levi said.

"Okay, let's get ready to set off," Marko said.

Tim turned around and said to the apprentices, "The three of us will be responsible for dealing with the first-circle transcendent sea beasts. Remember to clear out the low-level sea beasts that approach the array." "Teachers, let us go too. We can help," said a high-level apprentice wizard.

Marko rejected him coldly, saying, "You'll only hold us back if you follow us. Levi is a legendary knight, and he's strong enough to protect himself. Can you do the same? Can you defeat Levi's Dragon King Whale? Defending this tower is also part of our victory."

The high-level apprentice wizard blushed. As an elite among the apprentice wizards of the Gray Tower, he originally wanted to use this opportunity to show off. Unfortunately, he was mercilessly ridiculed by Marko.

"That's right, Senior Brother. Let's defend our home," advised the other apprentices.

In the end, under the envious and worshipful gazes of the apprentices, Levi and the two teachers headed toward the shore with looks of determination.

About 10 miles from the Gray Tower, a 13-foot tall, thin, blue Sea Clan member stood on the back of a first-circle orca sea beast. He had an octopus-like head and wriggling tentacles around his mouth. His lower body consisted of eight slender tentacles that formed his limbs. Each tentacle held a sharp bone knife.

He was a warrior of the mollusks clan. He was the Siren Swordsman, Percival. He was the vanguard of the invasion of the Gray Tower. The Eight-legged Sea Demons were all experts in using swords. Their Eight Blades Sect technique was superb, and they were second to none among the Sea Clan.

As one of the most experienced swordsmen, Percival had killed many human powerhouses with the Eight Blades Sect technique since his debut. After all, the Eight-legged Sea Demons were born with great flexibility and speed. No human could compare to them in terms of the number of weapons they held.

Percival's father was Blade King Vandro, one of the four great generals of the Sea Clan under the command of Baron Deep Sea, and was equivalent to a human Second-Circle Wizard. He told Percival to

be careful this time because he had heard of a human legendary knight in the Gray Tower. Percival should never underestimate a legendary knight.

When his father was young, he had almost lost his life to a legendary knight. Although that legendary knight was a woman, her extremely violent swordsmanship was capable of parting the sea waves and splitting sea beasts. Percival's father could still remember her vividly.

Percival sneered, "Humph, I will prove to my father that I am not weak."

This young and powerful Siren Swordsman was ready to use his Eight Blades Sect technique to end the life of the legendary knight.

As the army of thousands of sea beasts led by three first-circle transcendent sea beasts charged towards the island, Percival sat proudly on the back of the orca and watched everything with cold eyes.

Suddenly, he saw three figures on the shore. They seemed to have been waiting for a long time.

On the shore, Mr. Marko's expression was solemn. He said, "That Eight-legged Sea Demon is powerful. I'll deal with him and his mount. Tim, you deal with two of the first-circle transcendent sea beasts. Levi, you deal with the other one."

Levi nodded in agreement. His Spider Sensing warned him that the Eight-legged Sea Demon was a great threat. This meant that the strength of this sea demon was equal to that of an experienced First-Circle Wizard.

This was Levi's first time fighting against the Sea Clan, so he did not dare to be careless. He had to eliminate these first-circle existences quickly to relieve the pressure on the Gray Tower's array behind him.

Many sea beasts rushed out of the water when they got to shore. Sea beasts was a generic term used by wizards to refer to everything living in the Endless Sea..
