

Wizard 451

Chapter 451: Three Forms Combined! Flame Giant Levi! (3)

An unparalleled power that could break all techniques!

The protective force field around the Red Flame Witch was activated. Light flashed as she stubbornly resisted Levi's attack. The next moment, the power of the Golden Revolving Slash was transferred from the Nine Golden Swords to her protective force field.

Her protective force field began to distort and rotate in the Revolving Force. The stable structure of the force field was destroyed!

"Slash!"

Levi shouted!

Crack!

The force field shattered, but the moment it shattered...

The Red Flame Witch sneered, turned into a ball of flames, and exploded into nothingness. In a flash, she had already disappeared from her original spot.

In its place was the Fire Elemental Spirit!

This was the spell-like ability that the Fire Elemental Spirit had mastered.

"Flame Transfer!"

It could switch positions with the Red Flame Witch within a short distance and take the fatal blow on behalf of the witch.

That was why Levi's attack was so terrifying!

All of them struck the Fire Elemental Spirit.

The Asura's flames soared into the sky, and the nine swords spun, instantly shattering the Fire Elemental Spirit!

Stars of flames gathered around the Red Flame Witch. The weak figure of the Fire Elemental Spirit, which was much smaller, appeared with a look of deep fear on its face.

Although it had fire elements, the Nine Swords Asura was formed from black gas. All its attacks could cause damage to elementalization. The nine swords just now had already weakened the Fire Elemental Spirit. If it attacked a few more times, it would be destroyed!

"As expected of a Second-Circle Wizard."

Giant Levi stood on the island, his expression unchanged as he sighed.

"What an interesting little fellow. You can actually force me into such a state. I still have something to do. I won't play with you today." The Red Flame Witch sneered and turned into a beam of light, about to escape.

"If you can't win, just say that you don't want to play with me anymore.

Jorman, go!"

Giant Levi ran across the island. The entire island seemed to be trembling. Jorman followed closely behind and used his head to lift Levi up. Levi stood tall on the snake's head with his scales closed.

In Jorman's mouth, a terrifying energy fluctuation was brewing, and an ice-blue light was flickering. This was Jorman's most powerful spell-like ability.

Frost Breath!

Boom!

Layers upon layers of thick and heavy Black Gold Scales protected Levi. Levi's entire body was shot out like a cannonball by the force of the breath. Although he had reached the peak of Strength in his giant form and could destroy the defensive field of a second-circle, his speed was not as fast as before.

Therefore, Levi directly used his Black Gold Scales to resist Jorman's breath ability. With the help of this force, he instantly closed the distance between him and the Red Flame Witch.

"Lunatic!" The Red Flame Witch cursed and ran away frantically.

What kind of lunatic was this? He actually used the breath of a second -circle transcendent creature as a driving force. This was too suicidal.

An ice giant appeared behind the Red Flame Witch. Under the thick layer of ice, flames were burning fiercely. The scales moved and rubbed against each other, making the sound of metal colliding. In an instant, the ice layer splashed.

A blood-red tentacle shot out instantly, but it was blocked by the Red Flame Witch's protective force field.

The aberration-like mouth bit the force field, and then wrapped around the

Red Flame Witch's force field like a long whip, trapping her and tying her up.

The scorching flames burned Levi's Vampire Touch, but Levi did not let go at all. He had already put away the Poseidon Trident and grabbed the Vampire Touch with his bare hands, pulling the Red Flame Witch who was desperately resisting, along with her protective force field, over.

The veins on his face bulged, and his scales protruded like a Black Gold Horned Dragon. The Nine Swords Asura behind Levi also held the Red Flame Witch in his arms with nine long swords.

"You're not a wizard... What kind of monster are you?" The Red Flame Witch looked at the scaled monster that was "holding" her in its arms. Unknowingly, golden scorpions had crawled all over her force field and were crazily biting it.

Rings of terrifying flame flow burned around the Red Flame Witch, and the high temperature swept across. Golden scorpions fell to the ground one after another. Some were directly charred and died, but more and more scorpions rushed forward and bit desperately.

Levi was exerting all his strength as if he wanted to hug the woman hiding in the protective force field in front of him. He protected himself with the Blackgold Scales and allowed the weak Fire Elemental Spirit to bombard him with spells.

He smiled cruelly.

Crack!

Above Levi's Undying Fire Claw, the power of the Golden Revolving Slash gathered again. In his arms, the force field of the Red Flame Witch began to distort again, as if it would be torn apart by Levi's claws in the next moment. The Red Flame Witch struggled with all her might. She directly began to chant spells in front of Levi, and the terrifying Five Fireballs Technique was brewing.

"Come on, blow it up." Levi stuck out his tongue and smiled.

"Lunatic! Pervert! Monster! You're not human!" The Red Flame Witch's Five Fireballs exploded in her arms.

As a Spell Caster, she was naturally not too affected. Otherwise, the wizards of the Burning Faction would have blown her up long ago.

Terrifying flames soared into the sky. Jorman also looked at the terrifying Levi in midair in a daze.

Was this Levi? It was a real monster! He, Jorman, was a little brother!

The fire illuminated the sea, and the night was as bright as day.

After the explosion, the Red Flame Witch looked at the charred Black Gold Giant in front of her. The Black Gold Scale on his body had been blown apart, and his flesh was badly mutilated. There were burnt marks everywhere. On the monster's flesh and blood, green spell runes were flashing rapidly.

The next moment, as pieces of Blood Ember fell around Levi, the burnt areas fell off in an instant. New flesh sprouts grew out of the wounds densely, like thousands of earthworms crawling out of the soil. The witch saw with her own eyes that the monster's body instantly recovered to its original state.

As for the monster's hideous head that was protected by the thickest scales, it was completely fine.

Levi opened his eyes and looked at the witch in his arms. At this moment, the Red Flame Witch's protective force field had been shattered. Her soft and delicate body was tightly hugged by Levi's thick and hard body. Her breathing was rapid, and the veins on her face were bulging. She was about to be suffocated by Levi's passionate hug.

She looked at Levi in disbelief, her eyes filled with fear. She had turned from a high and mighty witch into a pitiful and weak woman. She was at her wit's end when facing this monster with five fireballs on its face.

She gave up struggling and panted heavily. Her entire body was drenched in sweat, and her robe had also been torn during the battle. Her tight inner shirt revealed her beautiful figure and some rare scenery.

"What a beautiful body. I don't think I've hugged a woman since I came to the other world."

Hearing this, the Red Flame Witch came up with a plan!

A honey trap!

Back then, she had successfully taken Claur down with a honey trap and some bed skills. She might as well use it again this time.

However, before she could speak, Levi sighed and suddenly exerted strength in his arm. The Red Flame Witch's body in his broad chest shattered with cracking sounds. Her bones exploded and her flesh and blood flew everywhere.

Finally, the corpse of the second-circle witch fell to the ground, and her head rolled to the side.

"Hmph, you stole my house.. You deserve to die!"
