

## Wizard 426

Chapter 426: Three Calamities, Pandora Matriarch, Civilization War! (3)

What followed next was the history of a wizard family's struggles that was worthy of being written in a book.

Hundreds of years passed by. Even the Legendary Knight Rhine had long turned into a pile of dust. The wizard family created by him, a mortal, took root in the wizard world and grew stronger. It became one of the three major families of the Yellow Earth Continent, the Golden Lion Jostar Family.

The family did well.

"I knew it. A Legendary Knight can make a name for himself anywhere. Those who can cultivate the knight's breathing technique to the legendary realm in the mortal world are not ordinary people." Levi was also extremely impressed by the Lionheart Knight.

After all, he could be considered to be fated with the Lionheart Knight. He had the Lion King's Pride, a weapon that the Lionheart Knight used in the mortal world, in his storage bag. Though, God knows how the Lionheart Knight's weapon ended up with Duke Bluefeather.

At the dinner party, Levi did not eat much. At the same time, Dinos talked on and on about the legendary stories of his ancestor that his father had told him.

Finally, after the banquet, Dinos realized that he seemed to have lost his composure. He said in embarrassment, "Sorry, I really want to become a Legendary Knight."

"The Lionheart Knight is indeed amazing. Back when I was in the Shining Tavern in the mortal world, I would order a glass of Lion King's Spirit every time." Levi recalled the years he had spent struggling in the mortal world and could not help but sigh at the speed of time.

"The mortal world, huh? I haven't been there before. I really want to go, but I know that with my identity as a wizard, it's not appropriate for me to go," Dinos said helplessly.

After eating and drinking to his heart's content, Levi felt that it was time for him to leave. He cleared his throat and said, "Sir Dinos, it's time for me to get off the ship. I have something urgent to attend to."

"Alright, Fort, bring the thank-you gift over," Dinos understood and said immediately.

Butler Fort smiled and took out a small storage bag.

"Sir Levi, this is a small token of the Jostar Family's appreciation. Thank you for your help. It's a small gift, but it's the thought that counts. The Jostar Family will never forget your kindness. If you go to Yellow Earth Island in the future, you must visit us."

Levi took the storage bag and found that there was a pile of Aether Stones inside. A total of 3,000!

"I won't stand on ceremony." He didn't pretend to be polite by refusing. He had helped them for this reason.

It was not that he was greedy, but he was simply too poor.

3,000 Aether Stones was not bad. It was equivalent to three good first-circle Wizard Tools.

Dinos was quite generous.

That being said, Levi had saved his life. To a rich heir like Dinos, his life was definitely worth more than 3,000 Aether Stones.

After all, this Moon Ship alone cost 30,000 Aether Stones. If not for Levi, the Jostar family would have lost a wizard ship.

Levi's figure jumped into the sea, and Leviathan caught him. Then, the human and whale quickly disappeared into the surging sea.

"Mr. Levi seems to be a legendary knight." Dinos stood on the deck.

"Young Master," Fort said. "Do you want to invite him into the family and make him a family guardian? You can let him guide you to become a Legendary Knight."

"It's obvious that he's not interested." Dinos shook his head. "I believe that with my ability, I can definitely become a Legendary Knight."

The Moon Ship braved the wind and waves as it sailed slowly.

The next morning, after a night of traveling, Leviathan and Levi floated on the sea to rest while slowly moving forward. Leviathan used its flippers to pat its belly while Levi practiced breathing techniques on its back.

As they traveled, Levi's Black Snake's Message suddenly sensed a strange and powerful aura entrenched in the sea ahead. His Spider Sensing was also warning him. From the intensity of the warning, Levi felt that it should be a second-circle existence. In this uninhabited sea, it was most likely a

Second-circle sea beast.

"Leviathan, wait for me here. Don't run around. I'll be right back," Levi's expression changed slightly as he said.

With his current strength, he didn't have the absolute confidence to fight against a second-circle sea beast. However, he could fly. He planned to soar high and see what type of second-circle sea beast it was. If it was a mixed Dragon Clan, he would tame it when he had the strength in the future.

He wouldn't have to worry about the secret medicine problem of the Golden Snake, Red Lotus, and other dragon-type breathing techniques for a long time then.

Leviathan nodded after hearing that and stayed where it was obediently, not daring to move.

Levi's Blood Wings appeared and he flew to a height of 1,000 meters before slowly flying forward.

He could feel himself getting closer and closer to the behemoth. He tried his best to hide his aura while holding his breath. The perception of a second-circle existence must be very strong. Levi felt that even if he was in the sky, the other party might be able to sense him.

Still, he was almost sure that the other party was a second-circle sea beast. Among second -circle sea beasts, few could fly. This was the reason why he dared to come and investigate.

Levi looked down at the sea below. As expected, on a small island that slightly protruded out of the sea, he saw a giant sea beast that looked like a crocodile lying lazily in the sun. Bones littered the small island, including the bones and relics of first-circle sea beasts. There were even some broken bones and relics of first-circle wizards, as well as storage bags. Levi took all this in..
