

Wizard 455

Chapter 455: Heavenly Eagle Breathing Technique! (1)

Yellow Earth Continent, Lion King City.

This was a large city facing the sea.

Lion King City was also a city controlled by wizard organizations, but it was much larger than Hot Wind City.

Outside Lion King City, a tall and mighty golden lion statue stood there. From time to time, some tourists would come to watch.

Levi's figure slowly approached. He sized up the city. Even with his Top-tier Vibrosensing, it was not enough to cover this city.

"It's been a long time since I've encountered such a place with the smell of mortals." Levi could not help but recall the past. The mortal Icewind City, the Snow Capital City, the Holy City, Lantis, and so on all had his footprints.

Levi approached the city gate and said to a guard, "Hello, I'm looking for Dinos Jostar."

The guard was a First-Circle Wizard. Since he was known as one of the Three Grand Wizard Families in the Yellow Earth Continent, the Jostar Family naturally had to maintain their reputation. The one

guarding the city was actually a First-Circle Wizard with a high status in other places. However, the Jostar Family did have the capital to do so.

The guard was not too surprised when he sensed the spiritual power fluctuation of Levi's senior first-circle wizard.

Including the nomadic wizards who lived in Lion King City, there were nearly 70 to 80 First-Circle Wizards who lived in Lion King City. Therefore, First-Circle Wizards were not that rare here.

However, no matter what, as long as they were First-Circle Wizards, they could not be negligent. This would affect the image of Lion King City.

"May I know your name?" the guard asked with a smile.

"Levi Schneider," Levi said. He did not know if his name was useful.

"So it's Sir Levi. You're finally here. Wait a moment, I'll inform Young Master Dinos." A voice transmission conch appeared in the guard's hand. Then, he said, "Quick, call young master. Sir Levi is here. Prepare for the ceremony."

Livy was dumbfounded. "Do we still need a welcome? I can go in myself."

"That won't do. The young master said that we must welcome you with the etiquette of Lion King City welcoming Second-Circle Wizards into the city." The guard chuckled.

Levi was speechless.

Levi wanted to say that there was no need, but the sound of fireworks had already sounded in Lion King City. The high-altitude fireworks soared into the sky and exploded, scattering into golden light spots that filled the sky. Then, these golden light spots gathered into a golden lion phantom that was a thousand feet tall. The golden lion was extremely majestic. It stretched out a furry cat claw and gestured for Levi to enter.

At the city gate, teams of honor guards riding the Great Horned Horses were dressed in aristocratic clothes similar to mortals. They wore tall top hats and played tacky music.

Levi broke out in a cold sweat. He really did not expect the Golden Lion Jostar Family to be so rich... and creative. That's right, this was not vulgar at all...

A handsome golden-haired nobleman rode on a golden horse. After dismounting elegantly, he came to Levi under the escort of guards. It was Dinos Jostar.

"Sir Levi! You're finally here!"

Dinos held Levi's hand tightly.

"Young Master Dinos, this is too grand. You don't have to do this." Levi looked at the sea of people welcoming him, and his social phobia began to act up.

"The Jostar Family always pays their debts. I once said that if you come to Lion King City, we will definitely welcome you. How can we go back on our word?" Jostar said solemnly.

"Alright, let's not talk about it anymore. Please follow me back to the Golden Lion Castle. My father also wants to see you."

Helpless, Levi smiled and said, "In that case, I'll have to trouble you."

This was the first time in his life that he had encountered such a grand scene. He was completely unaccustomed to it.

They arrived at the Golden Lion Castle. Although it was called a castle, it was actually a wizard tower. There were three wizard towers standing in the castle, and the one in the center was a thousand feet tall, as if it reached into the clouds.

In terms of the construction style of the wizard tower, there were many decoration styles of mortal noble knights. Obviously, the Jostar Family had the intention to preserve these noble temperaments. All of this could not be separated from the influence of the first family head, the legendary knight

Rhine.

"Young master, the old master has already prepared a banquet. It's in the banquet hall."

"Young master..."

Servants in gorgeous clothes lined up on both sides.

In a trance, Levi thought that he had returned to the mansion of a noble in the secular world.

There were many experts in the Golden Lion Castle. Levi could vaguely sense several auras that were at least at the second -circle with his Perception.

From the information he received, the Jostar Family had two Third-Circle Wizards and five Second-Circle Wizards. As for the First-Circle Wizards, there were more than 30 of them.

Of course, many organizations liked to hide their trump cards. Therefore, Levi did not know how many experts there were. In short, they crushed the Gray Tower, which was also an organization of Third-Circle Wizards.

After all, there was a Third-Circle Wizard who was also a Third-Ring Organization, and five Third-Ring Organizations were also Third -Ring Organizations. The difference was obvious.

After coming to the Yellow Earth Continent, Levi had to keep a low profile and not cause trouble. However, he could not be too afraid of trouble. After all, with his current strength, he was almost at the level of a second-circle cultivator. In the Yellow Earth Continent, he was definitely an expert.

In the banquet hall that was like a small square, opposite the huge long table, a golden-robed aristocrat with golden hair and a resolute face sat upright. However, one could tell that he was handsome when he was young. He stared at Levi, who was sitting opposite him. Tostar and his siblings sat beside the old aristocrat..
