

## Wizard 377

Chapter 377: Golden Horned Beast, Golden Spine, Level 4 Meditation! (1)

On the sea.

Levi panted heavily. After resting for a moment, he said, "Thank you, Jorman. You don't mind if I take this person's things, right?"

Jorman shook his head.

He put the Second-Circle Wizard's broken corpse into his storage bag and picked up the wizard's storage item, as well as the strange small flags and plates scattered on the sea.

He discovered that there were all kinds of spell runes on these seemingly inconspicuous flags and plates that he could not understand at all.

"Could this be...something used for arrays?" Levi was also uncertain.

However, that array was a large-scale array specially customized for wizard organizations. It was definitely different from this kind of array.

No matter what it was, Levi put everything away in his storage bag. Then, he rode the Dragon King Whale and returned to the Gray Tower with Jorman.

At this moment, Ms. Marlene had returned. The battle with the Tower Master had ended. As a third-circle powerhouse, it was only a matter of time before he dealt with the three second-circle dark wizards.

Marlene blamed herself. She hadn't caught that damned Lost Wizard and let him escape.

"It's alright, Marlene. After all, that person is an array wizard. He's proficient in arrays, so it's still very difficult to kill him. Even I was trapped by his array for a long time." The Tower Master comforted Marlene, who looked a little depressed.

"Sigh, if we kill this second-circle dark wizard, we can apply for more bounties from the Star Tower after the sea beast tide passes."

Although there were very few casualties in the Gray Tower during the sea beast tide this time, in order to activate the large-scale costly array, the stockpile of Aether Stones was almost depleted, which was fatal to a wizard organization. The daily expenses of the tower required Aether Stones. In addition, the official store that opened the wizard market nearby was closed because of the sea beast tide, so the Gray Tower lost its source of income. The small amount of Aether Stones earned from the apprentices was obviously not enough.

"It's fine. Just Harland alone is worth 20,000 Aether Stones at the Star Tower.

In addition to the three Second-Circle Wizards, this is a bounty of 50,000 Aether Stones. Moreover, there are quite a number of Aether Stones in their storage bags. I've roughly calculated that these Aether Stones are almost enough to make up for our losses during this period of time."

Harland was someone who knew how to provide help in times of need. At the most critical moment, he sent warmth to the Gray Tower.

Fortunately, the Tower Master had already expected this. He had already figured out Harland's tricks, so he did not expose the fact that he had directly advanced to the third circle. Otherwise, with Harland's personality, he would definitely not come unless he became a third-circle.

In the end, Levi and Jorman returned to the White Tower. Levi went to the White Tower and placed the Second-Circle Wizard's corpse and storage bag in front of Marlene and the Tower Master.

"This is Pinoz... Did you kill him?" Marlene exclaimed in disbelief.

Levi shook his head and said with a bitter smile, "I've been following this person and know where he's hiding. I cooperated with Jorman and killed this person. How could I kill a Second-Circle Wizard? I only launched a sneak attack."

Marlene heaved a sigh of relief. If Levi had killed a Second-Circle Wizard by himself, and a wizard who was proficient in arrays, it would be unbelievable!

Originally, Levi wanted to secretly take this person's storage bag for himself, but he realized that he could not open the spell restriction on him at all.

Therefore, after some thought, he decided to hand it over to the organization. Besides, Levi was worried that the Tower Master and the others would communicate with Jorman and find out that he had secretly hidden the spoils of war of a Second-Circle Wizard. That would not be good. It would lose the most basic trust between people.

He believed that the Tower Master and Ms. Marlene would deal with the spoils fairly, so he decided to do that.

"Another second-circle dark wizard's head. I should be able to exchange it for 10,000 Aether Stones at the Star Tower," Marlene said.

The Tower Master thought for a moment and said with a serious expression, "Forget about Pinoz. Don't spread the news of Pinoz's death. Just the few of us will know. Pinoz is different from the others. He is an array wizard and has always been the focus of the Star Tower. This is because the Star Tower is also very concerned about this person's array inheritance. Of course, we can't give such a precious thing to the Star Tower. It's priceless and should be controlled by our organization.

"Levi, you and Jorman killed this person together. It's your credit, so it's naturally not little. If this person has the inheritance of an array wizard in his storage bag, you can learn it in the tower at any time as long as you sign a confidential contract and don't tell anyone." The Tower Master said.

"Thank you, Tower Master," Levi said.

Unexpectedly, this person was really a rare array wizard. After seeing the power of arrays, Levi was indeed obsessed with arrays. Now that he had the chance to learn about arrays, he naturally would not reject it.

To be honest, if not for Jorman, Levi would not have dared to kill the Second-Circle Wizard. It was also because of Jorman's frontal suppression that

Levi had the chance to launch a sneak attack..
