

## Wizard 427

Chapter 427: Three Calamities, Pandora Matriarch, Civilization War! (4)

"Second-circle sea beast, sea dragon crocodile! Hahaha, it's really a mixed-blood dragon. It'll be a huge profit for me this time."

Levi was quite excited.

This sea dragon crocodile was the mixed-blood second-circle Dragon Clan that Levi had always dreamed of.

An adult could reach 30 meters in length. As a crocodile-type sea beast, it was even larger than the Dragon King Whale. Its body was covered with extremely solid scales that were comparable to second-circle defensive spells. It also mastered many powerful second-circle spells. In addition, the sea dragon crocodile had an extremely powerful bite force. It could tear apart even the second-circle defensive spell fields of some wizards.

Therefore, such a sea beast was surely an overlord in this sea area, a creature at the top of the food chain.

"It's a pity that I'm not its match now. When my Golden Snake Breathing Technique reaches level 12 or when I advance to a second-circle wizard, I'll come back and bring you home. In the future, you'll replace Leviathan's position and let it retire as soon as possible." Levi looked at the giant crocodile and left helplessly.

He was just taking a look. He was not so proud to attack a second-circle sea beast.

One should know that if one wants to live long in the Wizard World, one should never think about challenging someone of a higher level. Perhaps one could succeed in challenging someone of a higher level once or twice, but one day, one would fail.

Levi, who was well-versed in the art of being cautious, liked the saturated style of fighting the most. It was fine if he didn't make a move, but once he made a move, he would crush his opponents. This was the way of stability.

Meanwhile, the sea dragon crocodile on the island opened its mouth wide and lazily looked at Levi, who was leaving like a bug. Its eyes were filled with indifference and arrogance.

Many wizards tried to attack it, but they all died in its huge mouth. After all, it was not an ordinary second-circle sea beast. It was a mixed-blood Dragon Clan.

Just a while ago, a second-circle wizard from Area 8 had come to look for trouble. He was beaten up and fled.

"Without a doubt, I am the master of this sea!" Gustav thought.

Yes, the sea dragon crocodile had a name, and that was Gustav!

This was a name that was deeply buried in its bloodline memory. It was as if it was born with the name Gustav.

It possessed intelligence and strength that far surpassed that of its kind, and was not something that ordinary second-circle wizards could compare to. Anyone who looked down on Gustav would have to pay the price!

On the other side, Levi marked the coordinates of this place on the sea map. He also stored the aura of the sea dragon crocodile in the Black Snake's Message. Once Levi had the strength, he would capture it and tame it.

Second-circle sea beasts were usually Lords in the sea area they were in, so they had a strong sense of territory. They usually would not move about, or they would be attacked by other second-circle sea beasts. Therefore, Levi was not worried that he would not be able to find the sea dragon crocodile.

Judging from the island's situation, the sea dragon crocodile treated it as its home and had lived there for more than a hundred years.

After returning to Leviathan's side, Levi had it take a long detour around the sea area where the sea dragon crocodile was entrenched.

In Year 1032 of the Holy Brilliance Calendar, Levi finally arrived at Area 8 at the

End of the Month of Northern Wind.

According to his understanding, the situation in Area 8 was not much different from Area 9. There were also two third-circle organizations and more than ten second-circle organizations.

Among them, the Pharmacist Association that Levi was going to visit was in a third -circle wizard organization called the Hot Wind Harbor Wizard Alliance.

The Hot Wind Harbor Wizard Alliance was the largest wizard organization in

Area 8. It had two third-circle wizards. One was the leader of the alliance,

Master of Flames Claur, and the other was Lush Forest Witch Lola. The Lush Forest Witch was the president of Area 8's Pharmacist Association and a senior second-circle pharmacist. It was said that the two seemed to be husband and wife, but for some reason, the relationship between them was not very harmonious.

There were many different factions in the Hot Wind Harbor Wizard Alliance. The leader of the alliance, Master of Flames, was from the Burning Faction, while the deputy leader, Lush Forest Witch, was from the Life Faction.

Before Levi came, he had done his homework. From the information he had received, Lush Forest Witch was relatively easy to deal with. Moreover, his teacher, Marlene, had asked someone to tell Lush Forest Witch about him earlier. Presumably, the other party would not make things difficult for him, so there should be no problem with him becoming a certified pharmacist.

To not be targeted by others, Levi did not plan to concoct a precious first-circle potion for the certification. He planned to concoct a simple first-circle health potion. Either way, as long as it passed the standard, it was fine. He only wanted to register as a pharmacist to sell potions.

Ocean Current Island, where the Hot Wind Harbor Wizard Alliance was located, was huge. The wizard organization's base was located on a quiet harbor surrounded by mountains.

When they were still some distance away from the Hot Wind Harbor Wizard Alliance, Levi got off the Dragon King Whale and had it wait for him in the depths of the ocean. He then used the first-circle flying spell, Flying Fish Ocean Leap, that came with the Flying Fish Robe and began to glide long distances over the sea.

Following this, he boarded an Azure Ship that was about to arrive at the port. On the ship, there were many people other than Levi. He sensed that there were three official wizards, all wearing the robes of the Alliance. Other than them, there were also many apprentice wizards and some mortals.

These mortals were the potential wizards that the Hot Wind Harbor Wizard Alliance had found recently. Most of them were children. They looked at the magnificent wizard city, Hot Wind City, in front of them curiously and timidly..
