

Wizard 417

Chapter 417: Group Breaking Limit! (4)

"Is there a potion formula at the gathering?" This was what Levi was most concerned about.

"I bought the recipe for the Sandman Potion from a second-circle pharmacist at the last gathering," Marlene said.

"Alright, Teacher. I'll go," Levi said without hesitation.

"Yes, remember not to spend money recklessly during this period of time. Save it for the gathering," Marlene said.

Levi thought to himself, "Teacher, why didn't you say so earlier? If I had known earlier, I would have kept many Aether Stones."

Now, he only had 4,000 Aether Stones left.

"If you are short of money, you can participate in the arena challenge of the assembly. You can earn a lot of money if you get good results. The arena challenge of the Haitian Wizard Festival is friendly and there will be no safety issues," Marlene seemed to have noticed that Levi was out of money, so she said.

"Alright, Teacher. Thank you."

After saying goodbye to Marlene, Levi returned to Black Fire Island.

As soon as he came back, he found the bone snake Igor devouring the corpse of a sea monster. Levi did not know what the use of this skeleton snake was.

It seemed that a sea beast had accidentally entered the Black Fire Island and was caught by Igor.

Seeing that Black Fire Island was fine, Levi returned to his cave abode.

"There's still half a year before the Haitian Wizard Festival. I'll have to prepare at least 10,000 Aether Stones to participate in such a large-scale meeting. What I lack the most now is a potion formula that can greatly improve my meditation speed. This is definitely one of the most expensive potion formulas, second only to the potion formula for breaking through realms. I might not be able to buy it without 20,000 Aether Stones."

There was still half a year left. Levi was determined to plan properly in this half a year and see how he could gather this money.

He was a pharmacist, so he should not be short of money. The problem was that he had not sold much medicine until now.

"It seems that the matter of getting certified as a pharmacist has to be brought forward. If I could get it verified earlier, I could sell the two sets of Naga's Blessing at the Haitian Wizard Festival. I might even earn 10,000 Aether Stones," Levi pondered.

Apart from the two potions, the most valuable items he had were his magic tools.

The Ring of the Wind Spirit, the Sea Demon Ring, the Trembling Ring, the Flying Fish Robe, the Green Gloves, the Fire Snake Bracelet, the Flaming Carpet, and the Pot of Equal Value.

These were all the first-circle Wizard Tools that Levi had.

"It seems that other than this Flaming Carpet, everything else is somewhat useful," Levi began to feel troubled.

Moreover, the Flaming Carpet had already been destroyed. Even if Levi disposed of it, it would not be worth much. He had to be careful to prevent the matter of him killing Kane from being leaked. Although Kane had been dead for so many years and the Star Tower would not continue to investigate, it was always right to be careful.

"Pharmacists can't earn money for the time being. We can only start with alchemy and arrays."

Thinking of this, Levi already had a plan.

He had been low-key for too long. Now that he had the strength and ability, just like when he was in the human world, he could almost make the name "Golden Warhammer."

If he wanted to rely on alchemy, potions, or magic circles to make money, he had to make a name for himself and let more people know him. If Levi was only focused on keeping a low profile and being cautious, it would be very difficult to make money.

The next day, Levi packed up his things and headed to the Blacksail Wizard Market. He did not change his appearance this time because he was already an official wizard and a member of the Pan-Plane Wizard Council. He could change his appearance, but he could not change his identity documents. When some wizard organizations or wizards entrusted him to create a magic circle, they would definitely ask for his identity documents.

Moreover, he was not doing anything bad. There was no need to make it seem like he was meeting with the underground party every day.

In the Blacksail Wizard Market, Levi came to the enforcement union in the market. The current president was an official wizard of the Dark Sea Cave,

The relationship between the Dark Sea Cavern and the Gray Tower was neutral, neither good nor bad, and there was no interaction between the two sides.

In fact, the Dark Sea Cave had nothing to do with most of the wizard organizations in this area because their organization was based in the deep underwater cave, which was said to be the ruins of an ancient wizard organization in the Third Ring.

When they arrived at the enforcement union, the apprentice wizard in charge of guarding the door saw that Levi, an official sorcerer, had arrived. He quickly said respectfully, "May I know why you have arrived?"

"My name is Levi, a First-Circle Wizard of the Grey Tower. I want to establish my own small business in this Blacksail Magus Market," Levi asked.

"Hello, sir. We need to talk to our president about this. I'll go and report it now."

The acolyte was about to go back when he saw an old wizard in a black robe standing at the door with a smile on his face.

This was the Wizard of Black Water, Elimon. As a first-circle wizard, he had long sensed the arrival of Levi, an official wizard. Naturally, he had to come out and see what was going on.

"Sir Levi, you want to rent a shop, right?" Elimon laughed.

"That's right."

"Sir Levi, there is no need to spend money. The Blacksail Wizard Market has a policy. If an official wizard from our organization enters, there is no need to pay rent," said Elimon..
