

## Wizard 450

Chapter 450: Three Forms Combined! Flame Giant Levi!

(2)

Fire Elemental Spirits were also transcendent creatures. They were the favored ones of fire and were born with the power of elementalization. They could use powerful fire spells. If exposed to rich fire elements for long periods, there was a slight chance that the Fire Elemental Spirits could advance. A level 2 Fire

Elemental Spirit was as strong as or even stronger than a Second-Circle Wizard of the Burning Faction.

That was why the Red Flame Witch had faith in Faye's strength. No wizard below the second circle could be his match.

Levi held the Poseidon Trident, and his speed was extremely fast. He almost turned into a crimson light. He did not use the Big Fireball Technique that he had just learned. His opponent was a Second-Circle Wizard of the Burning Faction. If he used the Big Fireball Technique before her, it would be like waving a sword in front of a master swordsman.

Levi's layers of Black Gold Scales protected him. His Flame Body was burning fiercely, and blood-colored ashes floated around him. Other than that, all his legendary organs, such as Whale Back, Ostrich Feet, and Frost Arm, were activated.

His Red Lotus Seed burst open. Burning hot blood surged in his chest. Levi turned into a three-meter-tall Flame Giant. Behind him, a seven-meter-tall Nine Swords Asura phantom that looked like a demon god appeared. It held nine swords in its hands and was a force of destruction!

Against such an enemy, Levi did not dare to hold back at all. He immediately activated all his special effects and added the Red Lotus Form and the Nine Swords Form.

The Fire Elemental Spirit had already seized the initiative, turning into a fiery meteor. Its speed was similar to Levi's crimson light.

The fiery meteor collided with the crimson light, and a shockwave swept out.

The Red Flame Witch laughed, saying, "You fool, you're courting death. If you go head-on with the Fire Elemental Spirit, it won't be long before you turn to ashes."

The Red Flame Witch was no longer wary of Levi. She focused on dealing with the white snake. Although not as strong as her peak, she could use a few Second-Ring Spells without issue.

The flames exploded and scattered into countless fragments. The fragments gathered in the air again. Fayle's figure appeared, becoming a five-meter-tall Flame Giant floating in the air.

Levi was shocked.

He felt fortunate that he had brought White Snake Jorman over. As expected of a Second-Circle Wizard, the witch still had many tricks up her sleeves even though she was not at her peak condition.

Levi did not expect the witch to have a level 1 Fire Elemental Spirit as her bodyguard.

If he didn't bring Jorman with him and fought alone, even if he might have no problem dealing with a Second -Circle Witch with an unstable aura, he would still have trouble dealing with a dangerous Fire Elemental Spirit.

The elemental spirits were the favored ones of the elements. The strength and variety of spells they mastered far exceeded that of ordinary first-circle transcendent creatures. Many wizards even regarded the elemental spirits as the strongest among all transcendent creatures and beings of the same realm. Only excellent, senior wizards could resist them.

Fortunately, Levi was never careless. He immediately activated his Flame Body, which gave him a relatively high resistance to fire elemental spells. Coupled with the powerful Black Gold Scales, he completely negated the Fire Elemental Spirit's power.

Levi summoned the living dead that he had prepared beforehand. They were

Kane, Terrell, and Little Octo. At the same time, the living dead that he had hidden in various places also rushed over.

To Levi's surprise, the witch did not finish off the living dead he had left on the island. He had already written them off.

Instantly, the seven living dead and the Bone Snake Igor gathered together, forming a powerful force that attacked the Fire Elemental Spirit. "Hold this guy back for a while."

Levi ordered his eight underlings to surround the Fire Elemental Spirit.

He had to help Jorman. He couldn't waste time here. If anything happened to Jorman, he couldn't report back to the tower.

Even though these living dead could not take on the Fire Elemental Spirit alone, the eight could still fight against the latter. They even managed to seize the upper hand and suppress the other party.

However, it was evident that the damage they could cause to the Fire Elemental Spirit, who was proficient in elementalization, was limited.

Levi jumped up high!

Sea – Swallowing Whale!

Levi took a deep breath, and the energy from his hump and the blood sacs quickly surged into his body.

He was like an iron ball that had expanded as he came crashing down.

In the process of falling, endless steam and white smoke filled the air, and the temperature of his Flame Body increased. Levi's body grew larger and larger until he became a five-meter-tall Flame Giant!

He combined the Nine Swords Form, the Red Lotus Form, and the Giant Whale Form!

With the three forms combined and the special effect of Favored By The Night, Levi's power reached an unprecedented height. He felt that he had transformed into a true giant from the legends.

Nine Golden Swords slashed down from above!

Even the void seemed to tremble and rumble!

Before the swords landed, the force of the attack began to part the dust on the ground!

Jorman tactfully dodged. Before he left, he blew out a breath of cold air, which turned into ice blades that shot toward the Red Flame Witch, blocking her movements and sealing her position!

Looking at the giant that had suddenly appeared, the Red Flame Witch's expression changed. She activated her second-circle defensive force field to the maximum and barely dodged the ice blades from Jorman.. However, Levi's invincible attack was already right above her!
