Chapter 360: Level 4 Black Devil Blade, Return to Origin, Nine Golden Swords! 7

"Eight Blade Sect Technique, Eightfold Star Slash!"

Percival's eight bone knives seemed to overlap, transforming into a terrifying greatsword that slashed toward Levi.

Levi sneered. Behind him, the phantom of the Nine Swords Asura suddenly appeared. A 15-foot-tall black evil spirit stood behind him. It had three heads and six arms, each holding a sword!

Its black ribbon fluttered in the wind and had an extraordinary aura like a god had descended!

The Nine Swords Asura had the Buddha's compassionate expression, the Yaksha's evil smile, and the Vajra's angry eyes.

81 black blades appeared around the body of the Nine Swords Asura, buzzing like flying swords.

Asura's Swordsmanship, Return to Origin!

"Attack! "

This was the latest move of the Black Devil Blade that Levi had developed after reaching level 4. The black blades shooting out were similar to the ones once unleashed by Nameless.

Crackle.

Percival barely managed to block this wave of attacks. The black gas that managed to sneak past his defense broke through his mucus protection and pierced into his soft body, instantly causing him to be injured.

At the same time, the Nine Swords Asura brandished nine indestructible black longswords and slashed toward him!

Boom!

The Nine Swords Asura directly shattered Percival's greatsword.

Percival exclaimed, "Nine Blade Sect?"

Percival's expression changed drastically. He thought his Eight Blade Sect was already beyond incredible, but this monster in front of him had one more sword than him.

Levi rushed forward.

He had long wanted to test the power of the level 4 Black Devil Blade. Now was the perfect opportunity to do so!

In front of the three-headed, six-armed evil spirit, Percival revealed a look of determination as he waved his eight tentacles in all directions!

"Eight Blade Sect Technique, Eight Direction Disillusionment!"

This was his strongest move. Even his father, a Sea Clan general, had praised this move. He was confident that he could block the sword of this three-headed and six-armed monster!

The eight blades struck out, and the seawater exploded in all directions. Blade light that could destroy everything swept out, injuring many sea beasts. The sea was covered in blood.

Levi swung his trident and unleashed the Golden Revolving Slash. The Nine Swords Asura behind him did the same thing. The light of the Golden Revolving Slash lit up like nine stars on the nine swords!

This was the second new effect that Levi had developed after the Black Devil Blade reached level 4. Levi could control the Nine Swords Asura to execute the same sword skill as himself!

The Nine Swords Form combined with the Golden Revolving Slash!

"Nine Golden Swords!"

Boom!

Percival was sent flying by the sword attack. Nine lights drilled bloody holes in his body and head. These nine lights pierced through his flesh and churned his organs. It was as if they would never stop.

This scene was bizarre. In horror, the heavily injured Percival sat on the orca and prepared to escape. However, Levi had unleashed his crimson tentacle and pierced through Percival's heart, devouring his blood.

Percival's eyes gradually dimmed, and his life aura began to dissipate. He died on the spot.

A famous swordsman of the Sea Clan had fallen.

Levi immediately went forward and collected Percival's corpse. The Golden Revolving Slash also dissipated. Levi returned to his original form.

He didn't damage the corpse of the Sea Clan expert too badly because he wanted to turn it into a living dead.

This person was powerful. He could suppress Mr. Marko, meaning his strength was similar to Kane and Carter's. He could be included in the ranks of the Seven Generals of the Living-dead Family.

With the troll couple, Kane, Carter, and this Sea Clan swordsman, Levi had gathered five members for his Seven Generals of the Living-dead Family.

Levi returned to the shore. Marko had just helped Tim settle the battle here. One of the two first-circle sea beasts saw that the situation was not good and immediately ran back into the sea like the orca. The other was killed on the spot.

"Are you alright? What happened just now? Did you minor in the Modification Studies of Life School of Thought?" Marko recalled Levi's terrifying appearance just now. He looked very much like some wizards from Life School of Thought. Those people liked to transform themselves into terrifying monsters.

"I'm fine. It's just a small side effect of being a knight. Don't worry, I'm not a monster," assured Levi as he smiled.

Marko did not say anything.

"Be careful. Don't let strange powers contaminate your mind," warned Tim.

He and Marko did not know much about legendary knights, so they did not realize that legendary knights had such inhuman, extraordinary characteristics. They were worried for Levi out of good intentions.

Levi replied, "Noted. Let's head over to the array. I wonder how the situation is over there."

After saying that, Levi rushed toward the towers.

The first wave was already so difficult to deal with. This sea beast tide was even more difficult than Levi had imagined..
