

## Wizard 456

### Chapter 456: Heavenly Eagle Breathing Technique! (2)

"I've long heard from my son that you're a legendary knight. Now that I've seen you, your aura is indeed extraordinary, just like the portrait of your ancestor as a legendary knight," Golden Lion Lyon Jostar said with a smile.

"Senior, you must be joking. Even if a junior like me enters the legendary realm, how can I be compared to the lionheart knight?" Levi hurriedly said humbly.

"Hahahaha, indeed, my ancestor is also a top-notch existence among legendary knights, but you don't have to be so humble. You're not old, and you're still a First-Circle Wizard. Your future achievements will definitely not be low." Lyon laughed. In the eyes of the Jostar Family, no matter how many great wizards there were in the younger generation, they could not compare to the contribution of the lionheart knight to the family.

These people were proud from the bottom of their hearts that they were the descendants of the lionheart knight.

This was a form of family cohesion. The lionheart knight was their heroic ancestor who was comparable to a god. It was also a form of faith.

During the dinner, Lyon and Levi talked about many things, but they basically talked about knights. Levi could tell that although Lyon was already a powerful third-circle wizard, he was still thinking about becoming a legendary knight. Therefore, he was also trying to ask Levi for the secret to becoming a legendary knight.

Levi naturally had nothing to hide. He told Lyon and the others what he knew, which benefited them greatly.

In fact, Levi also hoped that Lyon and his son could become legendary knights so that they could join his Twilight Knights. With a powerful family head of a Third-Circle Wizard family, the Twilight Knights would have a good backing and starting point in the Wizard World, and their future development would be much smoother.

In the end, after eating and drinking to his heart's content, Lyon said directly, "Sir Levi, I wonder if you're willing to join our Jostar family as an external guardian. You can enjoy a salary of 300 Aether Stones every year. This is just an empty position. You don't have to do anything."

Levi said in embarrassment, "Senior, I really can't afford this. Moreover, I'm a member of the Gray Tower, so I'm not suited to accept other positions outside."

There was no free lunch in the sky. The Jostar Family was powerful and Levi was willing to build a good relationship with them. However, it was different if he was a guardian. After receiving the money, even if the Jostar Family did not let Levi do anything on the surface, how could Levi be at ease? This was the logic of eating someone else's food.

Moreover, 300 Aether Stones a year was a lot for other First-Circle Wizards.

Most First-Circle Wizards could not earn so many years of salary. However, Levi was different. He had his own business and could hunt dark wizards from time to time to earn some extra money. Therefore, he would not completely tie himself to the Jostar Family for this Aether Stone.

Lyon, on the other hand, seemed to have expected this. He smiled helplessly and said, "Then I wonder if you want to take in a disciple? I want Dinos to be your disciple. Dinos is a very talented knight. He's already a top grand knight and is not far from becoming a legendary knight. If he follows you, he might be able to break through to a legendary knight as soon as possible."

"Father, I don't need to trouble Sir Levi. It's not like I can't become a legendary knight myself," Dinos said hurriedly. He naturally had his own pride.

"Don't force yourself. Without the guidance of a master, you can only explore blindly. When will you become a legendary knight? Give me a number," Lyon said coldly, his tone unquestionable.

Dinos was speechless.

Yes, Dinos.

When did you become a legendary knight?

He could only look at Levi for help. Levi coughed and said, "If Dinos is willing, I can give him some pointers. There's no need to be a teacher. I'm just crossing the river by feeling my way. I'm afraid that I'll lead Dinos astray."

Lyon thought for a moment and said, "That's fine. Our family can pay for the guidance. It just so happens that Dinos needs to go to Area 9 often. When he goes, he can go to you. I'll have to trouble you to guide him."

"You're too kind, senior," Levi said.

If it was just a simple collaboration, Levi would naturally be willing. This way, he could earn some extra money and build a good relationship with the Jostar Family. It would also be much more convenient for him to cultivate in the future. After all, he might be able to buy many resources from the Jostar Family. He could directly sell them to the manufacturer without any middlemen to earn the difference.

After finalizing the terms of the collaboration, the banquet ended. After leaving, Levi stopped Dinos.

"Dinos, I have something here. I accidentally found it in the human world. I was in a hurry the last time we met, so I didn't take it. This time, I came to the Yellow Earth Continent and brought it with me." Levi took out a hammer.

"This is... our ancestor's weapon?" Jostar was shocked and said.

"That's right. I obtained this from a duke of a kingdom in the human world. It helped me overcome many difficulties. It's time to return it to its rightful owner."

"Thank you, Sir Levi. I'll accept it. I'll explain it to my father later and get someone to send you a thank-you gift. This thing is indeed important to our family. It was through the maker of this hammer that our ancestors accidentally opened the door to the Wizard World and the Jostar Family of the Wizard World!" Dinos said excitedly..
