

Wizard 449

Chapter 449: Three Forms Combined! Flame Giant Levi!

(1)

On the blue sea, waves hit the volcanic rocks of Black Fire Island, creating countless white foam.

In the scorching cave under Black Fire Island, a pale witch wearing a red robe had her eyes closed tightly as if she was healing herself. A misty creature made of flames was absorbing the rich fire element power from a crack in the lava. The creature looked around, seemingly on guard.

Suddenly, the witch opened her eyes and exhaled a breath of hot air.

Beads of sweat seeped out of her forehead and evaporated.

This witch was the mistress that the Master of Flames Claur had abandoned after the incident in Hot Wind City. She was a Second-Circle Wizard, the Red Flame Witch.

In the previous battle with the accursed sea dragon crocodile, the witch was injured, severely damaging her spiritual force. She had not been able to recover all this while because she did not have a suitable place to cultivate and was constantly being hunted by the enforcers of the Star Tower.

Now that she finally got rid of the enforcers, she wandered around the sea until she came to this island. With the level 1 Fire Elemental Spirit she had raised, she searched for places with fire element power and accidentally came to Levi's cave abode on Black Fire Island.

After resting on Black Fire Island for two days, she felt that this place was suitable for cultivation.

The Red Flame Witch sneered. She did not know who Black Fire Island belonged to, but from now on, it was hers.

If the original owner was a Second-Circle Wizard, she would immediately escape. However, if they were a First-Circle Wizard, she would take them down and occupy this island.

The Red Flame Witch had already inspected the island. Some first-circle undead and alchemical creatures were on the island, indicating that the island was inhabited. To avoid alerting the owner, she had sneaked into the cave abode with her second-circle cultivation and avoided the creatures.

Naturally, the crude arrays set up by the original owner would not be able to hinder her, a Second-Circle Wizard.

On the other hand, those Zerg were impressive. Unfortunately, she did not know the School of Insects' Insect Controlling Technique.

Moreover, there were many herbs with fire affinity on the mountain peak in the middle of the island. The original owner had carefully taken care of them.

In short, the more the Red Flame Witch saw of the island, the more she felt that it was pleasing to her eyes. It was the most suitable shelter for her.

She only needed to find a way to eliminate the island's owner or enslave them secretly. She could then occupy the island. She would leave this place after she recovered from her injuries and regained her strength as a Second-Circle Wizard.

As night fell, Levi and the white snake appeared in the distance.

"The person is still in my cave abode!" Levi's heart sank.

However, he was in no rush to make a move. He was waiting for a more suitable opportunity.

Levi waited until midnight. With the stars shining high up in the sky and the starlight covering the sea, Levi's condition peaked with the support of Favored By The Night.

Levi took a deep breath and said, "Jorman, get ready to attack. I'll hide in your mouth, and you'll attack first."

Levi shrank and entered Jorman's mouth. Jorman quickly approached the island.

Before they reached the island, the expression of the Red Flame Witch resting in Black Fire Cave changed.

"There's a second-circle transcendent creature approaching."

She immediately got up and left the cave with her level 1 Fire Elemental Spirit. She looked at the giant frost-white snake that stood proudly with its head held high and its chest puffed out. The giant snake's eyes stared at the Red Flame Witch, making her uneasy.

She was a decisive person. She immediately tried to sneak away.

She was not in her peak condition, so it was better not to fight head-on with a second-circle sea beast. Moreover, the other party was a mixed-blood Dragon

Clan.

She was in such a passive position precisely because of that damned sea dragon crocodile, a mixed-blood Dragon Clan. Once bitten, twice shy.

However, Jorman would not let her escape. Ice Arrows gathered around Jorman and flew towards the witch with a whistling sound.

The Red Flame Witch looked at the white snake attacking her, and her expression turned cold. She commented, "This is the first time I've been looked down like this."

As she flew, she performed hand seals. Flames surrounded her, melting the Ice Arrows before they could get close.

Second-Ring Defensive Spell, Flowing Flame Guard!

"Today, I'll kill you even if it takes me some effort, you damn snake!"

The Red Flame Witch stopped running. She waved an array, and a huge fireball flew out toward Jorman. Jorman's frost armor condensed and blocked the Big Fireball Technique.

Levi took the opportunity to emerge. The Blood Wings on his back flapped and turned into crimson light.

The Red Flame Witch's expression turned cold, and she said, "I knew you were hiding in there. Fayle, deal with that person."

The Red Flame Witch was a Second -Circle Wizard with extremely sharp spiritual perception. Naturally, she had long discovered Levi hiding in the snake's head. However, after she sensed that the other party was only a First-Circle Wizard, she did not pay too much attention to him. The biggest threat to her was still the white snake. It was a genuine second-circle transcendent creature.

The level 1 Fire Elemental Spirit she called Fayle was a gift from Clair.

Fire Elemental Spirits were generally elemental lifeforms with a slight chance of being born in Multidimensional Planes or some places in the Wizard World rich with fire elements..
