

Wizard 372

Chapter 372: Power of the Third Circle, Knight's Body, Second-circle Reversal! (2)

Six against three. With his advantage, how could Harland lose?

Needless to say, to be safe, he even brought the second-circle array wizard, the Lost Wizard with him.

"Harland, I didn't expect you to dare to come back. You were beaten up by the Tower Master and abandoned your armor like a stray dog. How dare you come back and bark?"

"Pfft, if Herman didn't call the enforcers, how could he be my match? There's no point in saying more. Since that old thing Herman doesn't dare to face me, Harland, I'll kill you and that white snake and flatten this Gray and White Tower. Hehehe!" Harland laughed wildly.

"Everyone, attack. Don't underestimate the enemy. All of you, attack!" After Harland finished speaking, he impatiently waved his magic wand and sent streams of hellfire at Marlene.

The others also crossed the sea with eight immortals, each displaying their own abilities.

Elins, the Spider Witch, was a beautiful woman. She used to be an apprentice wizard of the First-Circle Wizard organization. When she accidentally discovered that her senior sister had received the inheritance of a sorcerer from the School of Insects, she had evil intentions and directly plotted to kill her senior sister. Then, she took the inheritance away. She herself was hunted by the wizard organization and eventually disappeared without a trace. When she finally returned, she was already the leader of the dark wizard organization "Sea Spider Hut" and had left behind the terrifying title of "Spider Witch". The

Spider Witch raised a group of top-notch low-grade Zergs and was ranked

111st on the School of Insects' Zerg list. It was called "Red -Faced Sea Ghost Spider", which was the reason why the Spider Witch had made a name for herself.

The Spider Witch took out a bag that seemed to be woven from spider webs. This was her Bug House, and there were thousands of Red -Faced Sea Ghost Spiders in it.

"Go, cuties, kill all the people on the island!" The Spider Witch chuckled. The denselv packed blue and red spiders that were as biq as a human head all

Entered the seawater and seemed to merge with the seawater. These spiders quickly attacked the enemy.

As the best among the low-grade mutated insects, if thousands of Red-Faced Sea Ghost Spiders swarmed forward, ordinary official wizards would be devoured in an instant and die from the poison. Even Second-Circle Wizards would fail if they were not careful when facing so many mutated insects.

Jorman looked as if he was facing a formidable enemy. He flicked his tongue, and a cold aura of frost began to spread. As a second-circle transcendent creature, Jorman had mastered many spell-like abilities. At this moment, he spat out frost, and his breath almost froze everything in front of him. The seawater was also frozen, and some of the Red-Faced Sea Ghost Spiders hiding in it were also frozen. However, these guys were very resistant to grass. Under such extreme cold, they did not die. Instead, they kept struggling on the ice.

Terrifying red poison flowed out of their fangs and could actually melt the ice.

These Red-Faced Sea Ghost Spiders shuttled on the surface of the sea and spat out white threads. As they moved quickly, they weaved a white spider web that covered the sky and trapped Jorman in it.

At the same time, with a furious roar, the Three-Headed Hell Lizard rushed over and pressed White Snake Jorman to the ground. Three different lights emitted from its three heads.

However, Jorman was not afraid at all. Blue light shone brightly on its white scales.

Second-circle spell ability, Ice Arrows!

Ice arrows that were far more powerful than the Water Arrow shot out from its body. As a powerful second-circle Dragon Clan mixed-blood, Jorman's light golden eyes were filled with killing intent. He was furious. His slender and powerful body directly broke through the spider web and wrapped around the Three-Headed Hell Lizard, killing it!

While the two second-circle beasts were fighting, Marlene and the Spider Witch also began to bombard each other with spells.

Harland's expression was gloomy. He no longer cared about the situation on this side. He called the Lost Wizard, the array wizard. He wanted to personally flatten the Gray Tower and find Herman to kill his enemy.

One of the white bone wizards went to help the Spider Witch, while the other followed Harland to find Herman. Marlene was obviously powerless against the Spider Witch and the white bone wizard, but she

did not panic. She only needed to try her best to resist the two Second-Circle Wizards for a while. Next, the real highlight was the Tower Master!

Levi, on the other hand, stayed put. The battle had just begun, and the Tower

Master had yet to appear. He was not in a hurry to attack. After all, the Tower

Master would not put Ms. Marlene in danger. If Levi attacked an enemy like the Second-Circle Wizard, he would only have one chance to attack. If he missed, he would use his Blood Wings to escape. Otherwise, if the Second-Circle Wizard was prepared, his life would be in danger.

The Tower Master was the most important person in this battle. He wondered if the third-circle Tower Master could withstand the attacks of so many second-circles.

Harland brought the Bloodthirsty Wizard and the Lost Wizard to the second-circle array aggressively, but they were stopped outside. This kind of large-scale protective array was specially used to protect the wizard tower. Other than the members of the wizard organization who had already recorded a trace of spiritual force into the core of the array, no one else could enter or leave freely.

"Hehe, you're hiding in the array, aren't you? Pinoz, break this array," Harland said.

The Lost Wizard had a confident look on his face. Countless rays of light swirled in his eyes, as if he was analyzing the structure of this array. Then, he said calmly, "The protection of the blue sea is considered a very good second-circle array. However, I have already seen the gap in this array. There is no need to forcefully break the array. We will rush in through the gap.."
