Chapter 364: Level 9 Black Whale, Whale Back, Whale Mountain! (4)

Before Percival went to the battlefield full of confidence, old Vandro reminded his son again and again not to underestimate the enemy. No matter what, he had to come back alive.

However, he did not expect that the last time they met, it had already become a farewell between father and son.

"Vandro, I understand how you feel now. However, this is wartime. No one dies in war. Even if my son dies on the battlefield, I won't be surprised. Everything has to be considered for the revival of the Sea Clan. You are the most important person by my side. I need you to stay here and help me plan and command the entire army. Now that the war has just begun, it's unwise for you to go to the battlefield and expose yourself to the enemy.

"By the way, which wizard organization did your son go to?" Baron Deep Sea asked.

"Lord Baron, he went to the Gray Tower," said Vandro.

"I know. When the time is right, I'll personally lead the army to the Gray Tower.

I can destroy a mere Second-Circle Wizard organization with a single slap.

Hehehe..." Baron Deep Sea's mouth was full of sharp teeth as he laughed wildly.

Holy Brilliance Calendar Year 1024, Month of the Furnace.

A few months had passed since the first wave of the sea beast tide.

During this period of time, no first-circle sea beasts appeared in the subsequent sea beast tide. They were all low-level sea beasts that charged towards the wizard tower fearlessly.

With the second-circle array barrier, although the sea beasts' attacks were fierce, they survived without any mishaps.

But correspondingly, the consumption of Aether Stones worried Marlene.

It had been a few months since the sea beast tide. After experiencing such a dense sea beast tide, there were still countless sea beasts rushing over like a tide. The Gray Tower was like a lonely boat in a storm that could capsize at any time.

As there was no first circle, Levi spent most of his time cultivating the breathing technique on the ninth floor of the Gray Tower, apart from hunting some low-level sea beasts.

After his constant efforts, the Hunchback Dragon Breathing Technique had already reached its maximum, and the Black Whale Breathing Technique had also broken through to level 9.

Levi—

Hunchback Dragon Breathing Technique: Level 10 (Maximum), Special Effect: Dragon Spine (Liquid)

Black Whale Breathing Technique: Level 9 (347/150,000). Special Effect: Whale Back (Gas).

Levi's burly body was supported by a Dragon Spine that seemed to be made of thick asphalt. The power contained in it was endless and vast.

The endurance effect of the Level 10 Dragon Spine was significantly improved compared to before. It should be three times that of the Level 8 Transcendent Endurance.

This allowed Levi to transform into a tireless war beast in the following sea beast tide and tear apart even more sea beasts.

After the peak of the level 9 maximum of the Black Whale Breathing Technique, Transcendent Power finally transformed.

[Whale Back (Gas): The back of the Swimming Dark Whale can carry mountains, rivers, seas, and all living beings. The black gas gathers on your back and strengthens the strength of your back!]

This was the Special Effect of the Whale Back.

The giant strengthened his arms, Red Lotus strengthened his core torso, Ostrich Mountain strengthened his legs, and the Black Whale strengthened his back.

Levi's back was wider and thicker than before. Demon-like muscles were knotted on it, as Black Snakes entrenched on it. The middle of his back bulged slightly. This was the back of a whale. It was angular, broad, and powerful!

He could feel that the surging and vast power on his back had nowhere to pour out. Therefore, he leaned against the wall of the practice room like an Iron Mountain. He only used 2.5% of his strength. He was afraid that if he used any more strength, the wall would explode.

Boom!

The walls trembled.

"F*ck Iron Mountain! No, it should be called Whale Mountain!"

Levi gave this move a nice name.

"My strength has increased again, I will be able to face the sea beast tide more easily now. Now that the Hunchback Dragon has reached its maximum, it will be difficult to break through the limit in the short term. The only ones that need to cultivate the breathing technique are Red Lotus, Undying Bird, and Black Whale." Levi heaved a sigh of relief.

He looked at himself in the mirror. Black Scale, Frost Arm, Ostrich Feet, Flame Body, Whale Back, Dragon Spine, and Blood Wings. In addition to the hump and the Blood Clan (members) tentacles poking out of his chest, nine different monster characteristics appeared on Levi's body.

"Powerful, that is, beautiful."

Levi's expression was as calm as an ancient well. With a shake of his body, all these characteristics dissipated and he returned to his original appearance.

With the Thousand Faces, as long as Levi wanted to be handsome, he could become a handsome uncle like the Earl of Silver Mountain at any time. However, that would be meaningless.

Whether he was handsome or not was something that only foolish mortals would care about. Levi only cared about whether his fists were strong enough and whether he could survive in this world dominated by gods, powerful existences, and wizards.

He walked out of the Gray Tower and saw the exhausted apprentices resting, taking pills to recover their strength and spirit.

During this period of time, everyone was tense and did not dare to let go. Even Levi was the same.

He learned from Ms. Marlene that the Tower Master would come out of seclusion next month.

At that time, the Third-Circle Wizard, Herman, would be able to make a brilliant appearance.

However, only a few official wizards and Levi knew about this. The apprentices were still in the dark.

Hearing this, Levi was completely relieved.

Third-Circle Wizards would definitely survive this sea beast tide.

He wondered what the Tower Master would become.

"The third circle has a lifespan of five hundred years. In the human world, it's enough to witness the destruction and rise and fall of many families." Levi sighed..
