Chapter 371: Power of the Third Circle, Knight's Body, Second-circle Reversal! (1)

Gray Tower.

Levi, who was cultivating on the ninth floor of the Gray Tower, suddenly felt uneasy. He looked at the hair on his arm and it stood on end.

This sense of danger was much stronger than the previous waves of sea beast attacks.

At that thought, he went into the sea and found Leviathan, who was sleeping soundly. He told Leviathan to be ready to take him away at any time. Levi then went to the third floor of the White Tower and found Ms. Marlene.

"Teacher, I think we should open the array. The Knight's breathing technique that I cultivate can predict some dangers. I can feel that danger is approaching our Gray Tower," Levi said.

Marlene was slightly surprised. As far as she knew, only some spells of the School of Prophecy had this ability to predict fortune and misfortune.

However, Levi had always been reliable, so Marlene did not hesitate to discuss this with the Tower Master.

In the end, when the apprentices saw the array barrier light up again, they knew that something big had happened.

Marlene appeared in the square and said, "Everyone, the final battle might be coming. We've been holding on for more than a year. I hope everyone can pull themselves together and hold on until the end. There will be a fierce battle next. As long as we survive this crisis, our organization will be stronger!"

Marlene didn't say anything else. The simpler her words were, the more everyone could sense the seriousness of the matter.

Levi continued to cultivate the breathing technique. He wanted to improve himself before the danger arrived. He prepared everything he could and adjusted himself to his peak state so that he could welcome the arrival of this fierce battle.

A few days later, when the sense of danger reached its peak, Levi greeted Marlene, the Tower Master, and the others before secretly leaving the Gray Tower.

He did not plan to deal with the enemy in the tower. He wanted to take advantage of Leviathan's advantage and sneak into the back. When the enemy was fighting the Tower Master, he would use his specialty as a legendary knight to deal heavy damage to the enemy... Of course, if the enemy was too strong, it would be easier for Levi to escape.

In short, everything depended on the situation of the upcoming fierce battle.

With Levi's legendary knight body, although he could not swim in the sea like a fish in water like the Sea Clan, it was not a problem for him to hide in the mouth of the Dragon King Whale and wait for an opportunity among some sea beasts.

"Here we go."

The sense of danger brought about by Levi's Spider Sensing had reached its peak. Under such circumstances, it meant that the person who was hostile to him had already arrived. The other party was definitely a second-circle existence. Otherwise, the Spider Sensing would not be so strong.

"That's strange. Logically speaking, I don't have any enemies in the Sea Clan.

Could it be that those fleeing sea beasts complained to the elder of the Sea

Clan's swordsman that his elders came to kill me?"

While Levi was thinking about the Dragon King Whale's words, the Black Snake's Message had already sensed six powerful and unfamiliar auras approaching. Levi and the Dragon King Whale were lying dormant in the Deep Sea, not daring to make a sound.

Every breath was enough to make Levi's Spider Sensing instinctively sense danger.

This meant that these six auras were all second-circle existences.

"Six second-circle existences... Why don't we just run away? Including the Tower Master and Jorman, the Gray Tower only has one third-circle and two second-circle existences.

"Teacher Marlene is dealing with one, Jorman is dealing with one, and the Tower Master is a third circle. Can he fight four people at once?"

Levi was a little suspicious. Although there was indeed a qualitative change between a third circle and a second circle, he wasn't sure if a third circle could defeat four second circles. The difference in numbers was too great.

Other than that, there were also some auras of first-circle existence among the enemies. However, there were not many of them. The most important and dangerous ones were those second-circle existences.

Levi had never seen these second-circles before, so there was no information about these people in the Black Snake's Message's database. Otherwise, Levi only needed to look at their auras to know who they were.

When those dangerous existences entered the range of Levi's more detailed Top Perception, Levi realized that only one of the six second-circles was suspected to be a sea beast. The rest were all humans!

He knew that Harland had always wanted to get rid of him. He had repeatedly ruined Harland's plans and had become a thorn in Harland's side.

"Let's wait and see. If it really doesn't work, I can only run away. Although I'll be letting the organization down, I have to consider my own life." Levi decided to observe the battle situation first. If he could fight, he would do his best to prevent the Gray Tower from being destroyed.

On the surface of the sea, the Three-Headed Hell Lizard flapped its bone wings and arrived at the shore of the Gray Tower with green flames.

Above the Three-Headed Hell Lizard, the five Second-Circle Wizards—the Demon, the Spider Witch, the White Bone Wizard, the Bloodthirsty Wizard, and the Lost Wizard—looked ahead of them with indifferent expressions.

The witch Marlene and a giant frost-white snake coiled on the shore were blocking the way.

"Marlene, where's Herman? Did that old ghost escape and abandon you?"

Demon Harland was in high spirits. He had never felt so refreshed before.

Including the Three-Headed Hell Lizard, there were a total of six second-circle existences on their side. Even if the other party included Herman, there were only three second-circle existences..
